In compliance with the provisions of Section 2279 of the California Food and Agriculture Code, I hereunder submit this report of the agricultural production for Napa County for calendar year 1987. This report deals with the gross value of production and does not attempt to reflect net farm income nor cost of production and marketing.

The gross value of all production was down $ 3,768,000 from 1986. 1987 winegrape production, down 13,039.9 tons from 1986, was the primary reason for this decrease in value. The decrease in production was partially offset by an increase in average prices paid for most all grape varieties.

Data used for the preparation of this report has been obtained from producers, processors, government agencies, and others, whose cooperation and assistance is sincerely appreciated. In addition, I would also like to extend my appreciation to the staff for their effort in the preparation of this report.

Respectfully submitted,

Stephen J. Bardessono
Agricultural Commissioner
