“We are grateful to the public for their interest and participation throughout this process, which has included for the first time, a mix of in-person and virtual meetings,” said John Tuteur, Napa County Registrar of Voters who is managing the redistricting process for the Board.

Redistricting is the regular process of adjusting the lines of voting districts in accordance with population shifts. Each county with district-based elections is required to update (“redistrict”) the district boundaries every ten years, following the receipt of the 2020 population data from the federal census.
