

RESIDENTIAL FIRE REBUILD DECLARATION

Please fill out the following information when submitting for a fire rebuild. This information must be provided in order to determine if your rebuild qualifies for an expedited review and a fee reduction. Documentation must be provided supporting the location and size of the residence(s) and accessory buildings that legally existed prior to the fire. This information must be consistent with the permit application and plans you are submitting.

- (A.) Original Dwelling Livable Space* (sf): _____
- (B.) Allowable Replacement Livable Space (sf): _____
[Original Dwelling Livable Space (sf) x 1.25]
- (C.) Proposed Dwelling Livable Space (sf): _____
- (D.) Difference in Proposed to Allowable Livable Space (sf): _____
- (E.) Number of Bedrooms in Original Dwelling: _____
- (F.) Number of Bedrooms in Proposed Dwelling: _____

* Livable Space includes areas of any structure which contains permanent provisions for living, sleeping, eating, cooking, and sanitation.

I hereby certify that the information presented herein is accurate and complete. Incorrect information may delay your application(s) or permit(s).
