Approved

Juan S. Arias  County Engineer  RCE 63365
NOTICE TO CONTRACTORS

Proposals shall be submitted under a sealed cover plainly marked as a proposal, and identifying the project to which the proposal relates and the date of the bid opening therefore. Proposals which are not properly marked will be rejected. Sealed proposals will be received at the office of the Clerk of the Board of Supervisors, Napa County Administration Building, 1195 Third Street, Room 310, Napa, California, until 11:30 A.M. on July 14, 2022 (no bids will be accepted after 11:30 A.M.) after which they will be publicly opened and read for the construction in accordance with the Plans and Special Provisions thereto, to which special reference is made as follows:

3435 Redwood Road Slide Abatement
RDS 21-33

Engineer Estimate for Base Bid: $700,000

Zoom Meeting link: https://countyofnapa.zoom.us/j/87014972125
To listen to bid opening by phone, dial: 1 (669) 900-6833
Zoom Meeting ID: 870 1497 2125

Bids are required for the entire work called for by the Plans and Specifications, and neither partial nor contingent bids will be considered. In conformance with Public Contract Code Section 20129, bids must be valid for 90 days from the date bids are opened. Bid documents and any addendums are available at https://www.countyofnapa.org/Bids.aspx. Bidders are responsible for monitoring issued addendums at this website.

Bid results of the three apparent low bidders with their subcontractor’s list will be on the above website the following day after the bids are publicly opened and read.

The Plans and Specifications may be seen at the office of the Napa County Department of Public Works, 1195 Third Street, Room 101, Napa California. Plans, Special Provisions (excluding State Standard Specifications and other documents included by reference), Proposal Forms and Contract Forms may be obtained at said office by prospective bidders to those licensed by the State of California for the type of work involved, may be found electronically for no fee at https://www.countyofnapa.org/Bids.aspx.

In accordance with California Public Contract Code Section 3400, bidders may propose equals of products listed in the technical specifications or project plans by manufacturer name, brand or model number, unless the technical specifications or plans specify that the product is necessary to match others in use. Complete information for products proposed as equals must be submitted to the Public Works Office for review at least 10 Days before the time specified for bid opening. This submission deadline shall control over the timeline set forth in Section 6-1.05 of the Standard Specifications.

In accordance with Section 1771.1 of the Labor Code, a contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirement of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public works, as defined in this chapter, unless currently registered and qualified to perform public work pursuant to Section 1725.5. It is not a violation of this section for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded.
In accordance with the California Government Code Section 1773.2, copies of the applicable determinations of the Director are on file with at the Public Works Office and may be reviewed upon request. In accordance with the provisions of Section 1774 of the Labor Code, the prevailing wage rate for classifications of Labor to be employed in the work have been determined by the Napa County Board of Supervisors and is included in the Special Provisions referred to above.

No bid will be considered unless it is made on a blank form furnished by the County Engineer of Napa County and is made in accordance with the provisions of the proposal requirements and conditions set forth under the Standard Specifications of the State California, Department of Transportation, except as modified in the above referred to Special Provisions.

A bid guarantee in the amount of 10% of the total bid shall accompany the bid.

The successful bidder shall be required to furnish a Performance Bond in an amount equal to 100% of the contract price and a Labor and Material Bond in an amount equal to 100% of the contract price with good and sufficient surety.

Each bidder must be licensed as required by law.

The Contractor shall possess a Class “A” or C-12 license at the time of contract award. The Contractor and Sub-Contractor shall be registered with the State of California Department of Industrial Relations (Public Works Contractor (PWC) Registration) at the time of bid opening.

A mandatory bidder’s list will be required to participate in bidding for this project. The deadline to submit an entry for the list will be July 6, 2022, 5:00 P.M.; to be placed on the bidder’s list, contact James Reese (James.Reese@countyofnapa.org) with the following: 1. Company Name, 2. Company Address, 3. Contact Name, 4. Contact Email, 5. Contact Phone Number, and 6. Fax Number.

All questions must be mailed, faxed, or e-mailed to James Reese (James.Reese@countyofnapa.org). Napa County Public Works, 1195 Third St. Room 101, Napa, CA 94559, Fax No. 707-299-4283 by July 6, 2022, 5:00 P.M.

The Board of Supervisors reserves the right to reject any or all bids.

By order of the Napa County Board of Supervisors made this June 7, 2022.

NAPA COUNTY CLERK OF THE BOARD OF SUPERVISORS

INSTRUCTIONS TO BIDDERS

The Bid and Determining Low Bidder.

Bids are required for the entire work. The amount of the bid for comparison purposes will be the Total Sum of the Base Bid.

The bidder shall set forth for each item of work, in clearly legible figures, as item price and a total for the item in the respective spaces provided for this purpose. In the case of unit basis items, the amount set forth under the "Total" column shall be the extension of the item price bid on the basis of the estimated quantity for the item.

In case of a discrepancy between the item price and the total set forth for the item, the item price shall prevail, provided, however, if the amount set forth as an item price is ambiguous, unintelligible or uncertain for any cause, or is omitted, or in the case of unit basis items, is the same amount as the entry in the "Total" column, then the amount set forth in the "Total" column for the item shall prevail in accordance with the following:

1) As to lump sum items, the amount set forth in the "Total" column shall be the item price.
2) As to unit basis items, the amount set forth in the "Total" column shall be divided by the estimated quantity for the item and the price thus obtained shall be the item price.

In case of a discrepancy between the Total Sum of the Base Bid and the calculated total of the amounts in the “Total” column for each line item determined after using the above procedures for resolving the discrepancies, the calculated total of the amounts set forth in the “Total” column for shall become the Total Sum of the Base Bid and shall be used for comparison purposes in determining the lowest bid.

It is understood and agreed that the quantities of work under each item are approximate only, being given for a basis of comparison of proposal, and the right is reserved to the County to increase or decrease the amount of work under any item as may be required, in accordance with provisions set forth in the specifications for this project.

It is further understood and agreed that the total amount bid for the project does not constitute an agreement to pay a lump sum for the work unless it specifically so states.

If this proposal shall be accepted and the undersigned shall fail to contract as aforesaid and to give the two bonds in the sums to be determined as aforesaid, with surety satisfactory to the Director of Public Works within eight (8) days, not including Saturdays, Sundays and legal holidays, after the bidder has received notice from the County Engineer that the
contract has been awarded to him, the Director of Public Works may, at its option, determine that the bidder has abandoned the contract, and thereupon this proposal, and the acceptance thereof shall be null and void, and the forfeiture of such security accompanying this proposal shall operate and the same shall be the property of Napa County.

Form of Bid.

(1) To receive consideration, bids shall be made on the forms and in the manner set forth in the Notice to Contractors.

(2) Bids received after the date and time advertised for opening will be considered non-responsive and will be rejected.

(3) Each bid must be completed in ink, typewritten or computer generated, and all changes and/or erasures must be initialed in ink. Each bid must be signed in ink by an authorized representative of the firm.

(4) Bidders shall not change the bid form nor make additional stipulations on the bid form which are not consistent with the provisions of the specifications.

Taxes. Bid prices shall include all applicable federal, state, and local taxes.

Receipt of Bids. All bids must be received sealed in an envelope prior to the time specified in the Notice to Proposers or as amended expressly by an addendum. Late bids will not be opened and will not be considered under any circumstances.

Postponement of Opening. The County reserves the right to postpone the date and time for receiving and/or opening of proposals at any time prior to the date and time established in the Notice to Proposers.

Rejection of Proposals. The County reserves the right to reject any proposals which are incomplete, obscure, or irregular, any proposals which omit a bid on any one or more items for which bids are required; any proposals which omit unit prices if unit prices are required; any proposal in which unit prices are unbalanced in the opinion of the County; any proposals accompanied by insufficient or irregular proposal guaranty; and any proposals from bidders who have previously failed to perform properly or to complete contracts of any nature on time.

Relief of Bidders. Attention is directed to the provisions of Public Contract Code Section 5100, et seq., concerning relief of bidders, and in particular to the requirement therein that if a bidder claims a mistake was made in its bid, the bidder shall give the County written notice within five (5) calendar days after the opening of the bids of the alleged mistake, specifying in the notice, in detail, how the mistake occurred.
Bid Protest Procedures. All protesting bidders must pay a protest fee to Napa County Public Works before the protest is accepted in accordance with the Napa County Fee Policy adopted by the Board of Supervisors and last revised by Resolution 2019-70. The current Bid Protest Fee is $903.88 as set forth in Part III Fees, Part 140 Public Works, Section 140.015 and Section 140.115(f). Any bid protest must be in writing and received by the County at 1195 Third Street, Napa, CA before 5:00 p.m. no later than five (5) working days following the occurrence giving rise to the protest (the “Bid Protest Deadline”) shall be considered pursuant to the procedures set forth in Section 10 of the County Purchasing Manual and must comply with the provisions of that Section and those requirements set forth below:

(1) Only a contractor who has actually submitted a Bid Proposal is eligible to submit a bid protest against another contractor. Subcontractors are not eligible to submit bid protests. A contractor may not rely on the bid protest submitted by another contractor, but must timely pursue its own protest.

(2) The bid protest must contain a complete statement of the basis for the protest and all supporting documentation. Material submitted after the Bid Protest Deadline will not be considered. The protest must refer to the specific portion or portions of the Contract Documents upon which the protest is based. The protest must include the name, address and telephone number of the person representing the protesting contractor if different from the protesting contractor.

(3) The party filing the protest shall concurrently transmit a copy of the protest and all supporting documents by fax or by e-mail, by or before the Bid Protest Deadline, to the protested contractor and any other contractor who has a reasonable prospect of receiving an award depending upon the outcome of the protest.

(4) The protested contractor may submit a written response to the protest, provided the response is received by the County before 5:00 p.m., within two (2) working days after the Bid Protest Deadline or after receipt of the bid protest, whichever is sooner (the “Response Deadline”). The response must include all supporting documentation. Material submitted after the Response Deadline will not be considered. The response must include the name, address and telephone number of the person representing the protested contractor if different from the protested contractor.
(5) A copy of the protest and all supporting documents must also be transmitted by fax or by e-mail, by or before the Bid Protest Deadline, to the protested contractor and any other contractor who has a reasonable prospect of receiving an award depending upon the outcome of the protest.

(6) The procedure and time limits set forth in this section are mandatory and are the contractor’s sole and exclusive remedy in the event of bid protest. The contractor’s failure to comply with these procedures shall constitute a waiver of any right to further pursue a bid protest, including filing a Government Code Claim or initiation of legal proceedings.

It is the intention of the County to award a contract, if at all, to the lowest contractor who demonstrates the attributes of trustworthiness, as well as quality, fitness (including financial qualifications), capacity and experience to enable it to prosecute the work successfully and properly, and to complete the work within the time period named in the Contract Documents.

To determine responsibility, the County will weigh any evidence that the contractor has performed satisfactorily other contracts of like nature and magnitude, and comparable difficulty and rates of progress, to the Work. The County shall have sole discretion to determine what contracts are of like nature and magnitude, and comparable difficulty and rates of progress.
NONCOLLUSION DECLARATION TO BE EXECUTED
BY BIDDER AND SUBMITTED WITH BID

"I, ________________________________, hereby declare as follows: that he or she
is ________________________________ of ________ the party making the
foregoing bid that the bid is not made in the interest of, or on behalf of, any undisclosed
person, partnership, company, association, organization, or corporation; that the bid is
genuine and not collusive or sham; that the bidder has not directly or indirectly induced or
solicited any other bidder to put in a false or sham bid, and has not directly or indirectly
colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham
bid, or that anyone shall refrain from bidding, that the bidder has not in any manner,
directly or indirectly, sought by agreement, communication, or conference with anyone to
fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost
element of the bid price, or of that of any other bidder, or to secure any advantage against
the public body awarding contract of anyone interested in the proposed contract; that all
statements contained in the bid are true; and, further, that the bidder has not, directly or
indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof,
or divulged information or data relative thereto, or paid, and will not pay, any fee to any
corporation, partnership, company association, organization, bid depository, or to any
member or agent thereof to effectuate a collusive or sham bid."

I certify and declare under penalty of perjury that the foregoing is true and correct.

APPROVED AS TO FORM: JOHN L. MYERS
Napa Deputy County Counsel

By: John L. Myers (e-sign)
KNOW ALL PERSONS BY THESE PRESENTS THAT WE, _______________________________________, as Principal, and _______________________________________, duly authorized under the laws of the State of California to become sole surety on bonds and undertakings, as Surety, are held and firmly bound unto any and all materialmen, persons, companies or corporations furnishing materials, provisions, provender or other supplies used in, upon, for or about the performance of the work contracted to be executed or performed under the contract hereinafter mentioned, and all persons, companies or corporations renting or hiring teams, or implements or machinery, for or contributing to said work to be done, and all persons who performed work or labor upon the same, and whose claim has not been paid by the contractor, company or corporation, in the just and full sum of ______________________________________ ($___________) for the payment whereof, well and truly to be made, said Principal and Surety bind themselves, their heirs, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION of the foregoing obligation is such that; whereas the above bounden principal has entered into a contract, or is about to enter into a contract with NAPA COUNTY, a political subdivision of the State of California, to do and perform the following work, to-wit: 3435 Redwood Road Slide Abatement, RDS 21-33.

NOW THEREFORE, if the above bounden Principal, contractor, person, company or corporation, or his or its subcontractor fails to pay for any materials, provisions, provender, other supplies, or terms used in, upon or about the performance of the work contracted to be done, or for any work or labor done thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor, or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of the Principal or the subcontractors of the Principal pursuant to Section 13020 of the Unemployment Insurance Code with respect to the work and labor, then the Surety of this bond will pay the same, in an amount not exceeding the sum specified in this bond as well as a reasonable attorney’s fee, which shall be fixed and awarded by the court to the prevailing party in said suit, said attorney’s fee to be taxed as costs in said suit and to be included in the judgment therein rendered.

THE SURETY does hereby consent to any and all alterations, modifications and revisions to the contract above referred to, and work and labor under which is secured by this bond, including but not limited to, any extension of time for performance or modifications in manner of performance which may be agreed upon by and between NAPA COUNTY and the Principal, and the Surety does hereby waive notice of any alterations, modifications, revisions, or extensions.

THIS BOND is executed and filed to comply with the provisions of the act of Legislature of the State of California as designated in Civil Code 9550 et seq., inclusive, and all amendments thereto and shall inure to the benefit of any of the persons named in Civil Code section 9100 so as to give a right of action to those person or their assigns in any suit brought upon the bond.

NAPA COUNTY AGREEMENT NO. _________

CONTRACT FOR CONSTRUCTION

THIS AGREEMENT, made and concluded in triplicate this _____ day of _________, _______ by and between NAPA COUNTY, a political subdivision of the State of California, hereinafter referred to as “COUNTY”, and _____________________, hereinafter referred to as “CONTRACTOR”;

TERMS

ARTICLE I. In consideration of the payments and covenants hereinafter mentioned, to be made and performed by County, and under the conditions expressed in the two (2) bonds attached hereto, Contractor shall, at Contractor’s own cost and expense, do all the work and furnish all materials, except such as are specified herein to be furnished by County, necessary to construct and complete in a good, workmanlike and substantial manner and to the satisfaction of the Napa County Board of Supervisors that project known as 3435 Redwood Road Slide Abatement, RDS 21-33, which shall be constructed in the County of Napa, California, in accordance with the Plans and Specifications (“Plans”) entitled 3435 Redwood Road Slide Abatement, RDS 21-33, the Bid submitted by Contractor (“Bid Proposal”), the Special Provisions, and the 2018 Standard Specifications of the State of California Department of Transportation (“Standard Specifications”). The Plans, Bid Proposal, Special Provisions, and Standard Specifications are hereby incorporated by reference as if set forth herein.

ARTICLE II. County hereby promises and agrees with Contractor to employ, and does hereby employ, Contractor to provide the materials and to do the work according to the terms and conditions herein contained for the prices hereinafter set forth, and hereby contracts to pay the same at the time, in the manner, and upon the conditions set forth herein, and both parties hereby agree, for themselves, their heirs, executors, administrators, successors and assigns, to full performance of the covenants contained herein.

ARTICLE III. It is further expressly agreed by and between the parties that if there is any conflict between the Bid Proposal of Contractor and any of the other terms of this Contract, then such other terms shall control and any such conflicting terms of the Bid Proposal shall not been deemed to have been accepted by County.

ARTICLE IV. Contractor agrees to receive and accept the following prices as full compensation for furnishing all materials and for doing all the work contemplated and embraced in this Contract; for all loss and damage, arising out of the nature of such work, from the action of the elements, or from any unforeseen difficulties or obstructions which may arise or be encountered in the prosecution of the work until its acceptance by the Board of Supervisors of the County and for all risks of every description connected with the work; for all expenses incurred by or in consequence of the suspension or discontinuance of work; and for well and faithfully completing the work and the whole thereof in the manner and according to the Plans, Special Provisions, and Standard Specifications and the requirements of the Engineer under them, to wit:

NOTE: Signature of those executing for the Contractor must be acknowledged by Notary Public. If a corporation, this document must be signed by two corporate officers. The first signature must be either the Chairman of the Board, President, or any Vice President. The second signature must be the Secretary, an Assistant Secretary, the Chief Financial Officer, or any Assistant Treasurer. In the alternative, a single corporate signature is acceptable when accompanied by a corporate document demonstrating the legal authority of the signature to bind the company.
SPECIAL PROVISIONS- SECTION “A”

GENERAL CONDITIONS

1. LOCATION
   The project is located at 3435 Redwood Road in Napa County:

2. DESCRIPTION OF WORK
   The work in general consists of, but is not limited to supplying all labor and materials to perform the site grading and retaining wall construction as shown on the project plans. The project includes the excavation and off-haul of unsuitable fill material previously used as backfill behind a failed unpermitted retaining structure. The grading plane is generally shown on the plans and will be verified by the Engineer during excavation. A gabion retaining wall is to be constructed adjacent to an existing gabion wall. The wall will be backfilled with an approved fill material and graded at a 2:1 slope. A storm drain catch basin will be constructed to collect water before it reaches the slope and will be piped down the hillside.

   The County has rights to perform all work on the property.

   The scope of work shall include and not be limited to:
   A. Mobilization.
   B. Staging Area Setup.
   C. Construction Area Signs per CAMUTCD Standards and Special Provisions.
   D. Temporary Traffic Control per CAMUTCD Standards and Special Provisions.
   E. Clearing and Grubbing of hillside that can include and is not limited to tree trimming and removal, and plant and debris removal.
   F. Excavation and off-haul of unsuitable material
   G. Earthwork and grading for wall construction
   H. Wall Construction and backfill
   I. Import and grading of suitable fill material
   J. Storm drain construction
   K. Erosion Control
   L. Base work and auxiliary work shown on the Plans and as directed by the Engineer.
   M. Final cleanup
   N. Project closeout

3. DIFFERING SITE CONDITIONS 23 CFR 635.109 is made a part of this contract and incorporated herein by reference.

Contractor’s Notification
Promptly notify the County’s Engineer if you find either of the following conditions:
   1. Physical conditions differing materially from either of the following:
      • Contract documents
      • Job site examination
2. Physical conditions of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in the work provided for in the Contract Include details explaining the information you relied on and the material differences you discovered.
If you fail to promptly notify the Engineer, you waive the differing site condition claim for the period between your discovery of the differing site condition and your notification to the Engineer.
If you disturb the site after discovery and before the Engineer's investigation, you waive the differing site condition claim.

**Engineer's Investigation and Decision (Standard Specifications 4-1.06C)**
Upon your notification, the Engineer investigates job site conditions and:

1. Notifies you whether to resume affected work;
2. Decides whether the condition differs materially and is cause for an adjustment of time, payment, or both.

4. **DEFINITIONS AND TERMS** The following terms when used in these Special Provisions or in the Standard Specifications shall have the following meanings when used in this Contract:

**Contractor.** The person or entity described as "Contractor" in the preamble to this Contract.

**County.** Napa County, a political subdivision of the State of California.

**Department of Transportation.** The Board of Supervisors of Napa County, State of California, acting by and through its Director of Public Works.

**Department.** The Napa County Department of Public Works.

**Director of Transportation.** The Napa County Public Works Director.

**Engineer or County Engineer.** The Napa County Public Works Director, acting either directly or through properly authorized agents, such agents acting within the scope of the particular duties entrusted to them.

**Laboratory.** The established laboratory of the Materials and Research licensed and certified by the Department of Transportation of the State of California or laboratories authorized by the Engineer to test materials and work involved in the contract.

**Owner.** Napa County.

**State of California.** Napa County.

**Transportation Building.** Napa County Administration Building, 1195 Third Street, Suite 101, Napa, California 94559.
State Highway Engineer. The Napa County Public Works Director, acting either directly or through properly authorized agents, such agents acting within the scope of the particular duties entrusted to them.

Standard Specifications. The 2018 edition of the Standard Specifications of the State of California, Department of Transportation. Any reference therein to the State of California or a State agency, office or officer shall be interpreted to refer to the County or its corresponding agency, office or officer acting under this contract.

Days. As used in these special provisions, days shall mean working days.

5. CONTRACT DOCUMENTS
The Contract Documents shall include the Standard Specifications of the State of California, Department of Transportation, dated May 2018 (Revised October 15, 2021), insofar as same may apply, the Special Provisions, the Notice to Contractors, the Proposal, the Contract (“C“) pages, the two contract bonds required herein, any supplemental agreements amending or extending the work, and pertinent portions of other documents included by reference thereto in the Special Provisions or the Contract pages.

6. TIME OF COMPLETION
Attention is directed to all of the provisions of Section 8, “Prosecution and Progress,” of the Standard Specifications and these Special Provisions.

The Contractor shall begin work on the base bid within ten (10) working days after receiving the Notice to Proceed.

For the Base Bid the CONTRACTOR shall diligently prosecute the same to completion before the expiration of FORTY (40) working days from the start of work, and shall schedule work in accordance with favorable weather conditions.

7. LIQUIDATED DAMAGES
Attention is directed to the provisions of Section 8-1.10 “Liquidated Damages” of the Standard Specifications. The Contractor shall pay to County the sum of $500 per day for each and every calendar day delay in finishing the work in excess of the number of working days prescribed above and any extension of time granted.

8. SUBCONTRACTING
Attention is directed to Section 5-1.13 of the Standard Specifications.

9. PREVAILING WAGES
In accordance with the provisions of Section 1774 of the Labor Code of the State of California, the Board of Supervisors of the County of Napa has ascertained from the Director of Industrial Relations the general prevailing rate of wages (which rate includes employer payments for health and welfare, pension, vacation and similar purposes) applicable to the work to be done. These rates of wages are on file and may be seen at the County of Napa, Department of Public Works, 1195 Third Street, Room 101, Napa, California.
10. **PAYROLL RECORDS**
Special Attention is directed to the provisions of Section 7-1.02K(3) of the Standard Specifications. A copy of all payrolls shall be submitted weekly to the Engineer. Payrolls shall contain the full name, address and social security number of each employee, his correct classification, rate of pay, daily and weekly number of hours worked, itemized deductions made and actual wages paid. They shall also indicate apprentices and ratio of apprentices to journeymen. The employee’s address and social security number need only appear on the first payroll on which his name appears. The payroll shall be accompanied by a "Statement of Compliance" signed by the employer or his agent indicating that the payrolls are correct and complete and that the wage rates contained therein are not less than those required by the contract. The "Statement of Compliance" shall be on forms furnished by the Department or on any form with identical wording. The Contractor shall be responsible for the submission of copies of payrolls of all subcontractors.

**Access to Records/Retention.** COUNTY, any federal or state grantor agency funding all or part of the compensation payable hereunder, the State Controller, the Secretary General of the United States, or the duly authorized representatives of any of the above, shall have access to any books, documents, papers and records of CONTRACTOR which are directly pertinent to the subject matter of this Contract for the purpose of making audit, examination, excerpts and transcriptions. Original records shall be forwarded to the COUNTY after Contract completion or retained for a period of 6 years after Contract completion.

