Notice of Planning Commission Study Session General Plan Circulation Element Update

Napa County proposes to update the Circulation Element of its General Plan, last amended in 2008, to update local transportation system information and incorporate current trends, best practices, and regulatory changes in the planning and impact analysis of transportation networks.

At its next regular meeting, the Napa County Planning Commission will conduct a study session on the draft update to the Napa County General Plan Circulation Element. The meeting will be held:

**Wednesday, May 2, 2018
9:00 a.m.
1195 3rd Street, Suite 305, Napa**

The May 2 study session will be an opportunity for County Planning Division staff to introduce the current Draft Circulation Element and the companion Draft Traffic Impact Study Guidelines document, and it will be an opportunity for members of the public and Planning Commission to ask questions and share feedback on the draft documents. At this time, staff does not request that the Commission make any recommendation to the Board of Supervisors with respect to adoption of the updated Circulation Element.

Copies of the draft documents and staff's report on the draft changes can be downloaded from the County's online agenda system, at http://napa.granicus.com/ViewPublisher.php?view_id=21.

Interested parties who are not able to attend the meeting may still review the documents online and submit written comments to Project Planner Dana Ayers, by email to dana.ayers@countyofnapa.org or by first class mail to Napa County Planning, Building & Environmental Services (PBES) Department, Attn: Dana Ayers, 1195 3rd Street, Suite 210, Napa, California 94559. Staff requests that written comments be submitted so as to be received in the PBES Department no later than 5:00 p.m. on June 1, 2018.

Questions about the Circulation Element update can be directed to Ms. Ayers by email; in person at the County Administration Building at 1195 3rd Street, Suite 210, Napa, during normal business hours; or by telephone at (707) 253-4388.
