5. REENTRY UPDATE

There have been several meetings held to address the reentry facility. The discussions revolve around the initial proposal and the current situation, considering the individuals currently in custody. We will present the initial proposal and our latest data to the board of supervisors for their assessment.

6. UCCI UPDATE

An invite will be going out for the EBP 101 training on April 12 at the Napa Valley College Performing Arts Center. The event is in-person, but if you are unable to attend, there will be a virtual option available at a later time.

7. PRESENTATION ON THE LOCAL INNOVATION FUND BY DANIEL SANCHEZ

As part of the 2011 realignment, a local innovation fund was established. A portion of the growth from various realignments is allocated to a fund that currently holds \$371,000, available for innovative projects. If the funds remain unused, they will be carried over to the following year. If you have an innovative project in mind for your department, you can request funds, which will then be presented to the board of supervisors for approval.

8. PLANNING GRANT UPDATE

This grant focuses on the population coming out of incarceration that has mental health needs. Our goal is to pinpoint any communication gaps with our partners and establish effective data-sharing practices. We are currently working on integrating all of these services for an individual prior to their release.

9. OPERATIONAL UPDATES

A. PRETRIAL – Report from Superior Court and the Probation Department

We have re-established a pretrial program built on what we already had with a grant we received from the Judicial Council. There are many more requirements from legislation, state, and case law for what judges have to review, but the number of resources we have to fund the program has decreased. Initially, the pretrial program received a grant that covered its entirety, but the funding has since decreased. We now require financial support from our department to continue to fulfill the court's needs.

B. JAIL POPULATION – Report from the Corrections Department on the current population

Today's jail population is 230. The county bail schedule has returned to its normal state and the COVID protocols have been lifted. We have partnered with the Department of State Hospital to implement the Early Access Stabilization Services Program, aimed to help with the waitlist for those deemed IST. The State Hospital contracts with Wellpath who provides the psychiatrist and nursing staff to take the evaluations at the jail. The intent is to restore people early instead of waiting months for a bed at the State Hospital. We have recently received a notice from the state informing us that counties will face penalties if they surpass their committed baseline number for State Hospital patients. The groundbreaking for the new jail is tentatively planned for March 13th at 10:30 am. The jail is hiring and it currently has 18 vacancies.

C. MENTAL HEALTH DIVERSION – Report from Health and Human Services Agency

There are new positions that are going to the board of supervisors for approval. On April 10th, there will be a meeting to deliberate on mental health diversion infrastructure and protocols.

D. STATUS OF REALIGNMENT FROM PARTNERS – Roundtable discussion from Members and Community Partners

District Attorney: No updates.

Public Defender: A few years back, we were granted funds by the Board of State Corrections to conduct mental health evaluations for diversion purposes. Recently, we were informed that the grant had been extended for another year, and we still have access to funds that enable us to continue carrying out these evaluations.

HHSA: No updates.

CEO's Office: No updates.

Police Department: No updates.

CCSC: No updates.

Courts: No updates.

10. ADJOURN