11. **PROPOSAL REQUIREMENTS AND CONDITIONS**
Attention is directed to Section 2 of the Standard Specifications.

(a) **Examination of Site.** Each bidder shall have examined the site of the work before bidding so he shall have full knowledge of all facilities and difficulties affecting the work which may not be particularly described herein. No variation or allowance from the contract sum will be made because of lack of such examination or knowledge.

(b) **State Contract Act.** The State Contract Act is not applicable to contracts involving political subdivisions of the State of California. Pre-qualification of bidders will not be required.

(c) **Joint Venture.** If two or more Bidders desire to bid jointly on a single project or desire to combine their assets for so doing, they must file an affidavit of joint venture with the County Engineer, and such affidavit of joint venture will be valid only for the specific project for which it is filed. If such affidavit of joint venture is not filed as aforesaid and approved by the Engineer prior to the time for opening bids on the specific projects for which it is submitted, a joint bid submitted by the said Bidders will be disregarded.

(d) **Registered and Qualified – California Labor Code § 1771.1.** A contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in this chapter, unless currently registered and qualified to perform public work pursuant to Section 1725.5. It is not a violation of this section for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided
the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded.

12. **AWARD AND EXECUTION OF THE CONTRACT**
   Attention is directed to Section 3 of the Standard Specifications, contract bonds. In-lieu of the bonds specified under Section 3.1.02 of the Standard Specifications, the successful bidder shall furnish a faithful Performance Bond as required by Section 20129 of the Public Contract Code in an amount equal to one hundred percent (100%) of the contract price of the work contemplated and the laborer’s and material man’s payment bond as required by Section 8182 of the Civil Code in an amount equal to one hundred percent (100%) of the contract price of the work contemplated.

   The award will be based on the Base Bid.

13. **SCOPE OF WORK**
   Attention is directed to Section 4 of the Standard Specifications.

   The intent of the Plans and Specifications is to cover the complete project ready for use when completed. The Contractor shall accomplish complete installation of facilities, and any other required items to make the unit complete. All units, facilities, etc., shall be in operating condition to the approval of the Engineer. The quantities and items listed in the proposal form and contract form are given as a basis for the comparison of bids and the Board of Supervisors does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work as may be deemed necessary or expedient by the Engineer.

14. **CHANGE ORDERS**

   **(a) Limitations Where Contract Price Changes are Involved.**

   i. **Overhead and Profit for the Contractor.** The Contractor's overhead and profit on the cost of subcontracts shall be a sum not exceeding ten percent (10%) of such costs. The Contractor's overhead and profit on the costs of work performed by the Contractor shall be a sum not exceeding fifteen percent (15%) of such costs. Overhead and profit shall not be applied to the cost of taxes and insurance by Contractor or Subcontractors or to credits. No processing or similar fees may be charged by the Contractor in connection with the Modification.

   ii. **Bond Premiums.** The actual rate of bond premiums as paid on the total cost (including taxes) will be allowed, but with no markup for profit and overhead.

   iii. **Taxes.** State and city sales taxes should be indicated.

   **(b) Procedure.** Attention is directed to Section 4-1.05 of the Standard Specifications.

   **(c) Authorized Representative / Limits.** No Change Order shall be valid or binding against COUNTY unless such Change Order has been executed in writing by (1) COUNTY’s Director of Public Works consistent with the authority granted to him by the Board of Supervisors pursuant
to the limitations set forth under Napa County Resolution No. 2011-18 and Public Contract Code Section 20142, or (2) by the Board of Supervisors.

15. **CONTROL OF THE WORK**
   Attention is directed to Section 5 of the Standard Specifications.

   Deviations from the approved Plans and Specifications shall be approved by the Engineer and all changes shall be by written permission only.

   (a) **Contract Components.** A component in one contract part applies as if appearing in each. The parts are complementary and describe and provide for a complete work.

   If a discrepancy is found or confusion arises, request correction or clarification in writing. Any deviations from the approved Plans and Specifications shall be approved by the Engineer and all changes shall be by written permission only.

   (b) **Acceptance of Contract.** Attention is directed to Section 5-1.46, “Final Inspection and Contract Acceptance,” of the Standard Specifications and these Special provisions. Acceptance will consist of the execution and filing with the County Recorder of a Notice of Completion as defined in Civil Code Section 8182. Should it become necessary due to developed conditions to occupy any portion of the work before the contract is fully completed, such occupancy shall not constitute acceptance.

16. **LEGAL RELATIONS AND RESPONSIBILITY TO THE PUBLIC**
   Attention is directed to Section 7 of the Standard Specifications.

   (a) **Prevailing Wages.** See Section 9 and 10 of these Special Provisions.

   (b) **Public Safety.**
   Attention is directed to Section 7-1.03 and Section 7.1.04 of the Standard Specifications and these Special Provisions.

   (1) **Safety Devices.** Furnishing and maintenance of barricades, flashing lights and other safety devices shall be the responsibility of the Contractor at all times. The Contractor shall respond promptly to correct improper conditions or inoperative devices.

   Failure to frequently inspect and maintain lights and barricades in proper operating condition when in use on the roadway, or failure to respond promptly to notification of improperly operating equipment, will be sufficient cause for suspension of the contract until such defects are corrected or termination as otherwise provided in this Contract.

   All expenses incurred by the County because of emergency "call-outs" and for resetting or supplementing the Contractor's barricades or warning devices, will be charged to the contractor and may be deducted from moneys due him.
(2) Safety Standards; Suspension of Contract for Unsafe Equipment. The Contractor shall comply with all the applicable provisions of the United States Department of Labor Occupational Safety and Health Act (OSHA), State of California Division of Industrial Safety, Title 8, Safety Orders (Cal-OSHA), the Federal Aviation Administration (FAA) and any other applicable codes and regulations. If, in the opinion of the Engineer, any operation or piece of equipment that is observed by the Engineer appears to be unsafe, the Engineer may immediately halt that portion of the work until the hazard is corrected to the satisfaction of the Engineer and no time extension or additional compensation shall be granted for the time lost due to said halting of the work.

(c) Hold Harmless/Indemnification. To the full extent permitted by law, Contractor shall hold harmless, defend at its own expense, and indemnify COUNTY and the officers, agents, employees and volunteers of County from any and all liability, claims, losses, damages or expenses, including reasonable attorney’s fees, for personal injury (including death) or damage to property, arising from all acts or omissions to act of Contractor or its officers, agents, employees, volunteers, contractors and subcontractors in rendering services under this Agreement, excluding, however, such liability, claims, losses, damages or expenses arising from the sole negligence or willful acts of County or its officers, agents, employees or volunteers. Each party shall notify the other party immediately in writing of any claim or damage related to activities performed under this Agreement. The parties shall cooperate with each other in the investigation and disposition of any claim arising out of the activities under this Agreement, providing that nothing shall require either party to disclose any documents, records or communications that are protected under peer review privilege, attorney-client privilege, or attorney work product privilege.

(d) Insurance. CONTRACTOR shall obtain and maintain in full force and effect throughout the term of this Agreement, and thereafter as to matters occurring during the term of this Agreement, the following insurance coverage:

(1) Workers' Compensation insurance. If and to the extent required by law during the term of this Agreement, CONTRACTOR shall provide workers’ compensation insurance for the performance of any of CONTRACTOR’s duties under this Agreement, including but not limited to, coverage for workers’ compensation, employer's liability, and a waiver of subrogation, and shall provide COUNTY with certification of all such coverages upon request by COUNTY’s Risk Manager.

(2) Liability insurance. CONTRACTOR shall obtain and maintain in full force and effect during the term of this Agreement the following liability insurance coverages, issued by a company admitted to do business in California and having an A.M. Best rating of A:VII or better or equivalent self-insurance:

(i) General Liability. Commercial general liability [CGL] insurance coverage (personal injury and property damage) of not less than ONE MILLION DOLLARS ($1,000,000) combined single limit per occurrence, covering liability or claims for any personal injury, including death, to any person and/or damage to the property of any person arising from the acts or omissions of CONTRACTOR or any officer, agent, or employee of CONTRACTOR under this Agreement. If the coverage includes an aggregate limit, the aggregate limit shall be no less than twice the occurrence limit.
(ii) **Comprehensive Automobile Liability Insurance.** Comprehensive automobile liability insurance (Bodily Injury and Property Damage) on owned, hired, leased and non-owned vehicles used in conjunction with CONTRACTOR's business of not less than **ONE MILLION DOLLARS ($1,000,000)** combined single limit per occurrence. If the coverage includes an aggregate limit, the aggregate limit shall be no less than twice the occurrence limit.

(3) **Certificates.** All insurance coverages referenced in (2), above, shall be evidenced by one or more certificates of coverage or, with the consent of COUNTY’s Risk Manager demonstrated by other evidence of coverage acceptable to COUNTY’s Risk Manager, which shall be filed by CONTRACTOR with the DEPARTMENT OF PUBLIC WORKS prior to commencement of performance of any of Contractor’s duties; shall reference this Agreement by its COUNTY number or title and department; shall be kept current during the term of this Agreement; shall provide that COUNTY shall be given no less than thirty (30) days prior written notice of any non-renewal, cancellation, other termination, or material change, except that only ten (10) days prior written notice shall be required where the cause of non-renewal or cancellation is non-payment of premium; and shall provide that the inclusion of more than one insured shall not operate to impair the rights of one insured against another insured, the coverage afforded applying as though separate policies had been issued to each insured, but the inclusion of more than one insured shall not operate to increase the limits of the company’s liability.

For the commercial general liability insurance coverage referenced in (2)(i), and, where the vehicles area covered by a commercial policy rather than a personal policy, for the comprehensive automobile liability insurance coverage referenced in (2)(ii) CONTRACTOR shall also file with the evidence of coverage and endorsement from the insurance provider naming COUNTY, its officers employees, agents and volunteers as additional insureds and waiving subrogation, and the certificate or other evidence of coverage shall provide that if the same policy applies to activities of CONTRACTOR not covered by this Agreement then the limits in the applicable certificate relating to the additional insured coverage of COUNTY shall pertain only to liability for activities of CONTRACTOR under this Agreement, and that the insurance provided is primary coverage to COUNTY with respect to any insurance or self-insurance programs maintained by COUNTY. The additional insured endorsements for the general liability coverage shall use Insurance Services Office (ISO) Form No. CG 20 09 11 85 or CG 20 10 11 85, or equivalent including (if used together) CG 2010 10 01 and CG 2037 10 01; but shall not use the following forms: CG 20 10 10 93 or 03 94. Upon request of COUNTY’s Risk Manager, CONTRACTOR shall provide or arrange for the insured to provide within thirty (30) days of the request, certified copies of the actual insurance policies or relevant portions thereof.

(4) **Additional Insured.** The general liability and automobile liability policies listed above are to contain, or be endorsed to contain, the following provisions:

Napa County, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the grantee; and with respect to liability arising out of work or operations performed by or on behalf of the grantee including materials, parts or equipment furnished in connection with the work or operations.
(5) **Deductibles/Retentions.** Any deductibles or self-insured retentions shall be declared to, and be approved by, COUNTY’s Risk Manager, which approval shall not be denied unless the COUNTY’s Risk Manager determines that the deductibles or self-insured retentions are unreasonably large in relation to compensation payable under this Agreement and the risks of liability associated with the activities required of CONTRACTOR by this Agreement. At the option of and upon request by COUNTY’s Risk Manager if the Risk Manager determines that such deductibles or retentions are unreasonably high, either the insurer shall reduce or eliminate such deductibles or self-insurance retentions as respects COUNTY, its officers, employees, agents and volunteers or CONTRACTOR shall procure a bond guaranteeing payment of losses and related investigations, claims administration and defense expenses.

17. **PROSECUTION AND PROGRESS**

Attention is directed to Section 8 of the Standard Specifications, and these Special Provisions.

(a) **Preconstruction Meeting.** Prior to the commencement of work at the site, a Preconstruction meeting will be held at a mutually agreed time and place which shall be attended by the Contractor, its Superintendent, and its subcontractors as appropriate.

The conference is required to familiarize all authorized persons involved with policies, regulations and procedures and to discuss construction operations and methods in order to avoid any misunderstanding or conflicts during construction.

Unless previously submitted to the Engineer, the Contractor shall bring to the preconstruction meeting six (6) copies each of the following:

1. Draft Construction Schedule.
2. Procurement schedule of major equipment and materials and items requiring long lead time.
3. Shop Drawing/Sample/submittal schedule.
4. Schedule of values (lump sum price breakdown) for progress payment purposes.
5. The Temporary Traffic Control Plan for Engineers review
6. Substitution Requests
7. Letter of Responsibility designating emergency contacts for the Contractor after business hours.

(b) **Progress Meetings.** The Contractor shall schedule progress meetings and hold regular on site or at the Napa County at least weekly and at other times as requested by Engineer. The Contractor, Engineer, Inspector, and all subcontractors active on the site shall be represented at each meeting. The Contractor or Engineer may at its discretion request attendance by the Contractor’s suppliers, manufacturer’s, and other subcontractors.

The County shall provide for keeping and distribution of the minutes. The purpose of the meetings will be to review the progress of the Work, discuss changes in scheduling, maintain coordination of efforts, review the status of submittals, and resolve other problems which may develop.

(c) **Progress Schedule.** The contractor, promptly after being awarded the contract or upon receiving notice of intent to award, shall prepare and submit for the Owner’s and Engineer’s information a
Contractor’s construction schedule for the work. The schedule shall not exceed time limits current under the Contract Documents, shall be revised at appropriate intervals as required by the conditions of the work and project or when requested in writing by the Engineer, shall be related to the entire project to the extent required by the Contract Documents, and shall provide for expeditious and practicable execution of the work.

The Contractor shall also incorporate all required permit conditions and other coordination into the schedule.

Progress schedules shall be updated and submitted on a weekly basis thereafter. The progress schedule shall be revised at appropriate intervals as required by the conditions of the work and project or when requested in writing by the Engineer. The Contractor shall perform the work in general accordance with the most recent schedules submitted to the Engineer.

(d) **Schedule of Submittals.** A schedule of submittals shall be provided to the Engineer at the preconstruction meeting. The Contractor shall keep the submittal schedule up to date and ensure that it coordinates with the construction schedule, with adequate time for the Engineer to review the submittals.

(e) **Termination of Contract.** Attention is directed Section 8-1.13 of the Standard Specifications and these Special provisions.

Whenever, in the opinion of the Board of Supervisors the said work is neglected by the Contractor, or the same is not prosecuted with the diligence and force specified, meant and intended in and by the terms of this contract, it shall be lawful for the Board of Supervisors to make a requisition upon the Contractor for such additional specific force or such additional specific material to be brought into the work under this contract or to remove improper material from the grounds, and its due and faithful fulfillment requires; of which action of the Board of Supervisors due notice in writing of not less than five days shall be served upon the Contractor or his agent having charge of the work; and if the Contractor fails to comply with such requisition within five days, it shall be lawful for the Board of Supervisors to employ upon such work the additional force or supply the materials as specifically required as aforesaid; and the amount paid for such additional force or material shall be charged against the Contractor and be deducted from his next or subsequent estimate and payment, or the same or any part thereof not so deducted may be recovered from the Contractor or his sureties.

Moreover, if the Contractor fails to comply with such requisition within five days, the Board of Supervisors may declare the contract terminated and may itself proceed to complete the work herein specified or may engage any other person or persons to do the same. Upon the completion of such work, the said Board of Supervisors through its proper office or officers shall cause a statement to be made of the default of the Contractor as aforesaid, and in completing the work itself or by any other person or persons. Should the amount in such statement be more than the amount would have been due the Contractor upon the completion of the work by him, the difference shall be paid by the Contractor to the County of Napa.

Moreover, if the Contractor fails to comply with such requisition within five days, the Board of Supervisors may declare the contract terminated and may itself proceed to complete the work herein specified or may engage any other person or persons to do the same. Upon the completion of such work, the said Board of Supervisors through its proper office or officers shall cause a statement to be made of the default of the Contractor as aforesaid, and in completing the work itself or by any other person or persons. Should the amount in such statement be more than the amount would have been due the Contractor upon the completion of the work by him, the difference shall be paid by the Contractor to the County of Napa.

18. **TERMINATION FOR CONVENIENCE OF THE COUNTY**

Notwithstanding any other provision of this AGREEMENT, COUNTY may, at any time, and without cause, terminate this AGREEMENT in whole or in part, upon not less than seven (7) days’ written notice to CONTRACTOR. Such termination shall be effected by delivery to CONTRACTOR of a notice of
termination specifying the effective date of the termination and the extent of the work to be terminated. CONTRACTOR shall immediately stop work in accordance with the notice and comply with any other direction as may be specified in the notice or as provided subsequently by COUNTY. COUNTY shall pay CONTRACTOR for the work completed prior to the effective date of the termination, and such payment shall be CONTRACTOR’s sole remedy under this AGREEMENT. Under no circumstances will CONTRACTOR be entitled to anticipatory or unearned profits, consequential damages, or other damages of any sort as a result of a termination or partial termination under this paragraph. CONTRACTOR shall insert in all subcontracts that the subcontractor shall stop work on the date of and to the extent specified in a notice of termination, and shall require subcontractors to insert the same condition in any lower tier subcontracts.

19. MEASUREMENT AND PAYMENT
Attention is directed to Section 9, “Payment,” of the Standard Specifications and this Special Provisions.

Payment for the various items of the Bid Sheets, as further specified herein, shall include all compensation to be received by the Contractor for furnishing all tools, equipment, supplies, and manufactured articles, and for all labor, operations, and incidentals appurtenant to the items of work being described, as necessary to complete the various items of work as specified and shown on the Drawings, including all appurtenances thereto, and including all costs of compliance with the regulations of public agencies having jurisdiction, including Safety and Health Requirements of the California Division of Industrial Safety. No separate payment will be made for any item that is not specifically set forth in the Bid Sheet(s), and all costs therefor shall be included in the prices named in the Bid Sheet(s) for the various appurtenant items of work.

All pay line items will be paid for at the unit prices named in the Bid Sheet(s) for the respective items of work. The quantities of work or material stated as unit price items on the Bid Sheet(s) are supplied only to give an indication of the general scope of the Work; the County does not expressly nor by implication agree that the actual amount of work or material will correspond therewith, and reserves the right after award to increase or decrease the quantity of any unit price of any major item of work by an amount up to and including 25 percent of any major bid item, without a change in the unit price, and shall have the right to delete any bid item in its entirety, or to add additional bid items up to and including an aggregate total amount not to exceed 25 percent of the contract price.

Section 9-1.07 “Payment adjustments for price index fluctuations,” is deleted.

(a) Force Account. Attention is directed Section 9-1.04 of the Standard Specifications and these Special Provisions.

Equipment rental rates shall be those rental rates applicable on contracts advertised by the State of California, Department of Transportation on the date of call for bids on this contract.

(b) Progress Payments. Attention is directed Section 9-1.16 of the Standard Specifications and these Special Provisions.

In lieu of Section 9-1.16 F Retentions, the County will retain 5 percent (5%) of the value of all work done and 5 percent (5%) of the value of the materials so estimated to have been furnished and delivered and unused or
furnished and stored as aforesaid as part security for the fulfillment of the contract by the Contractor to the extent not inconsistent with Public Contract Code Section 20104.50; all such retentions being subject to the following statutory requirements:

**Public Contract Code Section 7107. Retention proceeds; withholding disbursement**

(a) This section is applicable with respect to all contracts entered into on or after January 1, 1993 relating to the construction of any public work of improvement.

(b) The retention proceeds withheld from any payment by the public entity from the original contractor, or by the original contractor from any subcontractor, shall be subject to this section.

(c) Within 60 days after the date of completion of the work of improvement, the retention withheld by the public entity shall be released. In the event of a dispute between the public entity and the original contractor, the public entity may withhold from the final payment an amount not to exceed 150 percent of the disputed amount. For purposes of this subdivision, “completion” means any of the following:

1. The occupation, beneficial use, and enjoyment of a work of improvement, excluding any operation only for testing, startup, or commissioning, by the public agency, or its agent, accompanied by cessation of labor on the work of improvement.
2. The acceptance by the public agency, or its agent, of the work of improvement.
3. After the commencement of a work of improvement, a cessation of labor on the work of improvement for a continuous period of 100 days or more, due to factors beyond the control of the contractor.
4. After the commencement of a work of improvement, a cessation of labor on the work of improvement for a continuous period of 30 days or more, if the public agency files for record a notice of cessation or a notice of completion.

(d) Subject to subdivision (e), within 10 days from the time that all or any portion of the retention proceeds are received by the original contractor, the original contractor shall pay each of its subcontractors from whom retention has been withheld, each subcontractor’s share of the retention received. However, if a retention payment received by the original contractor is specifically designated for a particular subcontractor, payment of the retention shall be made to the designated subcontractor, if the payment is consistent with the terms of the subcontract.

(e) The original contractor may withhold from a subcontractor its portion of the retention proceeds if a bona fide dispute exists between the subcontractor and the original contractor. The amount withheld from the retention payment shall not exceed 150 percent of the estimated value of the disputed amount.

(f) In the event that retention payments are not made within the time periods required by this section, the public entity or original contractor withholding the unpaid amounts shall be subject to a charge of 2 percent per month on the improperly withheld amount, in lieu of any interest otherwise due. Additionally, in any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to attorney’s fees and costs.
(g) If a state agency retains an amount greater than 125 percent of the estimated value of the work yet to be completed pursuant to Section 10261 of the Public Contract Code, the state agency shall distribute undisputed retention proceeds in accordance with subdivision (c). However, notwithstanding subdivision (c), if a state agency retains an amount equal to or less than 125 percent of the estimated value of the work yet to be completed, the state agency shall have 90 days in which to release undisputed retentions.

(h) Any attempted waiver of the provisions of this section shall be void as against the public policy of this state.

Public Contract Code Section 22300. Performance retentions; provision for substitute security; escrow agreement

(a) Provisions shall be included in any invitation for bid and in any contract documents to permit the substitution of securities for any moneys withheld by a public agency to ensure performance under a contract; however, substitution of securities provisions shall not be required in contracts in which there will be financing provided by the Farmers Home Administration of the United States Department of Agriculture pursuant to the Consolidated Farm and Rural Development Act (>7 U.S.C. Sec. 1921 et seq.), and where federal regulations or policies, or both, do not allow the substitution of securities. At the request and expense of the contractor, securities equivalent to the amount withheld shall be deposited with the public agency, or with a state or federally chartered bank in this state as the escrow agent, who shall then pay those moneys to the contractor. Upon satisfactory completion of the contract, the securities shall be returned to the contractor.

(b) Alternatively, the contractor may request and the owner shall make payment of retentions earned directly to the escrow agent at the expense of the contractor. At the expense of the contractor, the contractor may direct the investment of the payments into securities and the contractor shall receive the interest earned on the investments upon the same terms provided for in this section for securities deposited by the contractor. Upon satisfactory completion of the contract, the contractor shall receive from the escrow agent all securities, interest, and payments received by the escrow agent from the owner, pursuant to the terms of this section.

(c) Securities eligible for investment under this section shall include those listed in >Section 16430 of the Government Code, bank or savings and loan certificates of deposit, interest-bearing demand deposit accounts, standby letters of credit, or any other security mutually agreed to by the contractor and the public agency. The contractor shall be the beneficial owner of any securities substituted for moneys withheld and shall receive any interest thereon. Failure to include these provisions in bid and contract documents shall void any provisions for performance retentions in a public agency contract. For purposes of this section, the term “public agency” shall include, but shall not be limited to, chartered cities.

(d) (1) Any contractor who elects to receive interest on moneys withheld in retention by a public agency shall, at the request of any subcontractor, make that option available to the subcontractor regarding any moneys withheld in retention by the contractor from the subcontractor. If the contractor elects to receive interest on any moneys withheld in retention by a public agency, then the subcontractor shall receive the identical rate of interest received by the contractor on any...
retention moneys withheld from the subcontractor by the contractor, less any actual pro rata costs associated with administering and calculating that interest. In the event that the interest rate is a fluctuating rate, the rate for the subcontractor shall be determined by calculating the interest rate paid during the time that retentions were withheld from the subcontractor. If the contractor elects to substitute securities in lieu of retention, then, by mutual consent of the contractor and subcontractor, the subcontractor may substitute securities in exchange for the release of moneys held in retention by the contractor.

