Subject: Syar

Dear Don,

I have lived in Napa for 50 years now and close by the State Hospital area both growing up then later on settling there with my new family. Syar Industries has been just one of many industries that have provided a great service to our community. Besides the jobs it provides, it provides our roads with the aggregate we need to keep them nicely paved without damaging more roads by needing it trucked in from other areas, which also cuts back on air pollution and gas costs and consumption. They were kind enough to allow Skyline park to use some of their land for park uses and has kept many employed here. Napa has lost enough jobs already as many large corporations have left not just our area but our state, we need to support local companies large and small and Syar has proven to be a caring and responsible company in caring about the environment as well as those living in the community close to them. I strongly support allowing them to continue working their Quarry and keeping industry in our area and not forcing more people to have to pickup their families and move in this stagnant economy. I was raised near them and have raised 4 healthy children living even closer to the Quarry, the scare tactics of the other side have nothing to back their argument on. Please help us keep them running here so Napa workers can actually keep working in Napa!

Sincerely,

Jana Narita

Enjoy Your Day!
