

Office: Napa County Supervisor District 3
Name: “Cio” Lucio Perez
Occupation: Vineyard Owner & Operator
Age: --

Education & Qualifications:

In order for Napa County to have a successful and sustainable future for ourselves, our children, our grandchildren, and future generations, it needs to encompass a more equitable balance between environmental, social, agricultural and economic policies and decisions. I am running for Napa County Supervisor to ensure that happens at all levels of county government.

As a farmer and businessman, I have a lifetime of knowledge and experience county government needs to better conserve watersheds, agricultural lands, and to protect the health and quality of life for the children, working families and seniors who live here.

I was raised in St. Helena. My family has been farming here for three generations. After graduating from UC Davis with a degree in viticulture, I returned home to be part of a tradition of farmers who take pride and responsibility for the land we work to protect.

As Supervisor, I will vote for projects that are beneficial for the communities, and I will take violations of land use permits seriously. I will protect our ecosystems, the watersheds and water resources. I will be fair, and will be a voice for the people of this county.

I humbly ask for your vote to be your representative on the Board of Supervisors.