(2) This subdivision shall apply only to those subcontractors performing more than five percent of the contractor’s total bid.

(3) No contractor shall require any subcontractor to waive any provision of this section.

(e) The Legislature hereby declares that the provisions of this section are of statewide concern and are necessary to encourage full participation by contractors and subcontractors in public contract procedures.

(f) The escrow agreement used hereunder shall be null, void, and unenforceable unless it is substantially similar to the following form:
This Escrow Agreement is made and entered into by and between:

whose address is

hereinafter called “Owner,”

whose address is

hereinafter called “Contractor” and

whose address is

hereinafter called “Escrow Agent.”

For the consideration hereinafter set forth, the Owner, Contractor, and Escrow Agent agree as follows:

(1) Pursuant to Section 22300 of the Public Contract Code of the State of California, Contractor has the option to deposit securities with Escrow Agent as a substitute for retention earnings required to be withheld by Owner pursuant to the Construction Contract entered into between the Owner and Contractor for ________ in the amount of ________ dated ________ (hereinafter referred to as the “Contract”). Alternatively, on written request of the Contractor, the Owner shall make payments of the retention earnings directly to the Escrow Agent. When the Contractor deposits the securities as a substitute for Contract earnings, the Escrow Agent shall notify the Owner within 10 days of the deposit. The market value of the securities at the time of the substitution shall be at least equal to the cash amount then required to be withheld as retention under the terms of the Contract between the Owner and Contractor. Securities shall be held in the name of ________, and shall designate the Contractor as the beneficial owner.

(2) The Owner shall make progress payments to the Contractor for those funds which otherwise would be withheld from progress payments pursuant to the Contract provisions, provided that the Escrow Agent holds securities in the form and amount specified above.

(3) When the Owner makes payment of retentions earned directly to the Escrow Agent, the Escrow Agent shall hold them for the benefit of the Contractor until the time that the escrow created under this contract is terminated. The Contractor may direct the investment of the payments into securities. All terms and conditions of this agreement and the rights and responsibilities of the parties shall be equally applicable and binding when the Owner pays the Escrow Agent directly.

(4) Contractor shall be responsible for paying all fees for the expenses incurred by Escrow Agent in administering the Escrow Account and all expenses of the Owner. These expenses and payment terms shall be determined by the Owner, Contractor, and Escrow Agent.

(5) The interest earned on the securities or the money market accounts held in escrow and all interest earned on that interest shall be for the sole account of Contractor and shall be subject to withdrawal by Contractor at any time and from time to time without notice to the Owner.

(6) Contractor shall have the right to withdraw all or any part of the principal in the Escrow Account only by written notice to Escrow Agent accompanied by written authorization from the Owner to the Escrow Agent that Owner consents to the withdrawal of the amount sought to be withdrawn by Contractor.

(7) The Owner shall have a right to draw upon the securities in the event of default by the Contractor. Upon seven days’ written notice to the Escrow Agent from the owner of the default, the Escrow Agent shall immediately convert the securities to cash and shall distribute the cash as instructed by the Owner.

(8) Upon receipt of written notification from the Owner certifying that the Contract is final and complete, and that the Contractor has complied with all requirements and procedures applicable to the Contract, Escrow Agent shall release to Contractor all securities and interest on deposit less escrow fees and charges of the Escrow Agent.
Account. The escrow shall be closed immediately upon disbursement of all moneys and securities on deposit and payments of fees and charges.

(9) Escrow Agent shall rely on the written notifications from the Owner and the Contractor pursuant to Sections (5) to (8), inclusive, of this Agreement and the Owner and Contractor shall hold Escrow Agent harmless from Escrow Agent’s release and disbursement of the securities and interest as set forth above.

(10) The names of the persons who are authorized to give written notice or to receive written notice on behalf of the Owner and on behalf of Contractor in connection with the foregoing, and exemplars of their respective signatures are as follows:

On behalf of Owner:

__________________________  ____________________________
Title                                                                 Title

__________________________  ____________________________
Name                                                                   Name

__________________________  ____________________________
Signature                                                              Signature

__________________________  ____________________________
Address                                                                Address

On behalf of Escrow Agent:

Signature                                                               Signature
Public Contract Code Section 20104.50 Timely progress payments; legislative intent; interest; payment requests

(a) (1) It is the intent of the Legislature in enacting this section to require all local governments to pay their contractors on time so that these contractors can meet their own obligations. In requiring prompt payment by all local governments, the Legislature hereby finds and declares that the prompt payment of outstanding receipts is not merely a municipal affair, but is, instead, a matter of statewide concern.

(2) It is the intent of the Legislature in enacting this article to fully occupy the field of public policy relating to the prompt payment of local governments’ outstanding receipts. The Legislature finds and declares that all government officials, including those in local government, must set a standard of prompt payment that any business in the private sector which may contract for services should look towards for guidance.

(b) Any local agency which fails to make any progress payment within 30 days after receipt of an undisputed and properly submitted payment request from a contractor on a construction contract shall pay interest to the contractor equivalent to the legal rate set forth in subdivision (a) of Section 685.010 of the Code of Civil Procedure.

(c) Upon receipt of a payment request, each local agency shall act in accordance with both of the following:

(1) Each payment request shall be reviewed by the local agency as soon as practicable after receipt for the purpose of determining that the payment request is a proper payment request.

(2) Any payment request determined not to be a proper payment request suitable for payment shall be returned to the contractor as soon as practicable, but not later than seven days, after receipt. A request returned pursuant to this paragraph shall be accompanied by a document setting forth in writing the reasons why the payment request is not proper.

(d) The number of days available to a local agency to make a payment without incurring interest pursuant to this section shall be reduced by the number of days by which a local agency exceeds the seven-day return requirement set forth in paragraph (2) of subdivision (c).

(e) For purposes of this article:

(1) A "local agency" includes, but is not limited to, a city, including a charter city, a county, and a city and county, and any public entity subject to this part.

(2) A "progress payment" includes all payments due contractors, except that portion of the final payment designated by the contract as retention earnings.

(3) A payment request shall be considered properly executed if funds are available for payment of the payment request, and payment is not delayed due to an audit inquiry by the financial officer of the local agency.

(f) Each local agency shall require that this article, or summary thereof, be set forth in the terms of any contract subject to this article.

(c) Claims. All claims under this contract shall be subject to the following statutory requirements:

Public Contract Code Section 9204 Claim resolution process for claim by contractor in connection with public works project.
(a) The Legislature finds and declares that it is in the best interests of the state and its citizens to ensure that all construction business performed on a public works project in the state that is complete and not in dispute is paid in full and in a timely manner.

(b) Notwithstanding any other law, including, but not limited to, Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2, Chapter 10 (commencing with Section 19100) of Part 2, and Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3, this section shall apply to any claim by a contractor in connection with a public works project.

(c) For purposes of this section:
   (1) "Claim" means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following:
      (A) A time extension, including, without limitation, for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project.
      (B) Payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled.
      (C) Payment of an amount that is disputed by the public entity.
   (2) "Contractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who has entered into a direct contract with a public entity for a public works project.
   (3) (A) "Public entity" means, without limitation, except as provided in subparagraph (B), a state agency, department, office, division, bureau, board, or commission, the California State University, the University of California, a city, including a charter city, county, including a charter county, city and county, including a charter city and county, district, special district, public authority, political subdivision, public corporation, or nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.
      (B) "Public entity" shall not include the following:
         (i) The Department of Water Resources as to any project under the jurisdiction of that department.
         (ii) The Department of Transportation as to any project under the jurisdiction of that department.
         (iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.
         (iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the Penal Code.
         (v) The Military Department as to any project under the jurisdiction of that department.
         (vi) The Department of General Services as to all other projects.
         (vii) The High-Speed Rail Authority.
   (4) "Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.
   (5) "Subcontractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide
the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2) (A) If the claimant disputes the public entity’s written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties’ dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in
the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity’s
c failure to have responded to a claim, or its failure to otherwise meet the time requirements of this
section, shall not constitute an adverse finding with regard to the merits of the claim or the
responsibility or qualifications of the claimant.
(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent
per annum.
(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a
public entity because privity of contract does not exist, the contractor may present to the public entity
a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in
writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor
present a claim for work which was performed by the subcontractor or by a lower tier subcontractor
on behalf of the subcontractor. The subcontractor requesting that the claim be presented to the public
entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this
written request, the contractor shall notify the subcontractor in writing as to whether the contractor
presented the claim to the public entity and, if the original contractor did not present the claim,
provide the subcontractor with a statement of the reasons for not having done so.
(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public
works project that may give rise to a claim under this section.
(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however,
that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and
proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2)
a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and
requirements in addition to the provisions of this section, so long as the contractual provisions do not
conflict with or otherwise impair the timeframes and procedures set forth in this section.
(g) This section applies to contracts entered into on or after January 1, 2017.
(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available
through a competitive application process, for the failure of an awardee to meet its contractual
obligations.
(i) This section shall remain in effect only until January 1, 2020, and as of that date is repealed, unless a
later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

Public Contract Code Section 20104 Application of article; provisions included in plans and
specifications
(a) (1) This article applies to all public works claims of three hundred seventy-five thousand dollars
($375,000) or less which arise between a contractor and a local agency.
(2) This article shall not apply to any claims resulting from a contract between a contractor and a
public agency when the public agency has elected to resolve any disputes pursuant to Article 7.1
(commencing with Section 10240) of Chapter 1 of Part 2.
(b) (1) “Public work” means “public works contract” as defined in Section 1101 but does not include
any work or improvement contracted for by the state or the Regents of the University of California.
(2) “Claim” means a separate demand by the contractor for (A) a time extension, (B) payment of
money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract
for a public work and payment of which is not otherwise expressly provided for or the claimant is not
otherwise entitled to, or (C) an amount the payment of which is disputed by the local agency.
(c) The provisions of this article or a summary thereof shall be set forth in the plans or specifications for any work which may give rise to a claim under this article.
(d) This article applies only to contracts entered into on or after January 1, 1991.

Public Contract Code Section 20104.2 Claims; requirements, tort claims excluded
For any claim subject to this article, the following requirements apply:
(a) The claim shall be in writing and include the documents necessary to substantiate the claim. Claims must be filed on or before the date of final payment. Nothing in this subdivision is intended to extend the time limit or supersede notice requirements otherwise provided by contract for the filing of claims.
(b) (1) For claims of less than fifty thousand dollars ($50,000), the local agency shall respond in writing to any written claim within 45 days of receipt of the claim or may request, in writing, within 30 days of receipt of the claim, any additional documentation supporting the claim or relating to defenses to the claim the local agency may have against the claimant.
(2) If additional information is thereafter required, it shall be requested and provided pursuant to this subdivision, upon mutual agreement of the local agency and the claimant.
(3) The local agency’s written response to the claim, as further documented, shall be submitted to the claimant within 15 days after receipt of the further documentation, or within a period of time no greater than that taken by the claimant in producing the additional information whichever is greater.
(c) (1) For claims of over fifty thousand dollars ($50,000) and less than or equal to three hundred seventy-five thousand dollars ($375,000), the local agency shall respond in writing to all written claim within 60 days of receipt of the claim, or may request in writing, within 30 days of receipt of the claim, any additional documentation supporting the claim or relating to defenses to the claim the local agency may have against the claimant.
(2) If additional information is thereafter required, it shall be requested and provided pursuant to this subdivision, upon mutual agreement of the local agency and the claimant.
(3) The local agency’s written response to the claim, as further documented, shall be submitted to the claimant within 30 days after receipt of the further documentation, or within a period of time no greater than that taken by the claimant in producing the additional information or requested documentation, whichever is greater.
(d) If the claimant disputes the local agency’s written response, or the local agency fails to respond within the time prescribed, the claimant may so notify the local agency, in writing, either within 15 days of receipt of the local agency’s response or within 15 days of the local agency’s failure to respond within the time prescribed, respectively, and demand an informal conference to meet and confer for settlement of the issues in dispute. Upon a demand, the local agency shall schedule a meet and confer conference within 30 days for settlement of the dispute.
(e) Following the meet and confer conference, if the claim or any portion remains in dispute, the claimant may file a claim as provided in Chapter 1 (commencing with Section 900) and Chapter 2 (commencing with Section 910) of Part 3 of Division 3.6 of Title 1 of the Government Code. For purposes of those provisions, the running of the period of time within which a claim must be filed shall be tolled from the time the claimant submits his or her written claim pursuant to subdivision (a) until the time that claim is denied as a result of the meet and confer process, including any period of time utilized by the meet and confer process.
(f) This article does not apply to tort claims and nothing in this article is intended nor shall be construed to change the time periods for filing tort claims or actions specified by Chapter 1 (commencing with
Public Contract Code Section 20104.4 Civil action procedures; meditation and arbitration: trial de novo: witness

The following procedures are established for all civil actions filed to resolve claims subject to this article:

(a) Within 60 days, but no earlier than 30 days, following the filing or responsive pleadings, the court shall submit the matter to non-binding mediation unless waived by mutual stipulation of both parties. The process shall provide for the selection within 15 days by both parties of a disinterested third person as mediator, shall be commenced 30 days of the submittal, and shall be concluded within 15 days from the commencement of the mediation unless a time requirement is extended upon a good cause showing to the court or by stipulation of parties. If the parties fail to select a mediator within the 15-day period, any party may petition the court to appoint the mediator.

(b) (1) If the matter remains in dispute, the case shall be submitted to judicial arbitration pursuant to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, notwithstanding Section 1141.11 of that code. The Civil Discovery Act of (Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 Part 4 of the Code of Civil Procedure) shall apply to any proceeding brought under this subdivision consistent with the rules pertaining to judicial arbitration.

(2) Notwithstanding any other provision of law, upon stipulation of parties, arbitrators appointed for purposes of this article shall be experienced in construction law, and, upon stipulation of the parties, mediators and arbitrators shall be paid necessary and reasonable hourly rates of pay not to exceed their customary rate, and such fees and expenses shall be paid equally by the parties, except in the case of arbitration where the arbitrator, for good cause, determines a different division. In no event shall these fees or expenses be paid by state or county funds.

(3) In addition to Chapter 2.5 (commencing with Section 1141.10) Title 3 of Part 3 of the Code of Civil Procedure, any party who receiving an arbitration award requests a trial de novo but does obtain a more favorable judgment shall, in addition to payment of costs and fees under that chapter, pay the attorney’s fees of the other arising out of the trial de novo.

(c) The court may, upon request by any party, order any witnesses participate in the mediation or arbitration process.

Public Contract Code Section 20104.6 Payment of portion of claim which is undisputed; of interest on arbitration award or judgment

(a) No local agency shall fail to pay money as to any portion of a claim which is undisputed except as otherwise provided in the contract.

(b) In any suit filed under Section 20104.4, the local agency shall pay interest at the legal rate on any arbitration award or judgment. The interest shall begin to accrue on the date the suit is filed in a court of law.

(d) Final Payment. Payment will be made in accordance with the provisions of Section 9-1.17 of the Standard Specifications provided however that in no event will the final payment be made within 35 calendar days after the filing of Notice of Completion.
The final estimate shall be conclusive and binding against both parties to the contract on all questions relating to the performance of the contract and the amount of work done thereunder and compensation therefore.

20. **MISCELLANEOUS PROVISIONS**

(a) **Licenses and Permits.** Any and all licenses and permits required shall be provided by the Contractor and he shall abide by any and all Federal, State and County laws and rules affecting the work and shall maintain all required protection for property, employees and the public and insurance in connection with same, for all of which he shall bear necessary expense.

(b) **Building Laws, etc.** The Contractor shall conform to and abide by all County and State Building, Labor, Sanitary and Electrical Codes, Ordinances, Laws, Rules and Regulations. Such laws and regulations shall be considered a part of these Special Provisions as if set forth herein in full and the work and materials shall be in accordance therewith.

(c) **Guarantees.** All work performed and equipment or material furnished shall be guaranteed for one (1) year from date of acceptance against any inherent or developed defects of materials or workmanship in manufacture or installations.

All guarantees normally provided by manufacturers of equipment or material installed under this project shall be furnished to COUNTY and shall remain in force for their normal life.

(d) **Ownership of Plans and Specifications.** All drawings, specifications and copies thereof provided to the Bidder by COUNTY shall remain the property of COUNTY and they shall not be used by the Contractor or its subcontractors on other work.

(e) **Addenda.** Any addenda or notices issued during the time of bidding and forming a part of the documents provided to the Bidder for the preparation of his bid, shall be covered in the bid and shall be made a part of the contract. The Bidder shall acknowledge receipt of addenda in the space provided in the Proposal.

Should a bidder find apparent discrepancies in the drawings or documents, or should he be in doubts to their meaning, he should at once notify the Napa County Public Works Department, which will send a written instruction to all bidders. COUNTY will not be responsible for oral instructions.

(f) **Disposition Of Removed Materials** – CONTRACTOR shall not dispose of any materials from demolition or removal by sale, gift or in any manner whatsoever, to the general public at the site. Disposal operations shall comply with all applicable laws and ordinances and must be approved by the Engineer. All materials for disposal shall be CONTRACTOR’s responsibility to legally remove. See Section 13, these provisions Part B.

21. **OWNER’S RIGHT TO DO WORK**

COUNTY as Owner reserves the right to let other contracts in connection with this work. The Contractor shall afford other contractors on the job site reasonable opportunity for introduction and storage of their materials and execution of their work and shall properly connect and coordinate his work with theirs.
If any part of the Contractor’s work depends for proper execution or results upon work of any other Contractor, the Contractor shall inspect and promptly report to the Engineer any defects in such work that render it unsuitable for proper execution and results. His failure to so inspect and report shall constitute his acceptance of other Contractors’ work as fit and proper for reception of his work, except as to defects which may develop in other Contractors’ work after execution of his work.

To insure proper execution of his subsequent work, the Contractor shall measure and inspect work already in place and shall at once report to the Engineer any discrepancy between executed work and contract documents.

The Contractor shall ascertain to his own satisfaction the scope of the project and nature of any other contracts that have been or may be awarded by owner in prosecution of the project to the end that the Contractor may perform this contract in the light of such other contracts, if any. Nothing herein contained shall be interpreted as granting to the Contractor exclusive occupancy at the site of project. The Contractor shall not cause any unnecessary hindrance or delay to any other Contractors working on project. If simultaneous execution of any contract for the project is likely to cause interference with performance of some other contract or contracts, the owner shall decide which Contractor shall cease work temporarily and which Contractor then shall continue or whether work can be coordinated so that the Contractors may proceed simultaneously.

22. **EQUAL OPPORTUNITY EMPLOYMENT**

During the performance of the Contract, the Contractor shall comply with all applicable laws, ordinances, regulations, and codes, including but not limited to, the following:

(a) **Non-Discrimination.** During the performance of the work required by the Contract, the Contractor and its subcontractors shall not deny the benefits thereof to any person on the basis of sex, race, color, ancestry, religion or religious creed, national origin or ethnic group identification, sexual orientation, marital status, age (over 40), mental disability, physical disability or medical condition (including cancer, HIV and AIDS), nor shall they discriminate unlawfully against any employee or applicant for employment because of sex, race, color, ancestry, religion or religious creed, national origin or ethnic group identification, sexual orientation, marital status, age (over 40), mental disability, physical disability or medical condition (including cancer, HIV and AIDS), or use of family care leave. The Contractor shall ensure that the evaluation and treatment of employees and applicants for employment are free of such discrimination or harassment. In addition to the foregoing general obligations, the Contractor shall comply with the provisions of the Fair Employment and Housing Act (Government Code section 12900, et seq.), the regulations promulgated thereunder (Title 2, California Code of Regulations, section 7285.0, et seq.), the provisions of Article 9.5, Chapter 1, Part 1, Division 3, Title 2 of the Government Code (sections 11135-11139.5) and any state or local regulations adopted to implement any of the foregoing, as such statutes and regulations may be amended from time to time. To the extent this Contract subcontracts to the Contractor work required of the County by the State of California pursuant to agreement between the County and the State, the applicable regulations of the Fair Employment and Housing Commission implementing Government Code section 12990 (a) through (f), set forth in Chapter 5 of Division 4 of Title 2 of the California Code of regulations are expressly incorporated into this Agreement by reference and made a part hereof as if set forth in full, and the
Contractor and any of its subcontractors shall give written notice of their obligations thereunder to labor organizations with which they have collective bargaining or other agreements.

(b) Documentation of Right to Work. The Contractor shall abide by the requirements of the Immigration and Control Reform Act pertaining to assuring that all newly-hired employees of the Contractor performing any of the work under the Contract have a legal right to work in the United States of America, that all required documentation of such right to work is inspected, and that INS Form 1-9 (as it may be amended from time to time) is completed and on file for each employee. The Contractor shall make the required documentation available upon request to the County for inspection.

(c) Inclusion in Subcontracts. To the extent any of the work to be performed by Contractor under the Contract is subcontracted to a third party, the Contractor shall include the provisions of (a) and (b), above, in all such subcontracts as obligations of the subcontractor.

23. COUNTY POLICIES ON WASTE, HARASSMENT, DRUG/ALCOHOL-FREE, VIOLENCE-FREE WORKPLACE.

Contractor hereby agrees to comply, and require its employees and subcontractors to comply, with the following policies, copies of which are on file with the Clerk of the Board of Supervisors and incorporated by reference herein. Contractor also agrees that it shall not engage in any activities, or permit its officers, agents and employees to do so, during the performance of any of the services required under this Agreement, which would interfere with compliance or induce violation of these policies by COUNTY employees or contractors.

(b) County of Napa “Policy for Maintaining a Harassment Free Work Environment” revised effective June 20, 2017.

(c) County of Napa Drug and Alcohol Policy adopted by resolution of the Board of Supervisors on May 1, 2009.

(d) Napa County Information Technology Use and Security Policy adopted by resolution of the Board of Supervisors on April 17, 2001. To this end, all employees and subcontractors of CONTRACTOR whose performance of services under this Agreement requires access to any portion of the COUNTY computer network shall sign and have on file with COUNTY’s ITS Department prior to receiving such access the certification attached to said Policy.

(e) Napa County Workplace Violence Policy, adopted by the BOS effective May 23, 1995 and subsequently revised effective November 2, 2004, which is located in the County of Napa Policy Manual Part I, Section 37U.

24. REVIEW OF CONTRACT DOCUMENTS AND FIELD CONDITIONS BY CONTRACTOR.

Before starting each portion of the work, the Contractor shall carefully study and compare the Contract Documents relative to that portion of the work, shall take field measurements of any existing conditions related to that portion of the work and shall observe any conditions at the site affecting it. These obligations are for the purpose of facilitating construction by the contractor and are not for the purpose of discovering errors, omissions, or inconsistencies in the Contract Documents; however, any errors, inconsistencies, or
omissions discovered by the contractor shall be reported promptly to the Engineer as a request for
information in such form as the Engineer may require.

Any design errors or omissions noted by the Contractor during this review shall be reported promptly to
the Engineer, but it is recognized that the Contractor’s review is made in the Contractor’s capacity as a
contractor and not as a licensed design professional unless otherwise specifically provided in the Contract
Documents. The Contractor is not required to ascertain that the contract Documents are in accordance with
applicable laws, statutes, ordinances, building codes, and rules and regulations, but any nonconformity
discovered by or made known to the contractor shall be reported promptly to the Engineer.

25. **SUPERVISION AND CONSTRUCTION PROCEDURES**

(a) **Supervision And Direction Of Work.** The Contractor shall supervise and direct the work, using
the contractor’s best skill and attention. The Contractor shall be solely responsible for and have control
over construction means, methods, techniques, sequences and procedures and for coordinating all portions
of the work under the contract, unless the Contract Documents give other specific instructions concerning
these matters. If the Contract Documents give specific instructions concerning construction means,
methods, techniques, sequences or procedures, the Contractor shall evaluate the jobsite safety thereof and,
except as stated below, shall be fully and solely responsible for the jobsite safety of such means, methods,
techniques, sequences or procedures. If the Contractor determines that such means, methods, techniques,
sequences or procedures may not be safe, the Contractor shall give timely written notice to the Owner and
Engineer and shall not proceed with that portion of the work without further written instructions from the
Engineer. If the Contractor is then instructed to proceed with the required means, methods, techniques,
sequences or procedures without acceptance of changes proposed by the Contractor, the Owner shall be
solely responsible for any resulting loss or damage.

