NAPA COUNTY BOARD OF SUPERVISORS

NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION

NOTICE IS HEREBY GIVEN THAT THE BOARD OF SUPERVISORS OF THE COUNTY OF NAPA, at 1195 Third Street, Suite 305, Napa, California, is considering adoption of a Mitigated Negative Declaration for the project identified below.

CAMPBELL CREEK CULVERT REPLACEMENT PROJECT

Napa County is proposing to replace the existing Dry Creek Road Culvert at the mouth of Campbell Creek that conveys the water in Campbell Creek beneath Dry Creek Road into Dry Creek along the south edge of the paved roadway. The culvert is undersized for flood stage flows and is a barrier to fish passage. The Campbell Creek Culvert Replacement is a proposal by Napa County to replace the existing culvert, an 85-foot-long, 72-inch-diameter corrugated metal pipe, with a bottomless arch bridge precast culvert. In addition to replacement of the culvert, the proposed project would improve the hydrologic function of Campbell Creek at the culvert's outlet and along approximately 160 linear feet of creek upstream of the culvert's inlet by resolving channel incision and reconnecting the creek to its historical floodplain. The existing culvert is approximately 100 feet from the intersection of Dry Creek Road and Oakville Grade Road and immediately east of the Lokoya Fire Station at 5900 Dry Creek Road. The total footprint of the area where project activity would take place, inclusive of the work area along Campbell Creek as well as the areas identified for equipment staging and storage, is approximately 0.449 acre (19,558 square feet). The project includes a revegetation plan, proposing to replant new vegetation including native trees, shrubs, herbs and seed mixes.

CEQA STATUS: Mitigated Negative Declaration Prepared. According to the proposed Mitigated Negative Declaration, the proposed project would have potentially significant environmental impacts on Air Quality, Biological Resources, Cultural Resources, Hazards and Hazardous Materials, Hydrology and Water Quality, and Wildfire, if mitigation measures are not included. This project site is not on any of the lists of hazardous waste sites enumerated under CA Government Code Section 65962.5.

The proposed Mitigated Negative Declaration is available for inspection, along with copies of all documents that relate to the above described project, between the hours of 8:00 AM. and 4:30 PM Monday through Friday, at the office of the Napa County Planning, Building, & Environmental Services and Public Works Departments, 1195 Third Street, Second Floor, Napa, California. Scheduling appointments to review documents is encouraged. Project materials are also available for review at: www.countyofnapa.org/3428/Campbell-Creek-Fish-Passage-RDS-22-01.

Written comments regarding the environmental effects of this project, the adequacy of the measures identified, and the adequacy of the proposed Mitigated Negative Declaration are solicited. Comments must be presented during the public review period, which runs from, **December 10, 2022** through, **January 10, 2023**. Comments should be directed to Frank Lucido, Engineering Manager, or Dana Morrison, Planner III, Napa County Department of Planning, Building and Environmental Services, 1195

Third Street, Suite 210, Napa, California or via email at frank.lucido@countyofnapa.org or dana.morrison@countyofnapa.org and must be received before 4:45 p.m. on **Date Identified above**. If you challenge these particular proceedings in court, you may be limited to raising only those issues you or someone else raised during the comment period described in this notice.

DATED: December 6, 2022

Brian Bordona
Interim Director of Planning, Building, & Environmental Services
