* Current permitted production reflects the amount of wine a winery is permitted to produce each year, expressed in GPY (gallons per year)
 ** This is not always an exact number, as some wineries in the past were approved based on an average number of visitors.
 *** This figure represents the sum of the max. number of annual visitors plus the total number of marketing event visitors.
 **** "x" indicates that the winery falls within the Airport Industrial Area Specific Plan (AIASP).