(b) **Responsibility Of Work.** The Contractor shall be responsible to the Owner for acts and omissions
of the Contractor’s employees, subcontractors, and their agents and employees, and other persons or
entities performing portions of the work for or on behalf of the Contractor or any of its subcontractors.

(c) **Subsequent Work.** The Contractor shall be responsible for inspection of portions of work already
performed to determine that such portions are in proper condition to receive subsequent work.

(d) **Superintendent.** The Contractor shall employ a competent superintendent and necessary
assistants who shall be in attendance at the Project site during performance of the work. The superintendent
shall represent the Contractor, and communications given to the superintendent shall be as binding as if
given to the Contractor. Important communications shall be confirmed in writing. Other communications
shall be similarly confirmed on written request in each case.

26. **PROVISIONS OF 2018 SPECIAL PROVISIONS NOT APPLICABLE.**
Those portions of the 2018 CalTrans Standard Specifications found in Section 5-1.09 “Partnering” and
all of its subparts and Section 5-1.43E “Alternative Dispute Resolution” and all its subparts are hereby
removed in their entirety and shall not apply to this Agreement.
27. **AUDITS/ACCOUNTING/RECORDS**

The CONTRACTOR shall maintain financial accounts, documents, and records (collectively, “records”) relating to this agreement, in accordance with the guidelines of “Generally Accepted Accounting Principles” (“GAAP”) published by the American Institute of Certified Public Accountants. The records shall include, without limitation, evidence sufficient to reflect properly the amount, receipt, deposit, and disbursement of all funds related to the construction of the project, and the use, management, operation and maintenance of the real property. Time and effort reports are also required. The CONTRACTOR shall maintain adequate supporting records in a manner that permits tracing from the request for disbursement forms to the accounting records and to the supporting documentation.

Additionally, the COUNTY or its agents may review, obtain, and copy all records relating to performance of the agreement. The grantee shall provide the COUNTY or their agents with any relevant information requested and shall permit the COUNTY or their agents access to the CONTRACTOR’s premises upon reasonable notice, during normal business hours, to interview employees and inspect and copy books, records, accounts, and other material that may be relevant to a matter under investigation for the purpose of determining compliance with this agreement and any applicable laws and regulations.

The CONTRACTOR shall retain the required records for a minimum of three years following the later of final disbursement by the COUNTY, and the final year to which the particular records pertain. The records shall be subject to examination and audit by the COUNTY or their agents during the retention periods.

If the CONTRACTOR retains any subcontractors to accomplish any of the work of this agreement, the CONTRACTOR shall first enter into an agreement with each subcontractor requiring the subcontractor to meet the terms of this section and to make the terms applicable to all subcontractors.

28. **INTERPRETATION; VENUE.**

(a) **Interpretation.** The headings used herein are for reference only. The terms of the Agreement are set out in the text under the headings. This Agreement shall be governed by the laws of the State of California without regard to the choice of law or conflicts.

(b) **Venue.** This Agreement is made in Napa County, California. The venue for any legal action in state court filed by either party to this Agreement for the purpose of interpreting or enforcing any provision of this Agreement shall be in the Superior Court of California, County of Napa, a unified court. The venue for any legal action in federal court filed by either party to this Agreement for the purpose of interpreting or enforcing any provision of this Agreement lying within the jurisdiction of the federal courts shall be the Northern District of California. The appropriate venue for arbitration, mediation or similar legal proceedings under this Agreement shall be Napa County, California; however, nothing in this sentence shall obligate either party to submit to mediation or arbitration any dispute arising under this Agreement.

SPECIAL PROVISIONS – SECTION ‘B’
1. GENERAL

The Contractor shall take all reasonable precautions to restrict operations to the least area of work possible and to minimize interference with traffic along the County roads, and shall not disturb private property beyond the areas of work.

The Contractor shall provide access to private properties at all times, or ensure alternate detours and access, along with all necessary signage is in place.

The Contractor shall maintain continuous access to the United States Postal Service and emergency services. The Contractor shall notify the local postmaster and emergency services at least 48 hours before work will commence.

Personal vehicles of the Contractor’s employees shall not be parked on the traveled way or shoulders, including any section closed to public traffic. Temporary “NO-STOPPING,” “NO PARKING,” and “TOW-AWAY” signs shall be posted by the Contractor upon authorization of the County.

Weekend work shall be requested the Wednesday before the weekend and approved in advance by the Engineer.

The Contractor shall provide to the Engineer the names, address and telephone numbers of at least two emergency contacts for the duration of the contract.

2. GENERAL REQUIREMENTS

A. LAYOUT OF WORK – The Contractor shall lay out all work from the references given and as shown on the plans, set the necessary markers and stakes and shall be responsible for the correctness of the work.

B. TRAFFIC CONTROL PLAN – The Contractor shall prepare the Temporary Traffic Control Plan (TTCP) for Engineers review and approval. The Stage Construction and Traffic Handling Plan included in the bid documents shall act as a template. The TTCP shall be submitted to the Engineers at the preconstruction meeting and at the minimum shall include number and location of all Construction Area Signs, Temporary Traffic Control Signs including Portable Changeable Message Signs, number of flaggers, pilot cars, etc.

C. SAFETY DATA SHEETS (SDS) – The Contractor shall provide SDS for each product used on site upon request by the Engineer.

D. PROTECTION OF EXISTING FACILITIES AND PROPERTY – Protection of existing facilities shall conform to Section 5-1.36, “Property and Facility Preservation,” of the Standard Specifications and these Special Provisions.

The Contractor shall notify Underground Service Alert (USA) for marking the locations of existing underground facilities at least two (2) working days, but not more than 14 calendar days, prior to performing any excavation or other work close to any underground pipeline, conduit, duct, wire or other structure.
Regional notification centers include but are not limited to the following:

<table>
<thead>
<tr>
<th>Notification Center</th>
<th>Telephone Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>Underground Service Alert - Northern California (USA)</td>
<td>1-800-642-2444 or 811</td>
</tr>
</tbody>
</table>

The Contractor shall immediately notify the County Engineer of any facilities found that may interfere with work to be performed. The Contractor shall take all necessary measures to avoid injury to existing surface and underground utility facilities in and near the site of the work. If damage should occur to the existing facilities, the utility company and the County shall be notified immediately and repairs acceptable to the utility company shall be made at the Contractor’s expense.

Existing trees, shrubs, and other plants, that are injured or damaged by reason of the Contractor’s operations, shall be replaced by the Contractor.

Full compensation for conforming to the requirements of this section shall be considered as included in the contract prices paid for the various contract items of work and no additional compensation will be allowed.

E. DAMAGES – The Contractor shall be responsible for any damages to existing facilities, utilities and roads due to causes attributable to the work, and all such damaged facilities, utilities and roads shall be repaired when directed by the Engineer and as required to place them in as good as condition as existed before commencement of the work.

F. OWNER NOTIFICATION – The Contractor shall notify all property owners and businesses affected by the project’s work with door hangers at least 48 hours before work is to begin. The notice shall be in writing, placed on doors, and shall indicate the Contractor’s name and phone number, type of work, day(s) and time when work will occur. Notice shall be reviewed and approved by the Engineer prior to being sent.

Full compensation for conforming to the requirements of this section shall be considered as included in the contract prices paid for the various contract items of work and no additional compensation will be allowed.

G. EMERGENCY SERVICE PROVIDERS NOTIFICATIONS – The Contractor shall furnish the name and phone number of a representative that can be contacted in the event of an emergency. Said information shall be reported to the County Sheriff dispatcher, and updated as required to provide 24-hour phone access.

Full compensation for conforming to the requirements of this section shall be considered as included in the contract prices paid for the various contract items of work and no additional compensation will be allowed.

H. PUBLIC SAFETY – The Contractor shall at all times conduct his work in accordance with Construction Safety Orders of the Division of Industrial Safety, State of California, to insure the least possible obstruction to traffic and inconvenience to the general public, and adequate protection of persons and property in the vicinity of the work.

No access way shall be closed to the public without first obtaining permission from the Engineer.
The Contractor shall furnish, erect and maintain all lights, signs, barricades and barriers necessary to give adequate warning to the public at all times and shall provide such guards as may be necessary to prevent accidents and avoid damage and injury.

Should the Contractor fail to provide public safety as specified or if, in the opinion of the Engineer, the warning devices furnished by the Contractor are not adequate, the County may place any warning lights or barricades or take any necessary action to protect or warn the public of any dangerous condition connected with the Contractor’s operations and the Contractor shall be liable to the County for all costs incurred plus 100%.

Nothing in this section shall be construed to impose tort liability on the County or Engineer. Full compensation for conforming to the requirements of this section shall be considered as included in the contract prices paid for the various contract items of work and no additional compensation will be allowed.

I. WATER FOR CONSTRUCTION AND DUST CONTROL – Construction and testing water shall conform to Section 17, “Watering,” of the Standard Specifications and these Special Provisions.

Water for construction activities shall be provided by the Contractor. The Contractor shall contain all water within the limits of the project and prevent discharge to adjacent wetland, ditches, creeks and other facilities.

Full compensation for conforming to the requirements of this section shall be considered as included in the contract prices paid for the various contract items of work and no additional compensation will be allowed.

J. EXISTING UTILITIES – The Contractor shall notify all utility companies and request field location markings of existing facilities prior to commencing construction. Where potential conflict with existing underground utilities may constitute a safety hazard or interfere with the progress of work, such facilities shall be hand-excavated to determine their precise location. Contractor shall be liable for damages to all utilities whether so located and marked or not.

It is not the intent of the Plans to show the exact location or extent of existing underground utilities or structures, and the Engineer assumes no responsibility therefor.

It is the Contractor’s responsibility to verify all existing utility locations and notify the Engineer in case of conflict.

Full compensation for conforming to the requirements of this section shall be considered as included in the contract prices paid for the various contract items of work and no additional compensation will be allowed.

K. COOPERATION – The Contractor shall cooperate with the occupants of the existing facilities adjacent to the project and coordinate the work in such a manner as to minimize the disruption to the existing facilities.

Full compensation for conforming to the requirements of this section shall be considered as included in the contract prices paid for the various contract items of work and no additional compensation will be allowed.
L. SAFETY – The Contractor shall comply with all the applicable provisions of the United States Department of Labor Occupational Safety and Health Act (OSHA), State of California Division of Industrial Safety, Title 8, Safety Orders (Cal-OSHA) and any other applicable codes and regulations.

If, in the opinion of the Engineer, any operation or piece of equipment that is observed by the Engineer appears to be unsafe, the Engineer may immediately halt that portion of the work until the hazard is corrected to the satisfaction of the Engineer and no time extension or additional compensation shall be granted for the time lost due to said halting of the work.

M. CONSTRUCTION LIMITATIONS – The Contractor will be expected to conduct his operations in a manner which creates minimum damage to the natural vegetation and landscaping, paving and gravel areas. Care shall be exercised to avoid hazards that may cause injury to persons, animals or property either during working hours or after work hours, which will include dust control, backfilling trenches or placement of steel plates and temporary fencing as required. Equipment will be restricted to the immediate area of construction and trenches will be backfilled as soon as possible.

Receptacles for construction residue, including oil, cleaning fluids and litter, will be covered. Such residues will be disposed of in a proper manner.

Mufflers and/or baffles will be required on all construction equipment.

Construction activity within the existing right-of-way will be scheduled to minimize traffic inconvenience and safety hazards to motorists, pedestrians and cyclists.

N. CLEAN UP – Clean up shall be performed to prevent accidents to personnel, protect all work in place, and to effect completion of the project in an orderly manner. Excess debris shall be removed from the work area immediately so as not to clutter the existing facilities. Access to all other properties within the project area shall be unobstructed and passable between the hours of 5:00 p.m. and 6:00 a.m. weekdays, on weekends and holidays, and whenever work is not actively in progress where feasible.

O. EQUIPMENT – Standard construction equipment shall be used and shall be maintained in a safe and satisfactory condition at all times and in compliance with the latest provisions of the CAL/OSHA regulations. All trucks and other heavy equipment shall be well maintained and in proper working order and in compliance with all applicable laws and regulations.

P. WORKING HOURS REQUIREMENTS – Normal work week shall be Monday through Friday 7:00 am to 5:00 pm; unless otherwise approved by the Engineer. No work shall be performed on a County Holiday.

Q. SCOPE – Contractor shall take into account all costs associated with the improvements, as shown on the plans and discussed in the technical specifications, when preparing the bid and shall take into account the working hour restrictions.

3. ORDER OF WORK

Order of work shall conform to these Special Provisions.
The Contractor shall prepare and submit a work plan and schedule in accordance with Section 8, “Prosecution and Progress,” of the Standard Specifications and in a form provided by, or acceptable to, the Engineer and submit information describing the Contractor’s proposed procedures and methods of operation.

No work may begin under the contract until the schedule and description of proposed procedures and methods of operation material have been approved by the Engineer. Time required for review and approval of these items shall not constitute a basis for time extension.

The Contractor shall verify the location of all existing utilities.

No work may begin under the contract until traffic control and construction signage is implemented.

The Contractor shall order work to minimize obstruction to adjacent property owner and inconvenience to the traveling public. The contractor will coordinate with the County and establish traffic control and implement work in a manner which provides the greatest possible access to the property owners adjacent to the work area.

Full compensation for complying with the above provisions shall be considered as included in the contract price for the various bid items, and no separate payment will be made.

4. MOBILIZATION

Mobilization shall conform to these Special Provisions Section 14 and shall include but not limited to bonds, insurance, construction fencing, office trailers, temporary sheds, temporary utilities, temporary facilities, equipment and supplies, mobilization and demobilization, and all preparatory work prior to the commencement of productive work at the site required under this contract.

Full compensation for conforming to the provisions of this section shall be considered as included in the contract lump sum price. No additional compensation will be allowed therefore.

5. SUBMITTALS

Attention is directed to Section 5-1.23 “Submittals,” of the Standard Specifications and these Special Provisions. The Contractor shall submit products or materials list, specifications and schedule at the pre-construction meeting. The Contractor shall submit for the Engineer’s approval, six cut sheets for all of the products and materials to be used for all work on the project, or an electronic submittal. The cut sheets submitted by the contractor shall clearly describe how the proposed products or materials meet the specifications of the products and materials requested in the project specifications.

Submit at Contractor’s expense, in six (6) sets, Schedule of Shop Drawing and Sample Submittals, Safety Plans, Progress Schedule, Product Data, Shop Drawings, Samples, Substitution Requests, Quality Control Plan, Operations and Maintenance Manuals, Warranties, and Project Record Documents, and all other submittals required by the Contract Documents.
Submit these submittals to Engineer, for review and approval in accordance with accepted schedule of Shop Drawings and Samples submittals. All Shop Drawing, Samples and product data submittals shall be submitted to and approved by the Engineer prior to ordering of material or commencement of work. The Engineer shall be given adequate time for review of submittals.

6. CONSTRUCTION AREA SIGNS

Construction area signs will be provided by the Contractor. Contractor shall coordinate with the Engineer on construction area signs and submit for Engineer’s review and approval at the pre-construction meeting.

In addition to the stationary traffic control and construction area signs, at a minimum 2 Portable Changeable Message Signs (PCMS) shall be installed. One on each end of the construction area. The PCMS shall be installed two weeks prior to any lane restriction operation to warn the local traffic of upcoming construction activities.

Full Compensation for Construction Area Signs will be included in the Contract Lump Sum paid for “Traffic Control” and no additional compensation will be allowed therefore.

7. MAINTAINING TRAFFIC

Maintaining traffic shall conform to the provisions of Section 7-1.03 “Public Convenience”, Section 7-1.04 “Public Safety” and Section 12 “Temporary Traffic Control” of the Standard Specifications and these Special Provisions. The Contractor shall prepare a Temporary Traffic Control Plan in compliance with Standard Specifications and these Special Provisions and submit for Engineer’s review and approval at the pre-construction meeting.

The Contractor shall install all construction area signs and traffic controls prior to start of work. The PCMS shall be installed two weeks prior to any lane restriction operation. Construction area signs shall be furnished, installed, maintained, and removed when no longer required by the County.

One lane shall be kept open to public traffic at all times, except where full closures are expressly allowed by the County. Lane closure will require 72 hours’ notice to the Engineer and 48 hours’ notice to the property owners. Full closures require a 5 working day notice to the County and 72 hours to the affected properties. The full width of the usable roadway shall be available to public traffic when work is not actively in progress.

The Contractor shall coordinate and give adequate warning to the public at all times and shall provide such guards necessary to prevent accidents and avoid damage and injury.

Construction staging and traffic handling shall be done in a way that minimizes public inconvenience. The stage construction plans and narrative in these specifications can be used as an outline but does not relieve the burden on the contractor to fully develop staging and traffic handling plans for approval. The plans and specifications have been laid out with the following stages:

If any component in the traffic control system is displaced, or ceases to operate or function as specified, from any cause, during the progress of work, the Contractor shall immediately notify the Engineer and remedy the situation. Full Compensation for
Maintaining Traffic will be included in the Contract Lump Sum paid for “Traffic Control” and no additional compensation will be allowed therefore.

8. TRAFFIC CONTROL SYSTEMS FOR LANE CLOSURES

Traffic Control will be provided by the Contractor. A traffic control system shall consist of closing traffic lanes in accordance with the provisions of Section 12, “Temporary Traffic Control”, of the Standard Specifications.

The Contractor shall provide such additional devices or take such measures as may be necessary to comply with Section 7-1.04, “Public Safety,” of the Standard Specifications.

It is anticipated that a pilot car will be necessary to direct traffic when the work areas spans driveways.

If any component in the traffic control system is displaced, or ceases to operate or function as specified, from any cause, during the progress of work, the Contractor shall immediately notify the Engineer and remedy the situation.

Full Compensation for Traffic Control Systems for Lane Closures will be included in the Contract Lump Sum paid for “Traffic Control” and no additional compensation will be allowed therefore.

9. STORM WATER POLLUTION PREVENTION MEASURES

Contractor shall comply with all Storm Water Pollution Prevention requirements as required by the Regional Water Quality Control Board and Napa County. The Contractor shall implement water quality control measures to effectively handle storm water run-off both during and after construction. The contractor shall utilize best management practices as outlined in the CA Storm Water Handbook for construction. This can be found at www.cabmphandbooks.com.

Full compensation for conforming to the provisions of this section shall be considered as included in the contract unit price paid for this item of work and paid as such.

10. PRESERVATION OF PROPERTY

Preservation of property shall conform to the provisions of Section 5-1.36, “Property and Facility Preservation,” of the Standard Specifications and of these Special Provisions. Attention is directed to Section 10, “Mobilization”.

The Contractor shall examine the site and have full knowledge of the conditions and difficulties to be met. No variations or allowance from the contract sum will be made because of lack of knowledge.

The Contractor shall provide the necessary safeguards, shall exercise caution against injury or defacement of existing improvements and plantings and shall be responsible for the damage resulting from operations. Repair or replacement of such damage shall be at no cost to the County.

Existing trees, shrubs, and other plants, that are injured or damaged by reason of the Contractor’s operations, shall be replaced by the Contractor.
11. DUST CONTROL

Dust control shall conform to the provisions in Section 14-11.04, "Dust Control," of the Standard Specifications and these Special Provisions.

During the performance of the work called for under these Specifications, or any operations appurtenant thereto, the Contractor shall furnish all labor, equipment and means required, and as often as necessary, to prevent his operations from producing dust in amounts damaging to property or causing a nuisance to persons living nearby or occupying buildings in the vicinity.

Full compensation for conforming to the requirements of this section shall be considered as included in the contract prices paid for the various contract items of work and no separate payment will be made for work performed or material used to control dust resulting from the Contractor’s performance of the work, either inside or outside the right of way.

12. DISPOSAL OF SURPLUS MATERIAL

Disposal of materials shall conform to section “Miscellaneous Provisions” and “General Requirements” of these Special Provisions.

The Contractor shall load, haul from the site of work and properly dispose of all surplus excavated material including, but not limited to, rock, concrete, soil, and miscellaneous debris prior to the beginning of any earthwork, the Contractor shall make all arrangements for disposal of the surplus material at offsite locations and shall file with the owner the written consent of the owner of the property upon which disposal of surplus material is intended.

Full compensation for Disposal of Surplus Material shall be considered as included in the contract prices paid for the various contract items of work and no additional compensation will be allowed.
SPECIAL PROVISIONS – SECTION ‘C’
TECHNICAL SPECIFICATIONS
1 SUMMARY OF WORK

PART I – GENERAL

1.01 DESCRIPTION

A component in one contract part applies as appearing in each. The Plans and Specifications are complementary, describe, and provide for complete work. The work to be done under the Contract shall comply with all requirements of the Plans and Specifications, the Standard Specifications, and the Standard Plans unless modified in writing by the Engineer. In case of conflict, the stricter or more conservative specification, as determined by the Engineer, shall apply.

The work to be done under the Contract, shall comply with:

A. The project plans (Plans) and Special Provisions (Specifications).
F. 2021 Napa County Road and Street Standards.
H. Napa County Public Works Department (County) Standards, Specifications, and Details.

1.02 SUMMARY OF WORK

This project is to remove unsuitable fill material, construct a retaining wall and backfill with suitable material.

General work at the project site will consist of:

A. Mobilization.
B. Staging Area Setup.
C. Construction Area Signs per CAMUTCD Standards and Special Provisions.
D. Temporary Traffic Control per CAMUTCD Standards and Special Provisions.
E. Clearing and Grubbing of hillside that can include and is not limited to tree trimming and removal, and plant and debris removal.
F. Excavation and off-haul of unsuitable material
G. Earthwork and grading for wall construction
H. Wall Construction and backfill
I. Import and grading of suitable fill material
J. Storm drain construction
K. Erosion Control
L. Base work and auxiliary work shown on the Plans and as directed by the Engineer.
M. Final cleanup
N. Project closeout

1.03 SEQUENCE AND SCHEDULE REQUIREMENTS
   A. Construction is anticipated to begin in July or August 2022 and be completed by September 20th, 2022.

1.04 DEFINITIONS
   A. County: Napa County Public Works Department
   B. Engineer: Director of County Public Works or their designee
   C. Scope of Work: The scope of work as depicted on the Plans with reference to the Standard Plans, the Standard Specifications, County Standards, and these Special Provisions.

1.05 USE OF PROJECT SITE
   A. The Contractor shall limit the Contractor’s operations to the grading limits shown on the Plans or as approved in writing by the Engineer.
   B. Contractor shall submit the construction vehicle and equipment access route(s) to the project site to the Engineer for approval.
   C. Staging Area
      1. The Contractor shall submit a Construction Staging Plan to be approved by the Engineer.
      2. The Contractor shall restore the site at the Contractor’s own cost prior to demobilization. Failure to restore the site to the property owner’s satisfaction will result in delay in release of final payments until the issue has been resolved.
      3. Staging Area will be allowed within the public Right-of-Way, at a location approved by the Engineer.
   D. See Section 10 “Mobilization” of these Special Provisions for further requirements for protection of existing property.

1.06 COORDINATION
   A. Coordination of work shall conform to Section 9 “Coordination of Work” of the Special Provisions.
   B. The Contractor is responsible for coordinating with utility agencies for utility standby and any utility relocation.

1.07 PERMITS OBTAINED BY THE COUNTY
   A. No permit required.

1.08 PERMITS OBTAINED BY THE CONTRACTOR
   A. All other permits as required for Contractor’s Operation.
PART 2 – PRODUCTS – NOT USED

PART 3 – EXECUTION – NOT USED

PART 4 – MEASUREMENT AND PAYMENT

A. Full compensation for complying with the provisions of this Section shall be considered as included in the Contract price for the various bid items, and no separate payment will be made.
2 QUALITY CONTROL

PART 1 – GENERAL

1.01 DESCRIPTION

A. The Contractor is responsible for Quality Control.

B. The Contractor is responsible for the quality of the work including materials and workmanship performed by the subcontractors.

