PROJECT GENERAL NOTES:

1. The contractor shall be in receipt of approved plans and permits prior to construction.

2. The contractor shall notify all utility companies involved in the area prior to the beginning of work. Contractor shall not proceed with any work unless all utility companies have been notified.

3. The contractor shall possess the license or licenses as specified in the contract documents.

4. The contractor shall be responsible for maintaining a safe working environment at all times. Any work performed shall be in accordance with the approved plans and specifications.

5. The contractor shall provide all necessary labor, materials, equipment, and facilities for the performance of the work under this contract.

6. The contractor shall notify the engineer, if any, and the inspector in writing, at least 48 hours in advance of any work on existing or adjacent lines, structures, or facilities. All work on existing or adjacent lines, structures, or facilities shall be under the direct supervision of the engineer or the inspector.

7. The contractor shall provide all necessary labor, materials, equipment, and facilities for the performance of the work under this contract.

8. The contractor shall be responsible for maintaining a safe working environment at all times.

9. The contractor shall notify the engineer, if any, and the inspector in writing, at least 48 hours in advance of any work on existing or adjacent lines, structures, or facilities. All work on existing or adjacent lines, structures, or facilities shall be under the direct supervision of the engineer or the inspector.

10. The contractor shall be responsible for maintaining a safe working environment at all times.

11. The contractor shall notify the engineer, if any, and the inspector in writing, at least 48 hours in advance of any work on existing or adjacent lines, structures, or facilities. All work on existing or adjacent lines, structures, or facilities shall be under the direct supervision of the engineer or the inspector.

12. The contractor shall provide all necessary labor, materials, equipment, and facilities for the performance of the work under this contract.

13. The contractor shall notify the engineer, if any, and the inspector in writing, at least 48 hours in advance of any work on existing or adjacent lines, structures, or facilities. All work on existing or adjacent lines, structures, or facilities shall be under the direct supervision of the engineer or the inspector.

14. The contractor shall provide all necessary labor, materials, equipment, and facilities for the performance of the work under this contract.

15. The contractor shall notify the engineer, if any, and the inspector in writing, at least 48 hours in advance of any work on existing or adjacent lines, structures, or facilities. All work on existing or adjacent lines, structures, or facilities shall be under the direct supervision of the engineer or the inspector.

16. The contractor shall provide all necessary labor, materials, equipment, and facilities for the performance of the work under this contract.

17. The contractor shall notify the engineer, if any, and the inspector in writing, at least 48 hours in advance of any work on existing or adjacent lines, structures, or facilities. All work on existing or adjacent lines, structures, or facilities shall be under the direct supervision of the engineer or the inspector.

18. The contractor shall provide all necessary labor, materials, equipment, and facilities for the performance of the work under this contract.

19. The contractor shall notify the engineer, if any, and the inspector in writing, at least 48 hours in advance of any work on existing or adjacent lines, structures, or facilities. All work on existing or adjacent lines, structures, or facilities shall be under the direct supervision of the engineer or the inspector.
EROSION AND SEDIMENT CONTROL PLAN
SCALE 1:200

NOTES:
1. CONTRACTOR SHALL INSTALL PERMANENT CHECK DAM AS DIRECTED BY ENGINEER.
2. CONTRACTOR SHALL INSTALL TEMPORARY CONCRETE INLET BASINS AS SHOWN AND AS PER CALTRANS STD PLAN TP1.
3. CONTRACTOR SHALL INSTALL TEMPORARY DIRT FENCING AS SHOWN AND AS PER CALTRANS STD PLAN TP1.
4. CONTRACTOR SHALL INSTALL TEMPORARY FİER FENCES AS SHOWN AND AS PER CALTRANS STD PLAN TP1.
5. CONTRACTOR SHALL INSTALL TEMPORARY CONCRETE INLET BASINS AS PER CALTRANS STD PLAN TP1.
6. ALL EXISTING UTILITIES SHALL BE PROTECTED IN PLACE DURING CONSTRUCTION.
7. EXISTING UTILITY LOCATIONS SHOWN ARE APPROXIMATE. VERIFY LOCATION OF ALL OVERHEAD AND UNDERGROUND UTILITY LINES AND POLES PRIOR TO CONSTRUCTION.
NOTES:
1. F's of concrete to be 4000 psi minimum at 28 days.
2. Allow sufficient cure time before striking beams; 2,500 psi strength is required.
3. Design is based on ACI ACI active pressure and 250 psi surcharge with maximum
   height of 15'.
4. Place 5/8" thick non-organic spacers between lagging for drainage (plastic sheet
   or steel washers).
5. Place what 1400 lb/m² of remaining size of lagging and backfill and voids
   between fabric and soil with pea gravel or 3" crushed rock.
6. Lagging shall lap 4" minimum on steel beams.
NOTES:
1. CONTRACTOR TO POST ONE VARIABLE ELECTRONIC MESSAGE SIGN BOARD ON THE BANK OF DIAMOND MOUNTAIN ROAD, ONE WEEK PRIOR TO CONSTRUCTION INFORMING THE COMMUNITY REGARDING PROPOSED CONSTRUCTION WORK, CONSTRUCTION SCHEDULE, TIMING, NOISE, TRAFFIC DELAYS, DETOURING, AND CONTRACTOR CONTACT INFORMATION.

2. WHEN SHUTTING DOWN ROAD TO ONE LANE OF TRAFFIC, CONTRACTOR SHALL ADD TWO FLAGGERS WITH TEMPORARY TRAFFIC CONTROL SIGNALS OR TWO FLAGS ON EACH SIDE OF WORK ZONE, ALONG WITH ANY RELATED SIGNS AS REQUIRED BY COUNTY TRAFFIC ENGINEER.

3. TRAFFIC SIGNS, FLASHING LIGHTS, BARRIERS, AND OTHER TRAFFIC SAFETY DEVICES USED TO CONTROL TRAFFIC SHALL CONFORM TO THE REQUIREMENTS OF CALIFORNIA VEHICLES (CURRENT ONLINE EDITION).

4. ADVANCE WARNING SIGNS SHALL BE EQUIPPED WITH TWO FLAGS EACH FOR DAYTIME CLOSURE. FLAGS SHALL BE AT LEAST 1/4" X 18" IN SIZE AND SHALL BE ORANGE OR FLUORESCENT RED/WHITE IN COLOR.

5. ROADWAY SHALL NOT BE CLOSED UNTIL SAFE FOR PUBLIC USE. ALL OPEN LANE IS MUST BE CLOSED OR BACKGROUND PREDICTIVE TO PUBLIC USAGE.

6. SEE SPECIAL PROVISIONS FOR CLOSURE ALLOWS.

7. THE CONTRACTOR IS RESPONSIBLE FOR COMPLIANCE WITH THE TRAFFIC CONTROL PLAN IN CONFORMANCE WITH THE LATEST CALIFORNIA VEHICLES STANDARDS AND AS APPROVED BY THE COUNTY TRAFFIC ENGINEER. IN CASE OF NON-COMPLIANCE, THE COUNTY RESERVES THE RIGHTS TO NOTIFY CONTRACTOR, NOT TO EXCEED 3 MOUNTS AT A TIME.

PROPOSED TRAFFIC CONTROL PLAN IS TENTATIVELY APPROVED AS NOTED FOR ROAD CLOSURE AT DAYTIME ONLY.

THIS TRAFFIC CONTROL PLAN IS SUBJECT TO MINOR MODIFICATIONS DUE TO SITE CONDITIONS AND AS APPROVED BY THE COUNTY ENGINEER AND/OR INSPECTOR.