C. The Contractor will cooperate and coordinate with the County for Quality Assurance testing performed by the County.

D. The County performing Quality Assurance inspections and testing does not relieve the Contractor from the responsibility of performing all Quality Control testing required to deliver a quality product.

E. Quality Control includes all tasks required to deliver a coordinated and complete project that is in compliance with the intent of the Contract Documents.

PART 2 – PRODUCTS - NOT USED

PART 3 – EXECUTION

3.01 SITE INVESTIGATION AND CONTROL

A. The Contractor shall verify all dimensions in the field and shall check all field conditions continuously during construction. The Contractor shall be solely responsible for any inaccuracies built into the Work. The Contractor shall inspect related and appurtenant work and shall report in writing to the Engineer, any conditions which will prevent proper completion of the Work. Any required removal, repair, or replacement caused by unsuitable conditions shall be done by the Contractor at its sole cost and expense.

3.02 INSPECTION OF WORK

A. The Work shall be conducted under the general observation of the Engineer and shall be subject to inspection by the County and other agencies having jurisdiction over the project to assure strict compliance with the requirements of the Contract Documents.

B. The authorized representative of the Engineer on the project site shall be acting directly and through various inspectors at the site. The presence of the inspectors, however, shall not relieve the Contractor of his responsibility for the proper execution of the Work in accordance with all requirements of the contract documents. Compliance is a duty of the Contractor and shall not be avoided by any act or omission on the part of an inspector.

C. All materials and articles furnished by the Contractor shall be subject to inspection. No material or articles shall be used in the Work until it has been inspected and accepted by the Engineer or by the County.

D. Source Inspection: Some material shall be subject to inspection by the Engineer or his authorized representative at the place of production.
E. The presence of the Engineer at the place of production shall not relieve the Contractor of the responsibility for furnishing products, materials, and equipment that comply with all requirements of the contract documents.

3.03 SAMPLING AND TESTING

A. Unless otherwise specified in these Special Provisions all sampling and testing shall be in accordance with the methods prescribed in the current standards of the ASTM or other specified published standards, as applicable to the class and nature of the article or materials considered. The County reserves the right to use any generally accepted system of sampling and testing which, in the opinion of the Engineer, will assure the County that the quality of the workmanship is in full accord with the contract documents.

B. Any waiver by the County of any specific testing or other quality assurance measures, whether or not such waiver is accompanied by a guarantee of substantial performance as a relief from the specified testing or other quality assurance requirements as originally specified, and whether or not such guarantee is accompanied by a "performance bond" to assure execution of any necessary corrective or remedial Work, shall not be construed as a waiver of any prescriptive or performance requirements of the contract documents. "Performance bond" as used in this section is a separate bond in addition to the Contract Performance Bond required in the General Conditions.

C. Notwithstanding the existence of waiver, and in addition to any testing and inspection performed by any other inspector on behalf of the County or any other public agency having jurisdictions over the project, the Engineer shall have the right to make independent investigations and tests, and failure of any portion of the Work to meet any of the requirements of the contract documents shall be reasonable cause for the Engineer to require the removal or correction and reconstruction of any such work in accordance with the General Conditions.

3.04 TIME OF INSPECTIONS AND TESTS

A. Samples and test specimens required under the contract documents shall be furnished by the Contractor and prepared for testing in time for the completion of the necessary tests and analyses before the subject materials or articles are to be used.

B. The County will perform field compaction testing. The Contractor shall furnish all required test specimens at its own expense. Except as otherwise provided in the contract documents, performance of the required initial test will be by the County and all costs will be borne by the County except that the cost of any test (retesting) after the initial test shall be borne by the Contractor. The County performing Quality Assurance testing does not relieve the Contractor from his responsibility of performing all required Quality Control testing to deliver a quality project.

C. The Contractor at the Contractor’s own expense shall perform field testing for utilities that may be affected by the Work. The Contractor shall coordinate and schedule witnessing of field testing with the County and any other agency having jurisdiction over the project. The Contractor shall notify the Engineer no less than 48 hours in advance of beginning field testing.
D. Whenever the Contractor is ready to backfill, bury, cast in concrete, hide, or otherwise cover or make inaccessible any work under the Contract, the Contractor shall notify the Engineer no less than 48 hours in advance of beginning any work of backfilling, burying, casting in concrete, hiding, covering, or making inaccessible any portion of the Work to be inspected so that required inspections can be performed.

E. Failure by the Contractor to notify the Engineer at least 48 hours in advance of any inspection or field testing shall be reasonable cause for the Engineer to require sufficient delay in the Contractor's schedule to allow time for such inspections and any remedial or corrective work required. All costs of such delays, including its impact or effect upon the Work, shall be borne by the Contractor.

3.05 DEFECTIVE AND NONCOMPLIANT WORK

A. Attention is directed to Section 5-1.30 Noncompliant and Unauthorized work and Section 5-1.39 Damage Repair and Restoration of the Standard Specifications.

B. Per Section 5-1.30 Noncompliant and Unauthorized work of the Standard Specifications, the contractor shall correct or remove and replace work that does not comply with the Contract at contractor’s cost. County will reduce payment for non-compliant work left in place until the work has been corrected. If the contractor fails to comply promptly with an order under section 5-1.30, the County may correct, remove, or replace noncompliant or unauthorized work. The County will deduct the cost of this work from the contract.

C. Per Section 5-1.39 Damage Repair and Restoration of the Standard Specifications, before Contract acceptance, the contractor shall restore damaged work to the same state of completion as before the damage. The County does not adjust payment for repair or restoration that the Engineer determines was caused by the contractor’s failure to construct the work under the Contract or protect the work.

D. The contractor shall submit a repair or restoration work plan and scheduled for the approval of the Engineer prior to proceeding with work. The submittal must comply with the requirements in Section 4 Submittal Procedures of this Special Provisions.

PART 4 - MEASUREMENT AND PAYMENT

A. Full compensation for complying with the provisions of this section shall be considered as included in the contract price for the various bid items, and no separate payment will be made.
3 PROJECT MEETINGS

PART 1 - GENERAL

1.01 SUMMARY

A. This section includes:
   1. Contractor participation in a preconstruction conference.
   2. Administration of progress meetings.

1.02 PRECONSTRUCTION CONFERENCES

A. The Engineer will administer a preconstruction conference for the purpose of executing County-Contractor agreements and will provide clarification of County and Contractor responsibilities in the use of the Work site and for review of administrative procedures, contract documents, standards, correspondence, and submittal requirements.

   1. Personnel present at this meeting are the Engineer, inspector, design consultants, environmental consultant, quality assurance team, archeologist, County representatives, and representatives of other agencies, the Contractor, job superintendent, and the major subcontractors and their foremen or superintendents who will be working on the site.

   2. The Contractor shall be prepared to discuss timing, procedures for smooth job progress, items requiring clarification, distribution of documents, and correspondence with the Engineer and other County representatives.

1.03 PROGRESS MEETINGS

A. The Engineer shall schedule and administer project meetings throughout progress of the Work at weekly intervals and other meetings as needed throughout construction.

   1. The Engineer shall prepare an agenda with copies for participants and record minutes, and distribute copies within three (3) days to the Contractor, and to the project team. Those affected by decisions made at the meetings may also be notified.

   2. Attendance: Contractor’s job superintendent, major subcontractors and suppliers, design consultants, environmental consultant, quality assurance team, archeologist, other representatives of the County and other agencies as appropriate to address topics for each meeting.

   3. Suggested Agenda: Review of Work progress, status of progress schedule and adjustments, material order and delivery schedules, submittals, maintenance of quality standards, pending changes and substitutions, and other items affecting progress of the Work.
B. The Engineer shall prepare and distribute meeting minutes to the project team and other attendees as requested following each meeting after the minutes have been reviewed and approved by the Engineer. Meeting minutes shall include a running list of action items for the Contractor. The contents of minutes do not constitute a part of the contract documents. Contract requirements can only be amended by change order.

1.04 ENVIRONMENTAL EDUCATION MEETINGS

A. Each time workers and/or subcontractors come onto the jobsite for the first time the Contractor shall convene a meeting prior to them commencing any work.

B. Required attendance includes jobsite superintendents, foremen, and workers.

C. Discussions shall include wildlife identification and permit requirements for environmental protection.

PART 2 – PRODUCTS - NOT USED

PART 3 – EXECUTION - NOT USED

PART 4 - MEASUREMENT AND PAYMENT

A. Full compensation for complying with the provisions of this section shall be considered as included in the contract price for the various bid items, and no separate payment will be made.
4 SUBMITTAL PROCEDURES

PART 1 - GENERAL

1.01 SUMMARY
   A. This section includes: Administrative and procedural requirements for submitting shop drawings, product data, samples, and other submittals.

1.02 DEFINITIONS
   A. Action Submittals: Written and graphic information that requires the Engineer’s responsive action.
   B. Informational Submittals: Written information that does not require the Engineer’s responsive action. Submittals may be rejected for not complying with requirements.

1.03 SUBMITTAL PROCEDURES
   A. General:
      1. The minimum required submittals are included in Attachment A.
      2. The Contractor shall submit six (6) sets of each required submittal.
      3. Electronic copies of CAD Drawings of the contract drawings will be provided by the Engineer for the Contractor’s use in preparing submittals upon the Contractor’s written request.
   B. Coordination: The Contractor shall coordinate preparation and processing of submittals with the performance of construction activities.
      1. Coordinate each submittal with fabrication, purchasing, testing, delivery, other submittals, and related activities that require sequential activity.
      2. Coordinate transmittal of different types of submittals for related parts of the Work so processing will not be delayed because of need to review submittals concurrently for coordination.
      3. The Engineer reserves the right to withhold action on a submittal requiring coordination with other submittals until related submittals are received.
      4. The Contractor shall be responsible for the timely submittal of all project submittals including project submittals for work to be done by subcontractors. The Contractor shall not be entitled to project delays resulting from late, inaccurate, or incomplete submittals.
   C. Submittals Schedule: The Contractor shall comply with the construction schedule for time requirements for scheduled performance of related construction activities.
   D. Processing Time: Allow enough time for submittal review, including time for resubmittals, as follows: Time for review shall commence on the Engineer’s receipt of the submittal. No extension of the contract time will be authorized because of failure to transmit submittals enough in advance of the Work to permit processing, including resubmittals.
1. Initial Review: Allow five (5) days for initial review of each submittal. Allow additional time if coordination with subsequent submittals is required. The Engineer will advise the Contractor when a submittal being processed must be delayed for coordination.

2. Intermediate Review: If an intermediate submittal is necessary, process it in same manner as an initial submittal.

3. Resubmittal Review: Allow five (5) days for review of each resubmittal.

E. Identification: Affix a permanent label or title block on each submittal for identification.

1. Indicate the name of the firm or the entity that prepared each submittal on label or title block.

2. Provide a space approximately six (6) inches by eight (8) inches on the label or adjacent to the title block to record the Contractor's review and approval markings and actions taken by the Engineer.

3. Include the following information on label for processing and recording action taken:
   a. Project name.
   b. Date.
   c. Name and address of the Engineer.
   d. Name and address of the Contractor.
   e. Name and address of subcontractor.
   f. Name and address of supplier.
   g. Name of manufacturer.
   h. Submittal number or other unique identifier, including revision identifier. Submittal number shall use Standard Specification section number followed by a decimal point and then a sequential number (e.g., 06100.01). Resubmittals shall include an alphabetic suffix after another decimal point (e.g., 06100.01.A).
   i. Number and title of appropriate Standard Specification section.
   j. Drawing number and detail references, as appropriate.
   k. Location(s) where product is to be installed, as appropriate.
   l. Other necessary identification.

F. Deviations: Highlight, encircle, or otherwise specifically identify deviations from the contract documents on submittals.

G. Additional Copies: Unless additional copies are required for final submittal, and unless the Engineer observes noncompliance with provisions in the contract documents, initial submittal may serve as final submittal.

H. Transmittal: Package each submittal individually and appropriately for transmittal and handling and submit directly to the Engineer. Transmit each submittal using a transmittal form.
1. Transmittal Form: Use standardized form approved by the Engineer.

2. On an attached separate sheet, prepared on the Contractor’s letterhead, record relevant information, requests for data, revisions other than those requested by the Engineer on previous submittals, and deviations from requirements in the contract documents, including minor variations and limitations. Include the same label information as is affixed to the related submittal.

I. Resubmittals: Make resubmittals in the same form and number of copies as the initial submittal.
   1. Note date and content of previous submittal.
   2. Note date and content of revision in label or title block and clearly indicate extent of revision.
   3. Resubmit submittals until they are marked "Approved", or "Approved as Noted".

J. Distribution: Furnish copies of final submittals to manufacturers, subcontractors, suppliers, fabricators, and installers, authorities having jurisdiction, and others as necessary for performance of construction activities. Show distribution on transmittal forms.

K. Use for Construction: Use only final submittals with mark indicating approval by the Engineer.

PART 2 - PRODUCTS

2.01 ACTION SUBMITTALS

A. General: Prepare and submit action submittals required by individual Standard Specification sections.

B. Product Data: Collect information into a single submittal for each element of construction and type of product or equipment.
   1. If information must be specially prepared for submittal because standard printed data are not suitable for use, submit as Shop Drawings, not as Product Data.
   2. Mark each copy of each submittal to show which products and options are applicable.
   3. Include the following information, as applicable:
      a. Manufacturer's written recommendations.
      b. Manufacturer's product specifications.
      c. Manufacturer's installation instructions.
      d. Standard color charts.
      e. Manufacturer's catalog cuts.
      f. Mill reports.
      g. Standard product operation and maintenance manuals.
      h. Compliance with specified referenced standards.
i. Testing by recognized testing agency.

j. Application of testing agency labels and seals.

k. Notation of coordination requirements.

4. Submit product data before or concurrent with samples.

5. Number of Copies: Submit six (6) copies of product data, unless otherwise indicated. The Engineer will return two (2) copies to the Contractor. Mark up and retain one (1) returned copy as a project record document.

C. Shop Drawings: Prepare project-specific information, drawn accurately to scale.

1. Preparation: Fully illustrate requirements in the contract documents. Include the following information, as applicable:
   
   a. Dimensions.
   
   b. Identification of products.
   
   c. Fabrication and installation drawings.
   
   d. Roughing-in and setting diagrams.
   
   e. Schedules.
   
   f. Design calculations.
   
   g. Compliance with specified standards.
   
   h. Notation of coordination requirements.
   
   i. Notation of dimensions established by field measurement.
   
   j. Seal and signature of professional engineer if specified.

2. Sheet Size: Except for templates, patterns, and similar full-size drawings, submit shop drawings on sheets at least 8-1/2 inches by 11 inches but no larger than 30 inches by 40 inches.

3. Number of Copies: Submit six (6) opaque (bond) copies of each submittal unless otherwise indicated. The Engineer will return two (2) copies to the Contractor. Mark up and retain one (1) returned copy as a project record document.

D. Subcontract List: Prepare a written summary identifying individuals or firms proposed for each portion of the Work, including those who are to furnish products or equipment fabricated to a special design. Include the following information in tabular form:

1. Name, address, and telephone number of entity performing subcontract or supplying products.

2. Number and title of related Standard Specification section(s) covered by subcontract.

3. Drawing number and detail references, as appropriate, covered by subcontract.

4. Number of Copies: Submit three (3) copies of subcontractor list, unless otherwise indicated. The Engineer will return two (2) copies to the Contractor. Mark up and retain one (1) returned copy as a project record document.
2.02 INFORMATIONAL SUBMITTALS

A. General: Prepare and submit informational submittals required by Standard Specification sections.
   1. Number of Copies: Submit three (3) copies of each submittal unless otherwise indicated. The Engineer will not return the copies.
   2. Certificates and Certifications: Provide a notarized statement that includes signature of entity responsible for preparing certification. Certificates and certifications shall be signed by an officer or other individual authorized to sign documents on behalf of that entity.

B. Contractor's Construction Schedule: Comply with requirements specified in the General Conditions.

C. Qualification Data: Prepare written information that demonstrates the capabilities and the experience of firms and persons. Include lists of completed projects with project names and addresses, names and addresses of engineers and owners, and other information specified.

D. Welding Certificates: Prepare written certification that welding procedures and personnel comply with requirements in the contract documents. Submit record of Welding Procedure Specification (WPS) and Procedure Qualification Record (PQR) on AWS forms. Include names of firms and personnel certified.

E. Product and Material Certificates: Prepare written statements on manufacturer's letterhead certifying that product or material complies with requirements in the contract documents.

F. Material Test Reports: Prepare reports written by a qualified testing agency, on testing agency’s standard form, indicating and interpreting test results of material for compliance with requirements in the contract documents.

G. Schedule of values: Prepare a schedule of values breakdown for all lump sum items of work and submit it at the pre-construction meeting.

PART 3 - EXECUTION

3.01 CONTRACTOR'S REVIEW

A. Review each submittal and check for coordination with other Work of the contract and for compliance with the contract documents. Note corrections and field dimensions. Mark with approval stamp before submitting to the Engineer.
   1. Approval Stamp: Stamp each submittal with a uniform, approval stamp. Include Project name and location, submittal number, Specification Section title and number, name of reviewer, date of the Contractor's approval, and statement certifying that submittal has been reviewed, checked, and approved for compliance with the contract documents.
3.02 ENGINEER’S ACTION

A. General: The Engineer will not review submittals that do not bear the Contractor’s approval stamp and will return them without action.

B. Action Submittals: The Engineer will review each submittal, make marks to indicate corrections or modifications required, and return it. The Engineer will stamp each submittal with an action stamp and will mark the stamp appropriately to indicate action taken.

C. Informational Submittals: The Engineer will review each submittal and will return it if it does not comply with requirements. If the submittal does meet the requirements the submittal will not be returned. The Engineer will forward each submittal to an appropriate party.

D. Partial submittals are not acceptable, will be considered nonresponsive, and will be returned without review.

E. Submittals not required by the contract documents may not be reviewed and may be discarded.

PART 4 - MEASUREMENT AND PAYMENT

A. Full compensation for complying with the provisions of this section shall be considered as included in the contract price for the various bid items, and no separate payment will be made.
5 MEASUREMENT AND PAYMENT

PART 1 – MEASUREMENT AND PAYMENT

1.01 WORK INCLUDED

A. This specification section describes contract requirements for the measurement and payment for work performed under this Contract.

B. Payment for each Contract bid item includes full compensation for all labor, equipment, tools, supplies and incidentals necessary to complete the work.

1.02 MEASUREMENT AND PAYMENT

A. Lump Sum Bid Items:

1. Payment items for the work of this Contract for which contract lump sum payments will be made are listed in the Bid Schedule and described below. All costs for items of work, which are not specifically mentioned in a particular lump sum payment item, shall be included in the listed lump sum item most closely associated with the work involved. The lump sum price and payment made for each item listed shall constitute full compensation for furnishing all labor, materials, and equipment, and performing any associated Contractor quality control, environmental protection, meeting safety requirements, tests and reports, and for performing all work required for which separate payment is not otherwise provided.

2. Before the Contractor’s first progress pay request on this project, the Contractor shall provide the Engineer with a Schedule of Values (Lump Sum Breakdown) for each Lump Sum bid item shown on Bid Schedule. The Schedule of Values shall be a well-balanced detailed breakdown of work items consisting of estimated quantities, unit prices, material, and equipment costs the Contractor allocates for the work covered under each lump sum bid item.

3. Such Schedule of Values shall not be unbalanced and will be subject to approval by the Engineer and will be used to compute progress payments for lump sum bid item work. The Contractor shall provide proof of costs to justify the submitted Schedule of Values if requested by the Engineer.

4. Where Contract change orders are issued increasing or decreasing the scope of the work and cost the Contractor shall prepare revisions to the Schedule of Values, where necessary, for approval by the Engineer. The revised Schedule of Values will be used for subsequent progress payments.

B. Unit Price Bid Items:

1. Items of work listed in the Bid Schedule that are Unit Price bid items shall be measured for payment as set forth under the description of each relative bid item.

2. All measurements for payment purposes shall be made by the Engineer unless noted otherwise by the Engineer.

C. Waiver Certificate
1. CALIFORNIA LIEN WAIVER AND RELEASE UPON PROGRESS PAYMENT  
a. The Contractor shall submit a Conditional Waiver and Release on Progress Payment form with each progress payment request.

2. CALIFORNIA LIEN WAIVER AND RELEASE UPON FINAL PAYMENT  
a. The Contractor shall submit a Conditional Waiver and Release on Final Payment form with final payment request.

1.03 DESCRIPTION OF BID ITEMS

The Bid Schedule bid items are presented to indicate major categories of the work for purposes of comparative bid analysis, payment, breakdown for monthly progress payments, and final payment to the Contractor under the Contract. The Bid Schedule is not intended to be exclusive descriptions of work categories and the Contractor shall determine and include in its pricing all materials, labor, equipment, and operations necessary to complete each bid item of work, as shown and specified, and all costs of compliance with all applicable regulations of public agencies having jurisdiction, including, but not limited to, the health and safety requirements of the California Division of Industrial Safety and the Occupational Safety and Health Administration of the U.S. Department of Labor (OSHA).

PART 2 – PRODUCTS - NOT USED

PART 3 – EXECUTION - NOT USED

PART 4 - MEASUREMENT AND PAYMENT

A. Full compensation for complying with the provisions of this section shall be considered as included in the contract price for the various bid items, and no separate payment will be made.
6 CONTROL OF MATERIALS

PART 1 - GENERAL

1.01 SUMMARY

A. The section includes: Requirements for installation, maintenance, and removal of temporary utilities, facilities, controls, construction signs, traffic control, and construction aids during construction.

1.02 TEMPORARY UTILITIES

A. General: The Contractor shall provide all necessary temporary utilities required during construction, including all necessary temporary meters, equipment, wiring, piping, fixtures, and connections. The Contractor shall remove the same when they are no longer necessary and at the completion of the Project.

1.03 CONSTRUCTION FACILITIES

A. Contractor’s Field Office: At the Contractor’s option, the Contractor may provide and maintain a temporary job office on the site for the Contractor's use. The location of the office shall not interfere with the Work nor with traffic on public roadways.

B. Temporary Storage for Tools, Materials, and Equipment: It is the Contractor’s responsibility to provide temporary storage sheds or other enclosed temporary structures as required or as deemed necessary by the Contractor to protect material and equipment stored on site. The Contractor shall remove the same when they are no longer necessary and at the completion of Work.

C. Temporary Sanitary Facilities: It is the Contractor’s responsibility to provide and maintain adequate toilets, washing facilities, and drinking facilities for workers. Such items shall comply with all governing health and sanitation requirements. The Contractor shall remove the same at the completion of the Work.

1.04 TRAFFIC CONTROL, TEMPORARY BARRIERS AND ENCLOSURES

A. General Protection: Provide all temporary barricades, fences, caution signs, and warning lights as required for the safety of persons. Operate warning lights during hours from dusk to dawn each day. Take whatever care is necessary to avoid damage to adjacent buildings and property, public rights-of-way, and facilities or utilities to remain, whether on the Work site or adjacent to it, and be liable for any damage thereto or interruption of service due to Contractor's operations.

B. Temporary Fences and Barricades: Provide and maintain all temporary site fences, tree protection fencing, and barricades as required for the Work, and remove the same upon the completion of the Work.

C. Prior to start of work the Contractor shall submit Traffic Control Plans for all project phases for the Engineer’s review and approval. Plans shall include all necessary measures to control public traffic and construction traffic entering, exiting, and traveling adjacent to the Work site.
D. No road closure is allowed at any time.
E. Contractor shall keep access to all private properties at all time.

1.05 SITE MAINTENANCE
A. Cleaning During Construction:
   1. Control accumulation of waste materials and rubbish; periodically dispose of legally off-site.
   2. Clean interior areas prior to start of finish work, maintain areas free of dust and other contaminants during finishing operations.

1.06 PROJECT IDENTIFICATION
A. Project Signs: Provide a project job sign, maximum 30 square feet in size, of wood painted with lettering by a professional sign painter. The content of the sign will be as determined by the County. Obtain approval for location of the sign from the County before installing. Remove the sign on completion of the Work and dispose of legally off the site. Allow no other signs to be displayed.

1.07 REMOVAL
A. Remove temporary facilities, fencing, materials, equipment, services, and construction prior to Substantial Completion inspection.
B. Clean and repair damage caused by installation or use of temporary facilities. Remove temporary underground lines and installations; grade site as indicated on the Plans. Restore existing facilities used during construction to the original condition when first installed unless specified otherwise by the Engineer.

PART 2 - PRODUCTS
2.01 MATERIALS
A. Temporary materials and equipment may be new or used, but shall be adequate in capacity for the required usage, shall not create unsafe conditions, and shall not violate requirements of applicable codes and standards.
B. Hazardous or Flammable Chemicals: Use and store hazardous or flammable chemical liquids or gases brought into the Project site in acceptable containers conforming to requirements of OSHA. Use such materials in a manner that will prevent their accidental release into other areas. Do not discard such materials on the jobsite. Remove empty containers from the Work sites immediately and dispose of in the proper manner.

PART 3 – EXECUTION - NOT USED

PART 4 - MEASUREMENT AND PAYMENT

Full compensation for complying with the provisions of this section shall be considered as included in the contract price for the various bid items, and no separate payment will be made.
7 CONSTRUCTION SURVEYING

PART I - GENERAL

1.01 DESCRIPTION

A. This section describes the lines, grades, and survey control to be established and maintained by the Contractor, and also describes the survey requirements to be performed by the Contractor.

B. The Contractor shall furnish all labor, equipment, and materials necessary to provide construction surveying and staking for the project as shown on the contract documents.

C. All surveying shall be done by, or under the direction of, a land surveyor licensed in the State of California.

D. It is the Contractor’s responsibility to verify the accuracy of all survey controls and stakes set in the field. Provide immediate notification of apparent errors in the initial staking or in the furnished data.

E. Preserve all initial reference and control points. After beginning construction replace all destroyed or disturbed initial reference or control points necessary to the work.

F. Before surveying or staking discuss and coordinate with the Engineer.

G. Include staking activities in the construction schedule submitted. Include the dates and sequence of each staking activity.

H. The County, at its discretion, may perform random survey verification for the project. The Contractor shall give the County 48 hours notice prior to setting controls and stakes in the field. Once controls and stakes are set in the field the Contractor shall give the County 48 hours notice to perform survey verification.

I. The County’s survey verification of the project shall not relieve the Contractor of the responsibility for the proper execution of the Work in accordance with all requirements of the contract documents. Compliance is a duty of the Contractor and shall not be avoided by acts or omissions by the County.

1.02 STAKING OUT OF WORK

A. Lines and Grades: The Contractor is responsible for providing all staking and surveying needed to achieve all lines, grades and dimensions shown on Plans. Stakes and markers shall be provided as necessary to control the work and assure construction in conformance with the contract documents and as otherwise directed by the Engineer. The Contractor shall anticipate the site conditions (e.g. wetlands, vandalism etc.) when developing its approach to maintaining construction staking.

B. Equipment and Personnel: The Contractor’s instruments and other survey equipment shall be accurate, suitable for the surveys required in accordance with recognized professional standards, and in proper condition and adjustment at all times. Surveys shall be performed under the direct supervision of a land surveyor licensed in the State of California.
C. The Contractor shall use established survey benchmark data as shown on the Plans to layout the Work.

D. Use by Owner: The County may use line and grade points and markers established by the Contractor. The Contractor’s surveys are a part of the Work and may be checked by the County. The Contractor shall be responsible for any lines, grades, or measurements which do not comply with specified or proper tolerances, or which are otherwise defective, and for any resultant defects in the work. The Contractor will be required to conduct resurveys or check surveys to correct errors indicated by review of the field notebooks.

E. Surveys for Layout and Performance: The Contractor shall perform all surveys for layout and performance of the work, shall reduce the field notes, and make all calculations and drawings necessary to carry out such work.

F. When the specifications or the Engineer requires Bid Schedule items of work to be measured by surveying methods, the Contractor shall perform the surveys. All such surveys, including control surveys for establishing the measurement reference lines, shall be performed in the presence of the County. The County may independently reduce the field notes and calculate quantities to verify the Contractor’s payment request. The County reserves the right to conduct an independent survey to determine quantities. The cost of the independent survey will be at the County’s expense.

1.03 GENERAL SURVEY REQUIREMENTS

A. The following requirements apply to surveys performed by the Contractor.

1. Licensed Surveyor: All surveys, computations and supporting drawings shall be prepared at the Contractor’s expense by a Licensed Surveyor in the State of California.

2. For survey transects, elevations shall be taken at breaks in slope and at intervals not greater than ten (10) feet. Elevations shall extend at least ten (10) feet beyond the limits of earthwork (excavation and fill). Surveyed grade points shall be converted to elevations relative to NAVD 88 and shall be provided to the nearest one-tenth (1/10) of a foot. Survey transects shall be taken at locations that are representative of existing grade.

3. Survey sections shall be taken at the minimum intervals as stated below. The interval between sections may be reduced if, through surveys, earthwork is consistently found to be out of compliance with design requirements.

4. Subsequent surveys shall re-occupy the same lines so the surveys and quantities can be compared.

PART 2 – PRODUCTS - NOT USED

PART 3 – EXECUTION

3.01 CONSTRUCTION SURVEYING AND STAKING REQUIREMENTS
A. Perform all survey, staking, recording of data, and calculations as necessary to construct the project from the initial layout to final completion. Reset stakes as many times as necessary to construct the work.

B. Before surveying or staking, discuss and coordinate the following with the Engineer:
   1. Surveying and staking methods.
   2. Stake marking.
   3. Grade control for courses of material.
   4. Referencing.
   5. Structure control.
   6. Any other procedures and controls necessary for the work.

C. Perform all surveying, staking, and recording of data essential for establishing the layout and control of the following, as applicable:
   1. Roadway alignment, profile and superelevations.
   2. Curb and dike.
   4. Signs, delineators, object markers, and pavement markings.
   5. Limits of grading and excavations.
   6. Grade beams and piles.
   7. Slope.
   8. Storm drain culverts, miscellaneous drainage facilities and ditches.
   9. Other features and limits of work to control and complete the Work.

D. Control work for construction staking: The Construction Surveyor shall set horizontal and vertical control points to complete the construction staking. Prior to any construction staking, existing survey monuments and pipes shown on the plans shall be surveyed to verify the distances and basis of bearings shown.
   1. Survey and establish controls within the tolerances shown in Table 1 in these Special Provisions.
   2. Prepare field notes in an approved format. Furnish all survey notes at least weekly. All field notes and supporting documentation become the property of the County upon completion of the work.
   3. Start work only after staking for the affected work is accepted.
   4. The construction survey and staking work may be spot-checked for accuracy, and unacceptable portions of work may be rejected. Resurvey rejected work and correct work that is not within the tolerances specified in Table 1.
5. Acceptance of the construction staking does not relieve the Contractor of responsibility for correcting errors discovered during the work and for bearing all additional costs associated with the error.

6. Remove and dispose of all flagging, lath, stakes, and other staking material after the project is complete.

E. Control points. Relocate initial horizontal and vertical control points in conflict with construction to areas that will not be disturbed by construction operations. Furnish the coordinates and elevations for the relocated points before the initial points are disturbed.

F. Clearing and Grubbing Stakes. Clearing and grubbing stakes will be set prior to the beginning of construction work. The boundary of the area(s) to be cleared and grubbed shall be staked or flagged at a maximum interval of 200 feet, closer if needed, to clearly mark the limits of work. Set clearing and grubbing limits on both sides of centerline at roadway cross-section locations.

G. Rough Grade Stakes. Cuts and fills will be given to the nearest tenth (0.1) of a foot. Horizontal location will be given to the nearest tenth (0.10) of a foot.

1. Slope Stakes. Slope stakes will be set at five (5) foot offsets to the toe-of-slope, at angle points, and at midpoints when the horizontal distance exceeds sixty (60) feet. The cut or fill, and the horizontal distance to hinge point, will be given for each slope.

2. Daylight Stakes. Where design grade intersects natural grade and does not constitute a slope, a daylight stake will be set at approximately fifty (50) foot intervals.

3. Grade beams. Stakes for grade beams will be set five (5) feet from the face of wall, on approximately twenty-five (25) foot intervals unless otherwise specified by the Engineer. The stakes will be marked with an offset and a cut or fill to the design top of wall grade.

4. Curbs. Rough grade stakes for curbs will be set three (3) feet from the face of curb; ten (10) feet in areas with sidewalk, on approximately fifty (50) foot intervals on straight sections, twenty-five (25) foot intervals on curves and at grade breaks. Stakes will be marked with a cut or fill to the top of curb.

H. Finish Grade Stakes. Cuts or fills will be given to the nearest hundredth (0.01) of a foot. Set grade finishing stakes, for grade elevations and horizontal alignment, on centerline and on each shoulder at roadway cross-section locations. Set stakes at the top of subgrade and the top of each aggregate course. Set stakes in all ditches to be paved. The maximum longitudinal spacing between stakes is twenty-five (25) feet when the centerline curve radius is less than or equal to five hundred (500) feet. When the centerline curve radius is greater than five hundred (500) feet, the maximum longitudinal spacing between stakes is fifty (50) feet. The maximum transverse spacing between stakes is twenty (20) feet. Use brushes or guard stakes at each stake.

1. Roadway cross-sections. Take roadway cross-sections normal to centerline. When the centerline curve radius is less than or equal to 500 feet, take cross-sections at a maximum centerline spacing of 25 feet. When the centerline curve radius is greater than 500 feet, take cross-sections at a maximum centerline spacing of 50 feet. Take additional cross-sections at significant breaks in topography and at changes in the typical section. Along
each cross-section, measure and record points at breaks in topography, but no further apart than 20 feet. Measure and record points to at least the anticipated slope stake and reference locations. Reduce all cross-section distances to horizontal distances from centerline.

2. Centerline reestablishment. Reestablish centerline from instrument control points. The maximum spacing between centerline points is 25 feet when the centerline curve radius is less than or equal to 500 feet. When the centerline curve radius is greater than 500 feet, the maximum distance between centerline points is 50 feet.

3. Grade beams. Survey and record profile measurements along the face of the proposed wall and five (5) feet in front of the wall face. Every 25 feet along the length of the wall and at all major breaks in terrain take cross-sections within the limits shown on the plans. For each cross-section, measure and record points every 25 feet and at all major breaks in terrain. Set adequate references and horizontal and vertical control points.

4. Culverts. Stake culverts to fit field conditions. The location of culverts may differ from the Plans. Perform the following:
   a. Survey and record the ground profile along the culvert centerline.
   b. Determine the slope catch points at the inlet and outlet.
   c. Set reference points and record information necessary to determine culvert length and end treatments.
   d. Plot-to-scale the profile along the culvert centerline. Show the natural ground, the flow line, the roadway section, and the culvert including end treatments and other appurtenances. Show elevations, grade, culvert length, and degree of elbow.
   e. Submit the plotted field-design cross-section for approval of final culvert length and alignment.
   f. When the field design has been approved, set drainage structure survey stakes, reference stakes, and stake inlet and outlet ditches to make the structure functional.
   g. Stake or grade ditches to make the culvert functional.

5. Slope stakes and references. Set slope stakes and references on both sides of centerline at the cross-section locations. Establish slope stakes in the field as the actual point of intersection of the design roadway slope with the natural ground line. Set slope stake references outside the clearing limits. Include all reference point and slope stake information on the reference stakes. When initial references are provided, slope stakes may be set from these points with verification of the slope stake location with field measurements. Re-catch slope stakes on any section that does not match the staking report within the tolerances established in Table 1. Take roadway cross section data between centerline and the new slope stake location. Set additional references even when initial references are provided.

6. Permanent monuments and markers. Perform all survey and staking necessary to establish permanent monuments and markers.
I. Miscellaneous Items.
   1. Curb Slashes. Curb cut slashes will be set on the top-of-curb, on the prolongation of the side property lines.

J. Construction Survey and Staking Tolerances:

<table>

1. At 95% confidence level. Tolerances are relative to existing Government network control points.
2. M is the distance in miles.
3. N is the number of instrument setups.
4. Centerline points: PC - Point of Curve, PT - Point of Tangent, POT - Point on Tangent, POC - Point on Curve.
5. Take the cross-sections normal to the centerline ±1 degree.
6. Bridge control is established as a local network and the tolerances are relative to that network.
7. Includes paved ditches.

PART 4 - MEASUREMENT AND PAYMENT

Full compensation for complying with the provisions of this section shall be considered as included in the contract price for the various bid items, and no separate payment will be made.
PART 1 - GENERAL

1.01 SUMMARY

A. This section includes: Closeout procedures, final submittals, final cleaning and adjusting, project record documents, submittal of operation and maintenance data, and warranties and bonds.

1.02 SUBSTANTIAL COMPLETION

A. Substantial Completion means completion of all work in the contract documents, except maintenance of erosion control best management practices (BMPs) throughout the maintenance period.

B. Preliminary Procedures: Before requesting inspection for determining date of Substantial Completion, complete the following. List items below that are incomplete in request.

   1. Prepare a list of items to be completed and corrected (punch list), the value of items on the list, and reasons why the Work is not complete.

   2. Advise County of pending insurance changeover requirements.

   3. Submit specific warranties, workmanship bonds, maintenance service agreements, final certifications, and similar documents.

   4. Obtain and submit releases permitting the County unrestricted use of the Work and access to services and utilities. Include occupancy permits, operating certificates, and similar releases.

   5. Prepare and submit Project Record Documents, damage or settlement surveys, property surveys, and similar final record information.

   6. Terminate and remove temporary facilities from Work site, along with mockups, construction tools, and similar elements.

   7. Complete final cleaning requirements, including touchup painting.

   8. Restore disturbed areas including staging areas and access routes within and to the site.

C. Inspection: Submit a written request for inspection for Substantial Completion. On receipt of request, the Engineer will either proceed with inspection or notify the Contractor of unfulfilled requirements. The Engineer will prepare the Certificate of Substantial Completion after inspection or will notify the Contractor of items, either on the Contractor’s list or additional items identified by the Engineer that must be completed or corrected before the certificate will be issued.

   1. Re-inspection: Request re-inspection when the work identified in previous inspections as incomplete is completed or corrected.

   2. Results of completed inspection will form the basis of requirements for Final Completion.
1.03  FINAL COMPLETION

A. Preliminary Procedures: Before requesting final inspection for determining date of Final Completion, the Contractor shall complete the following:

1. Submit a final Application for Payment according to Section 5 – Measurement and Payment Procedures.

2. Submit certified copy of the Engineer’s Substantial Completion inspection list of items to be completed or corrected (punch list), endorsed and dated by the Engineer. The certified copy of the list shall state that each item has been completed or otherwise resolved for acceptance.

3. Instruct County personnel in operation, adjustment, and maintenance of products, equipment, and systems. Provide services of skilled and competent supervisory personnel to instruct County personnel in the operation and maintenance of all operating equipment and systems provided as part of the Contract.

B. Inspection: Submit a written request for final inspection for acceptance. On receipt of request, the Engineer will either proceed with inspection or notify the Contractor of unfulfilled requirements. The Engineer will prepare a final Certificate for Payment after inspection or will notify the Contractor of construction that must be completed or corrected before the certificate will be issued.

1. Re-inspection: Request re-inspection when the work identified in previous inspections as incomplete, is completed or corrected.

1.04  LIST OF INCOMPLETE ITEMS (PUNCH LIST)

A. Preparation: Submit three copies of list. Include name and identification of each space and area affected by construction operations for incomplete items and items needing correction including, if necessary, areas disturbed by the Contractor that are outside the limits of construction.

1. Organize items applying to each work area.

2. Include the following information at the top of each page:
   a. Project name.
   b. Date.
   c. Name of the Engineer.
   d. Name of the Contractor.
   e. Page number.

1.05  PROJECT RECORD DOCUMENTS

A. Maintain on the site one set of the following Record Documents to record actual revisions to the Work.

1. Plans.
2. Specifications.
3. Addenda.
4. Change Orders and other Modifications to the Contract.
5. Reviewed shop drawings and product data.

B. Store Record Documents separate from documents used for construction. Record information concurrent with construction progress.

C. Record Drawings: Do not permanently conceal any work until required information has been recorded. Legibly mark each item to record actual construction including:
   1. Measured elevations of all improvements.
   2. Measured horizontal and vertical locations of all improvements including but not necessarily limited to: grade beams, guard rails, pedestrian railing, ditches, and drains and drainage systems.
   3. Field changes of dimension and detail.
   4. Details not on original Plans.
   5. Deviations from sizes, locations, and other changes to installation as shown on the contract documents.
   6. Established locations of underground work, points of connection with existing utilities, changes in direction of underground lines, locations of valves, manholes, etc.
   7. Locations of all items not concealed that the Contractor elects to alter or modify from the contract documents contingent upon the approval of the Engineer for the alteration or modification.

D. Specifications: Legibly mark and record at each Product section a description of actual Products installed, including the following:
   1. Manufacturer's name and product model and number.
   2. Product substitutions or alternates utilized.
   3. Changes made by Addenda and Modifications with corresponding Addenda or Modification number.

E. Submit all Record Documents to the Engineer with claim for Substantial Completion inspection. Submit documents with a transmittal letter containing date, Project title, the Contractor’s name and address, list of documents, and signature of the Contractor.

F. The Engineer will return Contract Drawings and Record Documents to the Contractor. The Contractor shall transfer all as-built information onto a set of reproducible prints for the County’s use.

G. The County will not make Final Payment to the Contractor until the Record Documents are provided by the Contractor.
1.06 WARRANTIES AND BONDS

A. Provide duplicate notarized copies. Execute and assemble documents from the Contractor’s submittals and documents executed by subcontractors, suppliers, and manufacturers. Provide table of contents and assemble in a D three ring binder(s) with durable plastic cover. Submit three (3) sets.

B. Submit warranties and bonds prior to final Application for Payment.
   1. For equipment put into use with the County’s permission during construction, submit within ten (10) days after first operation.
   2. On request of the County, for designated portions of the Work, submit within ten (10) days of commencement of warranty.
   3. For items of Work delayed beyond date of Substantial Completion, provide updated submittal within ten (10) days after acceptance, listing date of acceptance as start of warranty period.

C. The General Conditions of the Contract Documents cover the Contractor’s responsibility to remedy defects due to faulty workmanship and materials which appear within one (1) year from the Date of Acceptance. Warranties for more than one (1) year, where indicated in the various sections of the contract documents, shall be in the form of a warranty written on the letterhead of the Contractor, subcontractor, or supplier doing the work or supplying the item to be warranted, as follows:

WARRANTY FOR THE 3435 Redwood Road Slide Abatement, RDS 21-33

We hereby warrant that the______________________________ which we have installed in NAPA COUNTY, CALIFORNIA for NAPA COUNTY, has been done in accordance with the Drawings and Specifications, and that the work, as installed, will fulfill the requirements of the warranty included in the Specifications. We agree to repair or replace any or all of our work, together with any other and adjacent work which may be displaced by so doing, that may prove to be defective in its workmanship or material within a period of ___ years from the Date of Acceptance of the above named Project, without any expenses whatsoever to the Owner, ordinary wear and tear and unusual abuse or neglect excepted.

In the event of our failure to comply with the above-mentioned conditions within a reasonable time, but in no event longer than thirty (30) days after being notified in writing by the Owner, we, collectively or separately, do hereby authorize the Owner to proceed to have said defects repaired and made good at our expense, and we will honor and pay the costs and charges therefore upon demand.

Signed

Subcontractor/Supplier                Date

Countersigned

Contractor                Date
PART 2 – PRODUCTS

2.01 MATERIALS

A. Cleaning Agents and Equipment: As recommended by the manufacturer or fabricator of the surface to be cleaned.

1. Do not use cleaning agents that are potentially hazardous to health or property or that might damage finished surfaces.

PART 3 - EXECUTION

3.01 FINAL CLEANING

A. General: Provide final cleaning. Conduct cleaning and waste-removal operations to comply with local laws and ordinances and Federal and local environmental and antipollution regulations.

B. Complete the following cleaning operations before requesting inspection for certification of Substantial Completion for the Work or for a portion of Work:

1. Clean Project site, yard, and grounds, in areas disturbed by construction activities, including landscape development areas, of rubbish, waste material, litter, and other foreign substances.

2. Sweep paved areas broom clean. Remove petrochemical spills, stains, and other foreign deposits.

3. Pave all access roads to and within the site that are materially damaged from pre-project conditions.

4. Remove tools, construction equipment, machinery, and surplus material from Project site.

C. Comply with safety standards for cleaning. Do not burn waste materials. Do not bury debris or excess materials on the County and private property. Do not discharge volatile, harmful, or dangerous materials into drainage systems. Remove waste materials from Work site and dispose of lawfully.

D. Remove tools, surplus materials, equipment, temporary buildings, sheds, and construction facilities from the site.

PART 4 - MEASUREMENT AND PAYMENT

A. Full compensation for complying with the provisions of this section shall be considered as included in the contract price for the various bid items, and no separate payment will be made.
9 COORDINATION OF WORK

PART I - GENERAL

1.01 DESCRIPTION

A. The Contractor shall coordinate work with work to be performed by others, which may include, but may not be limited to:

1. Utility coordination.

2. Environmental survey and monitoring.

3. Quality Assurance: Survey Verification, QSD Inspections, Geotechnical Observations, Special Inspections, Material Testing, etc.

4. All other coordination that arises during the duration of the project.

PART 2 – PRODUCTS - NOT USED

PART 3 – EXECUTION - NOT USED

PART 4 – MEASUREMENT AND PAYMENT

A. Full compensation for complying with the provisions of this section shall be considered as included in the contract price for the various bid items, and no separate payment will be made.
10 MOBILIZATION

PART 1 - GENERAL

1.01 DESCRIPTION

A. Mobilization shall conform to Section 9-1.16C “Mobilization” of the Standard Specifications and these Special Provisions.

B. Any paving work is expected to occur during favorable weather conditions.

C. Mobilization shall consist of the following work:
   1. Bonds and Insurance.
   2. Mobilization of materials and equipment to the site.
   3. Provide all temporary facilities and construction utilities.
   4. Obtaining any necessary permits
   5. Coordination and any other items required to complete the construction not otherwise measured and paid for.
   6. Demobilization of all of materials and equipment from the site.
   7. On-going and final site clean-up.

PART 2 – PRODUCTS – NOT USED

PART 3 – EXECUTION

3.01 MOBILIZATION AND DEMOBILIZATION

A. The Contractor shall inspect the site to observe actual field conditions prior to bidding the project.

B. Mobilization shall also include finish work and operations, (demobilization) including, but not limited to, removal of personnel, equipment, supplies and incidentals from the project site and clean-up of the project site. The Contractor shall not demobilize equipment from the site until the project is accepted as complete, unless directed otherwise in writing by the Engineer.

C. Mobilization shall also include preparation of all necessary permits, submittals, notifications and other documentation necessary for the performance of the work.

3.02 PERMITS AND REGULATIONS

A. The Contractor shall obtain a Construction General Permit.

B. The Contractor shall obtain all other permits required for the performance of the work.

C. The Contractor shall comply with all dust control requirements in Section 14-9.03, "Dust Control," of the Standard Specifications and comply with Bay Area Air Quality Management District (BAAQMD) guidelines.

D. The contractor shall comply with County’s and Regional Water Quality Control Boards Erosion and Sediment Control Best Management Practices (BMP)
E. Cultural and Prehistoric Resources - The Contractor shall (1) suspend work in the area and (2) notify the Engineer immediately, if evidence of any of the following are items encountered during performance of the Work:

1. Archaeological artifacts
2. Fossils
3. Human remains

3.03 PROTECTION OF EXISTING PROPERTY AND CONDITIONS

A. Protection of Work and Property:

1. Confine the storage of materials and workmen’s operations to the limits established on the Contract Documents and by law, permits, and/or directions of the Engineer. Do not unreasonably encumber the premises with materials.
2. Contractor is responsible for the protection and preservation of all materials and equipment located on the construction site.
3. Provide watchman services as may be deemed necessary to safeguard properly all materials, tools, appliances, and work. The County will not assume any responsibility for the loss of or damage to materials, tools, appliances, or work arising from acts of theft, vandalism, malicious mischief, or other causes which may occur during or after working hours.
4. Contractor shall promptly comply with all reasonable requests of the Engineer to protect the site.
5. Repair or replace all work performed or materials, supplies, or equipment furnished which may be damaged or lost by any cause, to the satisfaction of the Engineer.

B. Contractor shall be responsible for all damage to all roads, existing vegetation, existing buildings, utilities and other property and improvements resulting from the contractor’s use and shall repair all damage resulting from such use to the satisfaction of the Engineer and at no cost to County.

C. Contractor’s Staging Area: Store construction materials and equipment within boundaries of designated staging and storage areas approved by the Engineer.

D. Tree and Plant Protection:

1. Do not store materials or equipment, or operate or park equipment under the branches of any existing plant to remain except as actually required for construction in those areas.
2. Provide barricades, fences, or other barriers as necessary at the drip line to protect existing plants and trees from damage during construction.
3. Notify Engineer where Contractor feels grading or other construction called for by Contract Documents may damage existing plants/trees to remain.
4. If existing plants to remain are damaged during construction, Contractor shall replace such plants with others of the same species and size as those damaged or as directed by Engineer, at no cost to the County.

3.04 EXISTING UTILITIES
A. The Contractor shall identify, locate, and protect all existing utilities within the limits of work, including onsite and offsite access routes.

B. The location of existing utilities and underground facilities known to the County are shown in their approximate location based on information available at the time of preparing the Contract Documents. The actual location, size, type and number of utilities and underground facilities may differ from that shown, and utilities or underground facilities present may be present that are not shown.

C. Obtain from the respective agencies the best available current information on location, identification and marking of existing utilities, piping and conduits and other underground facilities before beginning any excavation. Call Underground Service Alert at 800-642-2444 for information at least 48 hours in advance of beginning work.

D. The Contractor will have to coordinate location, connection points for construction power, water, communication etc., with respective utility.

3.05 WORK HOURS
A. Construction activities shall be limited to the hours between 7:00 a.m. and 5:00 p.m. Monday through Friday unless otherwise authorized. Work shall not occur on weekends or holidays, except during emergency conditions, and at the Engineer’s approval.

3.06 ACCESS TO THE PROJECT SITE
A. Access to the site is over public roads. Exercise care in the use of such roads and repair any damage to the satisfaction of the County or agency having jurisdiction over the road.

B. Under no circumstances shall the Contractor use any other private roads that are not designated for access.

C. Do not track mud onto private or public roads. The Contractor shall employ a street sweeper as needed to keep all paved surfaces free of tracked mud or dirt.

PART 4 - MEASUREMENT AND PAYMENT

The contract lump sum price paid under “Mobilization” shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in mobilization/demobilization as specified herein and conforming to the provisions of this section and no additional compensation will be allowed therefore.
PART 1 - GENERAL

1.01 SUMMARY OF WORK

A. This section includes specifications for all Temporary Traffic Control required for the project and shall include and not be limited to: temporary traffic signal and lighting system, construction area signs, changeable message signs, flagging, placing and installing temporary traffic-handling equipment and devices, maintaining traffic, placing and installing temporary traffic control systems, and placing temporary pavement delineation.

B. Temporary Traffic Control shall conform to Section 12, “Temporary Traffic Control” of the Standard Specifications and these Special Provisions. Temporary Traffic Control must also comply with Part 6, "Temporary Traffic Control," of the California MUTCD.

C. The Contractor shall inspect the site to observe actual field conditions prior to bidding the project.

D. The Contractor shall furnish all labor, materials, and equipment necessary to complete the work as shown on the Plans and to maintain the temporary traffic control and signal system in full time operation for the duration of the construction work requiring single lane traffic control, as specified in these Special Provisions of the Specifications, and in strict accordance with the conditions of the Contract. All incidental work not shown on the Plans or specified herein which is necessary to complete the work necessary to provide and maintain the system described, or shown, shall be furnished and installed as part of this contract at no additional cost.

E. The Temporary Traffic Control System for lane closures is for closing traffic lanes with stationary lane closures on 2-lane, 2-way highways. The traffic control system for a lane closure must comply with, Section 12, "Temporary Traffic Control" of the Standard Specifications and these Special Provisions.

F. Type III Barricade shall conform to Section 12-3.02, “Barricades” of the Standard Specifications and these Special Provisions.

G. Construction Area Signs shall conform to Section 12-3.06, “Construction Area Signs” of the Standard Specifications and these Special Provisions.

H. Temporary Pavement Delineations shall conform Section 84-3, "Painted Traffic Stripes and Pavement Markings” of the Standard Specifications and these Special Provisions and shall include but not be limited to: Traffic Stripe (Tape), Temporary Pavement Marker (Tape), Channelizer (Surface Mounted), etc.

I. Temporary Railing (Type K) shall conform to Section 12-3.08, "Type K Temporary Railing" of the Standard Specifications.

J. Temporary Crash Cushion Module shall conform shall conform to Section 12-3.15, "Temporary Crash Cushion Module” of the Standard Specifications and these Special Provisions.
1.02 SUBMITTALS

A. The traffic control plan shall be submitted for approval at the preconstruction meeting.

1.03 WARRANTIES, GUARANTEES, AND INSTRUCTION SHEETS

A. The Contractor shall be responsible for all work and materials and/or equipment installed under these Plans and Specifications.

B. The Contractor shall repair or replace at his/her expense, any defective work, material, or equipment that may become evident during the operation of the temporary traffic signal system.

C. If any part (or parts) of the temporary traffic signal system fails while the temporary single lane traffic control system is in operation, the Contractor shall provide flaggers until such time as the temporary traffic signal system is operations.

PART 2 – PRODUCTS

2.01 MATERIALS

A. Temporary Traffic Signal System shall conform to these Special Provisions.

B. Type III Barricade shall conform to Section 12-3.02B, “Materials” of the Standard Specifications.

C. Construction Area Signs shall conform to Section 12-3.06B, “Materials” of the Standard Specifications.

D. Temporary Pavement Delineations shall conform to these Special Provisions. Painted traffic stripes used for temporary delineation must comply with Section 84-3, "Painted Traffic Stripes and Pavement Markings" of the Standard Specifications and these Special Provisions.

1. Temporary Centerline Delineation - Temporary pavement markers must be the same color as the centerline markers being replaced. Temporary pavement markers must be one of the temporary pavement markers on the Authorized Material List for short-term day or night use, 14 days or less, or long-term day or night use, 180 days or less.

2. Temporary Edge Line Delineation - Temporary, removable, construction-grade striping and pavement marking tape must be one of the types on the Authorized Material List. Apply temporary, removable, construction-grade striping and pavement marking tape under the manufacturer's instructions.
E. Temporary Railing (Type K) shall conform to Section 12-3.08B, "Materials" of the Standard Specifications.

F. Temporary Crash Cushion Module shall conform to Section 12-3.15B “Materials” of the Standard Specifications.

G. Two (2) Portable Changeable Message Signs shall be provided for the project. Signage shall be posted in both directions.

PART 3 – EXECUTION

3.01 INTERRUPTION OF EXISTING UTILITIES

A. The Contractor shall not cause any utility interruption, temporary relocation, or other modifications as needed to install or remove any traffic signal equipment. If applicable, plan and coordinate any utility interruption with the utility provider and the Engineer.

3.02 REGULATIONS AND CODE

A. All work and materials shall conform to the latest codes, rules and regulations of the following:
   1. State codes and ordinances
   2. Local City and/or County ordinances
   3. National Electrical Code
   4. Uniform Building Code

B. Nothing in these Specifications is to be construed to permit work not conforming to the above; expense for compliance with the above shall be paid for by the Contractor. Whenever the Plans and Specifications require higher standards or larger sizes than those required by the Ordinances and Statutes, the Plans and Specifications shall take priority.

C. The Contractor shall have Special Dispensation from the California Occupational Safety and Health Administration to conduct operations no closer than six (6) feet, but within ten (10) feet, of a high voltage line prior to any work in these areas.

3.03 MAINTAINING TEMPORARY TRAFFIC CONTROL SYSTEM

A. Whenever components of the traffic control system are displaced or cease to operate or function as specified from any cause, immediately repair the components to the original condition or replace the components and restore the components to the original location.

B. For a stationary lane closure made only for the work period, remove the components of the traffic control system from the traveled way and shoulder, except for portable delineators
placed along open trenches or excavation adjacent to the traveled way at the end of each work period.

C. The Contractor may store the components at selected central locations designated by the Engineer with the limits of the roadway.

3.04 TEMPORARY PAVEMENT DELINEATIONS

A. Painted traffic stripes used for temporary delineation must comply with Section 84-3, "Painted Traffic Stripes and Pavement Markings" of the Standard Specifications and these Special Provisions. The scope of work shall include: placing, applying, maintaining, and removing temporary pavement delineation.

B. Whenever work activities obliterate pavement delineation, place temporary or permanent pavement delineation before opening the traveled way to traffic. Place centerline pavement delineation for traveled ways open to traffic.

C. Establish the alignment for temporary pavement delineation, including required lines or markers. Surfaces to receive an application of paint or removable traffic tape must be dry and free of dirt and loose material. Do not apply temporary pavement delineation over existing pavement delineation or other temporary pavement delineation. Maintain temporary pavement delineation until it is superseded or you replace it with a new striping detail of temporary pavement delineation or permanent pavement delineation.

D. Place temporary pavement delineation on or adjacent to lanes open to traffic for a maximum of 14 days. Before the end of the 14 days, place the permanent pavement delineation. If the permanent pavement delineation is not placed within the 14 days, replace the temporary pavement markers with additional temporary pavement delineation equivalent to the striping detail specified for the permanent pavement delineation for the area. The Department does not pay for the additional temporary pavement delineation.

E. When the Engineer determines the temporary pavement delineation is no longer required for the direction of traffic, remove the markers, underlying adhesive, and removable traffic tape from the final layer of surfacing and from the existing pavement to remain in place. Remove temporary pavement delineation that conflicts with any subsequent or new traffic pattern for the area.

F. Temporary Lane Line and Centerline Delineation

1. Whenever lane lines or centerlines are obliterated, the minimum lane line and centerline delineation must consist of temporary pavement markers placed longitudinally at intervals not exceeding 24 feet. The temporary pavement markers must be temporary pavement markers on the Authorized Material List for short-term day or night use, 14 days or less, or long-term day or night use, 180 days or less. Place temporary pavement markers under the manufacturer’s instructions. Cement the markers to the surfacing with the adhesive recommended by the manufacturer, except do not use epoxy adhesive to place pavement markers in areas where removal of the markers will be required.
2. For temporary lane line or centerline delineation consisting entirely of temporary pavement markers, place the markers longitudinally at intervals not exceeding 24 feet.
G. Temporary Edge Line Delineation

1. Whenever edge lines are obliterated on multilane roadways, freeways, and expressways, place edge line delineation for that area adjacent to lanes open to traffic consisting of one (1) solid, 4-inch wide traffic stripe tape of the same color as the stripe being replaced, two (2) traffic cones, three (3) portable delineators or channelizers placed longitudinally at intervals not exceeding 100 feet. You may apply temporary painted traffic stripe where removal of the 4-inch wide traffic stripe will not be required.

2. The Engineer determines the lateral offset for traffic cones, portable delineators, and channelizers used for temporary edge line delineation. If traffic cones or portable delineators are used for temporary pavement delineation for edge lines, maintain the cones or delineators during hours of the day when the cones or delineators are being used for temporary edge line delineation.

3. Channelizers used for temporary edge line delineation must be an orange surface-mounted type. Cement channelizer bases to the pavement as specified in Section 85 for cementing pavement markers to pavement except do not use epoxy adhesive to place channelizers on the top layer of the pavement. Channelizers must be one of the 36-inch, surface-mounted types on the Authorized Material List.

4. Remove the temporary edge line delineation when the Engineer determines it is no longer required for the direction of traffic.

3.05 TEMPORARY RAILING (TYPE K)

A. Temporary Railing (Type K) shall conform to Section 12-3.08C, "Construction" of the Standard Specifications

B. 3.06 TEMPORARY CRASH CUSHION MODULE

A. Temporary Crash Cushion Module shall conform to Section 12-3.15C “Construction” of the Standard Specifications.

3.07 CONSTRUCTION AREA SIGNS

B. Construction Area Signs shall conform to Section 12-3.06C, “Construction” of the Standard Specifications.

**PART 4 – MEASUREMENT AND PAYMENT**

The contract lump sum price for “Traffic Control” shall include full compensation for furnishing all labor, materials, tools, equipment, changeable message signs, and incidentals and for performing all the work involved as shown on the plans and as specified in these Special Provisions, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.
13 WATER POLLUTION CONTROL

PART 1 – GENERAL

1.01 DESCRIPTION
   A. These Special Provisions replace Section 13, "Water Pollution Control" of the Standard Specifications.
   B. This section describes the following work:
      1. Implementation of the Best Management Practices and Erosion Control Plan
      2. Implementation of sediment and erosion control measures (1) during construction and (2) upon completion of construction.

1.02 PERMITS - Reserved

1.03 DEFINITIONS
   A. Construction Period: Between the dates of Notice to Proceed and Substantial Completion of the Work.
   B. Maintenance Period: Between the date of Substantial Completion and three (3) months from substantial completion.
   C. Seeding: Application of seed by hydraulically applied methods. Used interchangeably with Hydro-mulching.

1.04 STORM WATER POLLUTION AND EROSION CONTROL PLAN
   A. The Contractor shall select and implement additional BMPs that are appropriate for the site and the Contractor’s actual methods of construction, access, and project phasing. The BMPs included in the Erosion Control Plan shall be selected in conformance with the SWRCB BMPs Construction Practice Handbook and the Napa County Grading Ordinance Chapter 16.28, Storm Water Management and Discharge Control.
   B. The Contractor’s erosion and sediment control measures shall comply with the newest SWRCB Construction Storm Water Program:

1.05 NPDES GENERAL PERMIT COMPLIANCE - Not Required.

1.06 SEDIMENT AND EROSION CONTROL
   A. The Contractor shall install and maintain erosion and sediment control measures as needed to mitigate the potential for sediment migration away from the work area and other open waters. The Contractor shall modify and enhance these measures to meet permitting requirements and/or as needed to mitigate sediment migration at no additional expense to the County.
B. Comply with specific measures for sediment and erosion control as required for compliance and as directed by the Engineer.

1.07 NON-STORM WATER CONTROL

A. The Contractor shall designate one (1) fueling and wash area within the staging areas. The Contractor shall only perform fueling, maintenance and emergency repair of vehicles and equipment within the designated fueling area or offsite.

B. The designated fueling and wash area shall be constructed to provide containment of any spills and to prevent any waste from contacting and penetrating the ground by use of methods such as berms and/or liners. The Contractor shall submit details of its fueling and wash area for Engineers approval.

C. Inspect all equipment for leaks immediately prior to the start of construction, and regularly thereafter until equipment is removed from the site. Equipment repair (other than emergency repairs) shall be performed offsite.

D. Any hazardous materials and/or hazardous substances that the Contractor deems necessary for performance of the work shall be stored, used and contained within the fueling and wash area. Dispose of all contaminated water, sludge, spill residue, or other hazardous compounds offsite at a lawfully permitted or authorized facility.

E. Clean up any accidental leaks or spills immediately and remove any contaminated soils or other materials offsite. Dispose offsite in accordance with all applicable laws. Contractor shall maintain onsite spill kits for emergency cleanup throughout the life of the project.

F. Immediately notify the Engineer in the event of any spill or release of any chemical in any physical form in the site during construction.

G. In case of any accidental spill, upon the Contractor’s removal and cleanup of the designated fueling area, the Contractor will sample and analyze underlying soil for petroleum hydrocarbons and/or other chemical constituents as appropriate to determine if any contamination has occurred. The Contractor shall submit test results to the Engineer. The Contractor shall be solely responsible for all costs incurred in removing any contamination caused by its activities. This includes, but is not limited to, contamination caused by accidental spills or leaks, wheel tracking, water runoff, water run on, and erosion.

1.08 SUBMITTALS

A. Attention is directed to all of the provisions of Section 21, “Erosion Control,” of the Standard Specifications and these Special Provisions.

1.09 QUALITY ASSURANCE

A. Contractor Qualifications: The Contractor shall demonstrate to the satisfaction of the Engineer that it is a qualified landscape Contractor with a valid California C-27 license and a minimum of five (5) years of experience whose work has resulted in successful establishment of native grass cover in disturbed wild land settings.

B. Attention is directed to all of the provisions of Section 21, “Erosion Control,” of the Standard Specifications and these Special Provisions.
1.10 DELIVERY, HANDLING AND STORAGE

A. Attention is directed to all of the provisions of Section 21, “Erosion Control,” of the Standard Specifications and these Special Provisions.

B. All commercially processed or packaged materials shall be delivered to the site in sealed bags or containers clearly marked to identify the item or materials.

C. The Contractor shall provide a storage yard with appropriate temporary security fencing at the staging area(s) shown on the contract documents or as designated by the Engineer, in which to secure and store equipment and associated construction materials used in this work.

D. Fabric Materials:
   1. Each roll of fabric material shall be wrapped with a material covering that will protect them from damage due to shipment, direct sunlight and storage.
   2. Handling of the materials on site shall utilize manufacturer-approved methods, such as forklifts, cables and slings. Materials shall be kept clean and free from damage prior to installation. Fabric materials shall be protected from direct sunlight, ultra-violet rays, and temperatures greater than 140 degrees Fahrenheit, mud, dirt, dust and debris during shipment and storage. To the extent possible, the fabric shall be maintained wrapped in a heavy duty protective coating.

1.11 WARRANTY

A. All work shall be done by an experienced contractor familiar with California native grasses and their horticulture and industry methods and standards for grass seeding. The Contractor shall employ modern equipment and state of the art methods and techniques. The Contractor shall have a minimum of five (5) years of applicable on the job experience with native grass seeding and weed control during native grassland establishment periods.

PART 2 - PRODUCTS

2.01 BEST MANAGEMENT PRACTICES (BMPs)

A. The following is a list of products for typical BMPs that the Contractor shall employ throughout the site for erosion and sediment control:
   1. Silt Fence: Woven filter fabric, UV resistant silt fence. Wooden or steel posts three (3) feet high minimum (does not include embedment).
   2. Straw/coir Fiber roll: 100% Biodegradable 10-inch minimum diameter straw or coir/straw fiber roll. North American Green Sediment STOP, or approved equivalent.
   3. Check dams shall be installed as directed by the Engineer.
   4. Attention is directed to all of the provisions of Section 21, “Erosion Control,” of the Standard Specifications and these Special Provisions.
2.02 SEED
A. Attention is directed to all of the provisions of Section 21, “Erosion Control,” of the Standard Specifications and these Special Provisions.

2.03 INOCULANTS
A. Attention is directed to all of the provisions of Section 21, “Erosion Control,” of the Standard Specifications and these Special Provisions.

2.04 HYDRAULIC WOOD/STRAW FIBER MULCH
A. Attention is directed to all of the provisions of Section 21, “Erosion Control,” of the Standard Specifications and these Special Provisions.

2.05 ORGANIC TACKIFIER
A. Attention is directed to all of the provisions of Section 21, “Erosion Control,” of the Standard Specifications and these Special Provisions.

2.06 WATER
A. Attention is directed to all of the provisions of Section 21, “Erosion Control,” of the Standard Specifications and these Special Provisions.

PART 3 – EXECUTION

3.01 GENERAL REQUIREMENTS
A. At a minimum, the Contractor shall install and maintain temporary erosion and sediment control measures in accordance with the Erosion Control Plan and manufacturer’s recommendations, as shown on the Plans and as required by these Special Provisions. In case of a conflict, the more rigorous installation requirements, as determined by the Engineer, shall apply.

B. Implement additional measures as needed to control erosion from exposed soil surfaces and to reduce sediment runoff from the project site. These measures shall be implemented and maintained throughout the construction and maintenance periods.

C. During the construction period, the Contractor shall maintain onsite sufficient quantities of erosion and sediment control materials to be installed in the event that rain is forecast, and for rapid response to failures or emergencies. The Contractor shall consult the local weather forecast daily.

D. If rain is forecast during construction, the Contractor shall, at a minimum, secure all soil stockpiles by covering and/or installing a perimeter silt barrier.

E. All temporary erosion control measures shown on the Plans and additional measures deemed necessary for the maintenance period shall be installed at the time of substantial completion.

3.02 COIR/STRAW FIBER ROLLS
F. Coir/straw fiber rolls shall be installed in accordance with manufacturer’s recommendations and as shown on the Plans.
G. Coir/straw fiber rolls shall be installed on all areas disturbed during construction, spaced as shown on the Plans, or closer, if needed for adequate erosion control. Risk level 2 projects require that linear sediment controls such as fiber rolls be installed at the toe of slope, face of slope and at grade breaks to comply with sheet flow lengths at a no more than 20-feet apart on slopes less than 25%.

H. Install all coir/straw fiber rolls subsequent to completion of fine grading in an area, and in all cases by October 15. Maintain coir/straw fiber rolls throughout the maintenance period. Following each rain event inspect coir fiber rolls, and replace anchoring stakes and/or coir fiber rolls as needed.

I. Install coir fiber roll in accordance with manufacturer’s recommendations and the following requirements:

1. Embed the fiber roll a minimum of four (4) inches below grade. Install fiber rolls by excavating a four (4) inch deep by ten (10) inch wide trench, placing the fiber roll into the trench, and backfilling with soil or gravel, as needed for proper anchoring.

2. Stake the fiber roll at three (3) feet on center. Install additional stakes as needed to completely anchor the coir fiber roll.

3. Align coir fiber roll installations along elevation contours.

4. Turn last ten (10) feet of fiber roll at right angles in the upslope direction (in an “L” shape), to allow for capture and dispersion of surface runoff.

3.03 SILT FENCE

A. Silt Fences shall be used and installed as necessary during the project construction period as a temporary measure for sediment and erosion control.

B. At a minimum, install silt fences to enclose soil stockpiles if rain is forecast and at the active channel bank (wet edge) throughout floodplain grading operations.

C. Silt fence placement and removal shall be coordinated and approved by the Engineer.

D. Install silt fence in accordance with manufacturer’s recommendations.

3.04 CHECK DAMS

A. 150 linear feet of check dams shall be installed after construction and as directed by the Engineer.

3.05 JUTE MAT

A. Jute mat shall be installed after construction in accordance with manufacturer’s recommendations and as shown on the Plans.

3.06 MAINTENANCE

A. The Contractor shall regularly inspect, maintain and repair temporary erosion control measures throughout construction and the maintenance period. Inspect all temporary erosion control measures when rain is forecast, and immediately following rainfall events. Inspect graded areas after storm events.
B. Following each event, remove accumulated sediment, repair any damage and install any additional measures as needed. Follow all monitoring and reporting requirements per Section 14, “Environmental Protection” of these Special Provisions.

3.07 CLEANUP

A. Upon completion of the maintenance period, remove all materials, and dispose of properly at approved offsite facility. Regrade and restore natural drainage patterns at locations of disturbance and smooth grades and replace erosion control BMPs.

PART 4 MEASUREMENT AND PAYMENT

A. The contract lump sum price paid for “Prepare and Implement Water Pollution Control Program” shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in this section as specified in this Special Provisions, as shown on the plans and as directed by the Engineer and no additional compensation will be allowed.

B. The contract unit prices for square feet of “Rolled Erosion Control Product (Netting)” and “Hydroseed” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidental and for performing all the work involved as shown on the plans and as specified in these Technical Specifications, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.

C. The contract unit price each of “Temporary Drainage Inlet Protection” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidental and for performing all the work involved as shown on the plans and as specified in these Technical Specifications, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.

D. The contract unit price for linear feet of “Rolled Erosion Control Product (Netting)” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidental and for performing all the work involved as shown on the plans and as specified in these Technical Specifications, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.
14 ENVIRONMENTAL STEWARDSHIP

PART 1 - GENERAL

1.01 DESCRIPTION

A. This Technical Specifications replaces Section 14, “Environmental Stewardship” of the Standard Specifications

B. This section describes environmental protection measures to be applied throughout the duration of the Work, including the following:
   1. Dust Control
   2. Noise Control
   3. Wildlife Protection
   4. Cultural and Prehistoric Resources

C. General Requirements: Provide protection, operate temporary facilities, and conduct construction in ways and by methods that comply with environmental regulations and that minimize possible air, waterway, and ground contamination or pollution.

D. Work Windows
   1. Ground-disturbing activities may not occur during rain.

1.02 PERMITS

A. Environmental document obtained for this project include specific requirements for sediment, erosion, water and pollution control, and wildlife protection which shall be adhered to at all times. See Section 10, “Mobilization” for permits obtained by the County, if any.

1.03 DUST CONTROL

A. During the performance of all Work under the contract documents, the Contractor shall employ conscientious and effective means of dust control. The Contractor shall assume responsibility for all damages, delays, government-imposed penalties or fines, and claims that result from the Contractor’s dust control practices. Comply with Bay Area Air Quality Control District (BAAQCD) published guidelines.

B. Dust control activities will primarily be associated with soil excavation, backfill and compaction, hauling and transport loading operations; however, the Contractor’s responsibility for dust control shall cover all the Contractor’s operations and shall be continuous (even outside of business hours) throughout the duration of the Work.

C. At a minimum, the Contractor shall control dust using the following methods:
   1. Limit vehicle speeds to 10 miles per hour (mph) on unpaved roads.
   2. Water all active construction areas and access routes at least three (3) times daily during dry and dusty conditions.
   3. Water exposed soil surfaces, soil stockpiles, or other dust generation sites, at the frequency necessary to prohibit dust generation.
4. Provide watering equipment capable of applying water to the point of dust generation.
5. Use the minimum practicable drop heights during transport vehicle loading.
6. Wash all equipment prior to delivery to the site, periodically during construction, and prior to leaving the Work site.
7. To the extent practicable, equipment shall be selected and operated in a manner that minimizes dust generation. All equipment shall be checked by a certified visible emissions evaluator.
8. Maintain equipment engines in good condition and properly tuned (in accordance with manufacturer’s specifications).
9. All haul trucks transporting soil, sand, or other loose material off-site shall be covered.
10. All visible mud or dirt track-out onto adjacent public roads shall be removed using wet power vacuum street sweepers at least once per day. The use of dry power sweeping is prohibited.

D. Excessive Watering: Except as required by the Engineer, the Contractor shall not employ dust control methods that result in ponded water, erosion, or an increase of the water content of excavated soil by more than one (1) percent above the water content that existed when excavated.

E. Post a publicly visible sign with the telephone number and person to contact at the lead agency regarding dust complaints. This person shall respond and take corrective action within 48 hours. The Air District’s phone number shall also be visible to ensure compliance with applicable regulations.

1.04 NOISE CONTROL

A. Comply with local noise ordinances. Avoid using tools and equipment that produce harmful noise. Restrict use of noisemaking tools and equipment to hours that will minimize complaints from residences or businesses located near the Work site. See Section B of these Special Provisions for work hours.

B. Internal combustion engines shall be equipped with a muffler of a type recommended by the manufacturer. Equipment and trucks used for construction shall utilize the best available noise control techniques (e.g. engine enclosures, acoustically-attenuating shields or shrouds, intake silencers, ducts, etc.).

C. Idling times shall be minimized either by shutting equipment off when not in use or reducing the maximum idling time to five (5) minutes (as required by the California airborne toxics control measure Title 13, Section 2485 of the CCR). Signage shall be provided for construction workers at all access points.

D. Construction workers shall be cautioned on published risks associated with not using ear protection when around heavy equipment operations.

E. Stationary noise sources and staging areas shall be located as far from sensitive receptors as possible. Dewatering pumps and generators, if required to operate during the nighttime, will be placed so that the estimated noise level at the nearest residential receptor does not exceed 60 dBA. This can be achieved by locating the pump and generator at least 725 feet from the nearest receptor or incorporation of mufflers and noise barriers to reduce the noise levels.
F. Signs shall be posted at the construction site that include and describe permitted construction days and hours and a day and evening contact number for the job site. A complaint and enforcement manager shall be appointed to respond to and to track noise complaints.

1.05 WILDLIFE PROTECTION

A. Install orange construction fencing and signage designating construction limits. Restrict equipment and personnel access to environmental sensitive areas.

B. Disturbance or removal of vegetation outside of the designated construction area is not allowed.

C. The County’s Biological Monitor (Biologist) will perform pre-construction surveys, inspection of construction limits and the locations of the environmental sensitive area fence, and provide environmental training, and monitoring and wildlife relocation if required as summarized in the table below.

D. Environmental Sensitive Area fence will be implemented and adjusted per the Biologist recommendations throughout the project.

E. The Contractor shall cooperate with the Biologist throughout construction and provide adequate notification to the County’s Representative to allow sufficient time for required activities.

F. Contractor and Sub-Contractor shall participate in environmental training by the Biologist and sign training log.

1.06 MINIMUM WILDLIFE PROTECTION MEASURES

A. At a minimum, the Contractor shall comply with the following measures for wildlife protection:

1. Trash and waste material must be properly disposed of in trash receptacles that prevent the access or trapping of native animals. These containers shall be available and used at all times.

2. Trash shall be removed from the site daily.

3. All equipment such as buckets, and open holes, trenches or items that may potentially trap sensitive animals must be covered by the end of each workday. (If this is not possible, one or more escape ramps constructed of earth fill or wooden planks will be established in the hole at an angle no greater than 30 degrees).

4. Thoroughly inspect all holes or trenches for animals before filling. If at any time, wildlife is discovered trapped in a trench or pit, halt work and notify the County’s representative immediately.

5. Storage of any pipes measuring four (4) inches or greater in diameter at the site will be avoided, or the ends of any such pipes will be sealed with tape as they are brought to the site. Visually check all sections of construction materials for the presence of wildlife sheltering within them prior to the pipe sections being placed and attached together, or shall have the ends capped while stored on site so as to prevent wildlife from entering. After attachment of the pipe sections to one another, whether installed or not, the exposed end(s) of the pipeline shall be capped at the end of each day during construction to prevent wildlife from entering and being trapped within the pipeline.
6. Allow any wildlife encountered during the course of construction to leave the construction area unharmed. All reasonable efforts shall be made to capture and move all stranded aquatic life observed in the removed material.

7. No cats or dogs or firearms (except for federal, state, or local law enforcement officers or security personnel) will be permitted onsite to avoid harassment, killing, or injuring of protected wildlife.

8. Erosion control fabric with plastic netting may not be used.

9. Lighting of the project site by artificial lighting during night time hours should be minimized to the maximum extent practicable.

1.07 CULTURAL AND PREHISTORIC RESOURCES

A. The Contractor shall (1) suspend work in the area and (2) notify the Engineer immediately, if evidence of any of the following are items encountered during performance of the Work:

1. Archaeological artifacts
2. Fossils
3. Human remains

PART 2 – PRODUCTS – NOT USED

PART 3 – EXECUTION – NOT USED

PART 4 - MEASUREMENT AND PAYMENT

Full compensation for complying with the provisions of this section shall be considered as included in the contract price for the various bid items, and no separate payment will be made.
15 EXISTING FACILITIES

PART 1 - GENERAL

1.01 GENERAL

A. Attention is directed to Section 15, "Existing Facilities," of the Standard Specifications.

B. The Contractor shall call USA at (800) 227-2600 to mark the locations of all underground utilities at least forty-eight (48) hours before the intended start of excavation. The Contractor shall remove all project USA markings, Engineer markings, and Survey markings, prior to project completion.

PART 2 – PRODUCTS – NOT USED

PART 3 – EXECUTION – NOT USED

PART 4 - MEASUREMENT AND PAYMENT

Full compensation for complying with the provisions of this section shall be considered as included in the contract price for the various bid items, and no separate payment will be made.
16 TEMPORARY FACILITIES

PART 1 – GENERAL

1.01 SUMMARY

1.02 CONSTRUCTION FACILITIES

A. Contractor’s Field Office: At the Contractor’s option, the Contractor may provide and maintain a temporary job office on the site for the Contractor’s use. The location of the office shall not interfere with the Work nor with traffic on public roadways.

B. Temporary Storage for Tools, Materials, and Equipment: It is the Contractor’s responsibility to provide temporary storage sheds or other enclosed temporary structures as required or as deemed necessary by the Contractor to protect material and equipment stored on-site. The Contractor shall remove the tools, materials, and equipment when they are no longer necessary and at the completion of Work.

C. Temporary Sanitary Facilities: It is the Contractor’s responsibility to provide and maintain adequate toilets, washing facilities, and drinking facilities for workers. Such items shall comply with all governing health and sanitary requirements. The Contractor shall remove the facilities at the completion of Work.

1.03 TRAFFIC CONTROL, TEMPORARY BARRIERS, AND ENCLOSURES

A. General Protection: Provide all temporary barricades, fences, caution signs, and warning lights as required for the safety of persons. Operate warning lights during hours from dusk to dawn each day. Take whatever care is necessary to avoid damage to adjacent buildings, property, public rights-of-way, and facilities or utilities to remain, whether on the Work site or adjacent to it, as Contractor is liable for any damage thereto or interruption of service due to Contractor’s operations.

B. Temporary Fences and Barricades: Provide and maintain all temporary site fences, tree protection fencing, and barricades as required for the Work, and remove upon completion of Work.

C. Prior to the start of Work, the Contractor shall submit Traffic Control Plans for all project phases for the Engineer’s review and approval. Plans shall include all necessary measures to control public traffic and construction traffic entering, exiting, and travelling adjacent to the Work site.

D. No road closure is allowed at any time.
E. Contractor shall keep access to all private properties at all times.

1.04 SITE MAINTENANCE

A. Cleaning During Construction:
   1. Control accumulation of waste materials and rubbish; periodically dispose of legally off-site.
   2. Clean interior areas prior to start of finish Work. Maintain areas free of dust and other contaminants during finishing operations.

1.05 REMOVAL

A. Remove temporary facilities, fencing, materials, equipment, services, and construction prior to Substantial Completion inspection.

B. Clean and repair damage caused by installation or use of temporary facilities. Remove temporary underground lines and installations. Grade site as indication on Plans. Restore existing facilities used during construction to the original condition when first installed, unless specified otherwise by the Engineer.

PART 2 - PRODUCTS

2.01 MATERIALS

A. Temporary materials and equipment may be new or used, but shall be adequate in capacity for the required usage, shall not create unsafe conditions, and shall not violate requirements of applicable codes and standards.

B. Hazardous or Flammable Chemicals: Use and store hazardous or flammable chemical liquids or gases brought into the Project site in acceptable containers conforming to the requirements of OSHA. Use such materials in a manner that will prevent their accidental release into other areas. Do not discard such materials on the jobsite. Remove empty containers from the Work sites immediately and dispose of in the proper manner.

PART 3 – EXECUTION – NOT USED

PART 4 MEASUREMENT AND PAYMENT

Full compensation for Temporary Facilities shall be considered as being included in the cost of the contract items for which it is related and no additional compensation will be allowed.
PART 1 - GENERAL

1.01 SUMMARY OF WORK

A. Clearing and Grubbing shall conform to the provisions in Section 17-2, "Clearing and Grubbing", of the latest version of the Standard Specifications and these Special Provisions.

B. The Work includes the following:
   1. Removal of debris and minor demolition within the limits of Work.
   2. Specific non-native vegetation removal practices within the project area.
   3. Select trimming of tree limbs as needed.
   4. Legal disposal of removed vegetation and debris off-site.

C. The Contractor shall protect all native trees and all other native vegetation not slated for demolition. Prior to commencing construction, the Contractor shall install temporary fencing, flagging, or equivalent around the perimeter of all vegetated areas and/or individual trees to be preserved, including dead trees (i.e. “snags”), and any other on-site improvements. Prior to commencing Work, the Contractor shall review all tree and other protection fencing with the Engineer and field adjust the limits as directed by the Engineer.

D. The Contractor shall remove debris including timber, rock, concrete, rubble, trash, and other items which may exist within the limits of Work for this contract. Rocks and boulders may be reused in the Work as directed by the Engineer. The Contractor shall verify potential for reuse of these materials with the Engineer and prior to off-haul and disposal activities.

E. Unless shown to be removed or altered, existing improvements and facilities, utilities, adjacent property, trees, and plants are not to be removed and shall be protected from injury or damage.

PART 2 – PRODUCTS – NOT USED

PART 3 – EXECUTION

3.01 CONSTRUCTION

A. Work shall conform to Section 17-2, “Clearing and Grubbing” of the Standard Specifications and these Special Provisions.

3.02 CLEARING AND GRUBBING

A. Limit clearing to grading limits shown on plans and surrounding areas needed for access.

B. Areas shall be cleared and grubbed by removing obstructions, trees, shrubs, grass, and other vegetation.
C. All existing vegetation, outside the areas to be cleared and grubbed, shall be protected from the Contractor’s operations unless specifically shown on the Plans to be removed.

D. Nothing herein shall be construed as relieving the Contractor of his/her responsibility for final cleanup.

3.03 MINOR DEMOLITION AND DEBRIS REMOVAL

A. Remove any man-made structures to prevent interference with the work outlined within these specifications. Any demolition of unidentified structures by the Contractor not visible and accounted for during the initial bid walk shall be negotiated as extra work, subject to authorization by the Engineer.

B. Remove incidental debris encountered during vegetation removal and segregate and dispose of debris off-site. Vegetative matter is not debris. Any debris removal that meets any one of the following criteria shall be negotiated as extra work, subject to authorization by the Engineer.

1. Debris that requires special equipment for removal.

2. Hazardous debris that requires special off-site disposal per the County’s direction.

C. Except for materials indicated to remain as the Owner’s property, removed vegetation, debris, and other materials are the Contractor’s property. Remove materials from site and dispose of in a legal manner.

PART 4 MEASUREMENT AND PAYMENT

The contract lump sum price paid for “Clearing and Grubbing and Sweeping” shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in this Section, Section 37 “Bituminous Seals”, and as specified in these Special Provisions and as directed by the Engineer and no additional compensation will be allowed.
PART 1 - GENERAL

1.01 GENERAL

A. Attention is directed to Section 19, "Earthwork," of the Standard Specifications.

B. The artificial fill to be excavated is not suitable for backfill and shall be off-hauled and disposed of as a responsibility of the contractor.

PART 2 – PRODUCTS

2.01 MATERIALS

A. Soils generated from undocumented fill removals at the site are not considered suitable for reuse as engineered fill. Soils generated from cuts in native residual soils or formational materials may be reused as fill provided they do not contain deleterious matter, organic material, or cementations larger than 6 inches in maximum dimension.

B. Import fill material should be primarily granular, be free of organic material and construction debris, and not contain rock larger than 6 inches in greatest dimension. Import materials should also meet the following criteria.

<table>
<thead>
<tr>
<th>SHEAR STRENGTH CRITERIA FOR IMPORT FILL MATERIALS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unit Weight</td>
</tr>
<tr>
<td>-------------</td>
</tr>
<tr>
<td>130 pcf</td>
</tr>
</tbody>
</table>

C. Structure Backfill shall meet the requirements of 19-3 Structure Excavation and Backfill of the Standard Specifications.

PART 3 – EXECUTION

1.01 CONSTRUCTION

A. Excavation shall occur to the point where all artificial fills is removed within the area of the grading limits, or to the grade line shown on the plans, whichever is greater.

PART 4 - MEASUREMENT AND PAYMENT

A. The contract unit price for cubic yard of “Excavation” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for performing all the work involved (including off-haul and disposal) as shown on the Plans and as specified in these Technical Specifications, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.
B. The contract unit price for cubic yard of “Embankment” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for performing all the work involved (including acquisition of fill material, placement and compaction) as shown on the Plans and as specified in these Technical Specifications, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.
62 DRAINAGE FACILITIES

PART 1 – GENERAL

1.01 GENERAL

A. The drainage inlet, pipe and appurtenances shall conform to Division VII “Drainage Facilities” of the Standard Specifications.

PART 2 - PRODUCTS

2.01 DESCRIPTION

A. Corrugated galvanized steel pipe shall conform to section 66-1.02 of the standard specifications.
B. Drainage Inlet (Type G1) shall conform the Caltrans Standard Plans.

PART 3 – EXECUTION

3.01 CONSTRUCTION

A. Construction shall conform to section 61 of the standard specifications.

PART 4 - MEASUREMENT AND PAYMENT

A. The contract unit price of each for “Drainage Inlet (Type G1)” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for performing all the work involved as shown on the Plans and as specified in these Technical Specifications, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.
B. The contract unit price for linear feet of “18” Corrugated Metal Pipe” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for performing all the work involved as shown on the Plans and as specified in these Technical Specifications, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.
C. The contract unit price for linear feet of “18” Tee Dissipater” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for performing all the work involved as shown on the Plans and as specified in these Technical Specifications, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.
72 SLOPE PROTECTION

PART 1 – GENERAL

1.01 GENERAL

A. Work shall conform to Section 72-2, “Rock Slope Protection” of the Standard Specifications and these Special Provisions.

PART 2 - PRODUCTS

2.02 DESCRIPTION

A. Rock slope protection shall be Class II, Method B.

B. The rock slope protection fabric shall be class 8.

PART 3 – EXECUTION

5.01 CONSTRUCTION

A. Construct RSP to limits shown on plans.

PART 4 - MEASUREMENT AND PAYMENT

A. The contract unit price for cubic yard of “Rock Slope Protection (Class II, Method B)” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for performing all the work involved as shown on the Plans and as specified in these Technical Specifications, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.

B. The contract unit price for square yard of “Rock Slope Protection Fabric (Class 8)” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for performing all the work involved as shown on the Plans and as specified in these Technical Specifications, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.
79 GABION WALL

PART 1 – GENERAL

1.02 GENERAL

B. The gabion design, manufacturing and placement shall be in accordance with Section 72-16 “Gabions” of the Standard Specifications Caltrans Standard Plans D100A and D100B.

C. The wall design shall be prepared and stamped by a licensed civil engineer in the state of California.

D. Submit wall shop drawings and calculations for review and approval prior to fabrication.

PART 2 - PRODUCTS

2.03 DESIGN

A. The gabion wall shall be designed to meet the following parameters and requirements:

C. Structure must fit entirely within the County right of way.

D. 2H:1V maximum backfill behind the wall.

E. Equivalent fluid pressure of 55 pcf (this value is reflective of the anticipated sloped backfill condition) distributed as triangular loading.

F. Passive resistance of 350 pcf (neglect the upper 1’ of soil).

G. Foundation soils: Internal angle of friction = 35 degrees; coefficient of friction on soil = 0.7

H. Active earth pressure coefficient, Ka = 0.42

I. Seismic increment resultant force = 30H2 (applied at 0.37 to 0.4H measured from the bottom of the wall). This value should be added to the active earth pressure.

J. Kh = 0.22

K. Maximum bearing pressure = 3,000 psf

L. Refer to “Geotechnical Investigation for 3435 Redwood Road Slope Repair, Napa County, California” prepared by Geocon Consultants, Inc., dated April 2022 for more information.

PART 3 – EXECUTION

7.01 CONSTRUCTION

A. The gabion wall shall be constructed per manufacturers specifications and instructions.

PART 4 - MEASUREMENT AND PAYMENT

The contract unit price for cubic yard of “12’ Gabion Wall” shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for performing all the work involved (including engineering, fabrication and construction) as shown on the Plans and as specified in these Technical Specifications, the Standard Specifications, and as directed by the Engineer and no additional compensation will be allowed.
ATTACHMENT ‘A’ – SUBMITTAL LIST

THE REQUIRED SUBMITTALS FOR THE PROJECT SHALL INCLUDE, BUT MAY NOT BE LIMITED TO, THE FOLLOWING:

1. PROJECT SCHEDULE (at Pre-con)
2. EMERGENCY CONTACT LIST (at Pre-con)
3. TRAFFIC CONTROL PLAN (at Pre-con)
4. SCHEDULE OF VALUE FOR LUMP SUM ITEMS (at Pre-con)
5. SCHEDULE OF SUBMITTALS (at Pre-con)
6. UPDATED SUBMITTAL LIST AND PROGRESS SCHEDULE (at Progress Meetings)
7. BEST MANAGEMENT PRACTICE PLAN
8. MATERIAL INFORMATION FOR EROSION CONTROL
9. EMBANKMENT
10. GABION WALL ENGINEERING AND MATERIALS
11. DRAINAGE INLET
12. DRAINAGE PIPE AND TEE
13. ROCK SLOPE PROTECTION AND FABRIC
14. WARRANTIES
15. RECORD DRAWINGS
Dear Mr. Ryan:

In accordance with your request, we have prepared this correspondence to summarize recent site observations and present recommendations for site winterization measures for the subject slope failure in Napa County. We visited the site with you on September 3, 2021 to observe current site conditions and evaluate site logistics for our upcoming geotechnical investigation that will be performed to provide recommendations for permanent slope repair. Previous site observations and related opinions and geotechnical recommendations were presented in our referenced August 2019 correspondence.

Our August 2019 correspondence identified an area of ongoing movement immediately north of the scarp that remains from the previous slope failure. Based on our recent observations, that area of ongoing movement appears particularly susceptible to a slope failure in kind to that which occurred in February 2019. Further, slope failure in this area would likely result in the deposition of slide mass and debris on Redwood Road, which would be an obvious safety hazard to motorists. Permanent repair of the slope will not occur until spring 2022 at the earliest but the following winterization measures may be considered to reduce the potential for additional failure and impacts to Redwood Road. Per your request, a preliminary cost estimate for the implementation of winterization measures is attached.

Surface Drainage

Surface drainage deficiency was identified as a primary contributing cause of the 2019 slope failure and the lack of proper drainage remains. Surface drainage apparently directs run-off toward the slope that descends to Redwood Road. Measures to redirect surface runoff away from the top slope should be considered e.g. swales and ditches to intercept surface runoff behind the top of slope and redirect to a suitable location where runoff does not flow onto the slope.

Erosion Protection

The scarp from the 2019 slope failure and the area immediately to the north are susceptible to significant erosion due to the lack of vegetation and/or the surface drainage issues cited above. Erosion control devices may be considered to mitigate the potential for erosion and consequent transport of soil and debris downslope to Redwood Road. Typical emergency erosion control for slide areas consists of visqueen sheets secured
with a system of sandbags and rope. We understand Napa County Public Works commonly utilizes such systems on other slope failures.

Preemptive Removals

The area to the north of the previous slide is actively moving and heavy with vegetation. Based on a review of site conditions and discussions with the County, we anticipate the permanent repair concept will include removal of the slide mass and debris in this area. Consideration may be given to removing portions of slide now, rather than potentially doing the same as a necessary emergency response measure. Removing slide mass and debris would reduce the forces driving ongoing slope movement.

LIMITATIONS AND CLOSURE

Our professional services were performed, our findings obtained, and our recommendations prepared in accordance with generally accepted engineering principles and practices used currently in the region. We make no warranty, express or implied. The information presented herein is based on information provided by Napa County and conditions observed during our site visits on February 28 and March 7, 2019 and September 3, 2021. Changes in site conditions should be observed by our representatives; updated recommendations and/or opinions may be provided.

Please contact the undersigned with any questions or if we may be of further service.

Sincerely,

[Signature]

Shane Rodacker, GE
Senior Engineer

**Assumptions:**
1. Work performed by Napa Co. DPW
2. Debris can be hauled and dumped at a Napa County site within two miles of 3435 Redwood Road
3. Labor effort for debris removal assumes two laborers and a dozer at dump site plus two laborers at 3435 Redwood Road
4. Assumed work schedule of two days for debris removal and another two days for surface drainage and EP installation
